LONDON STOCK MARKET.

London. Aug. 15.—The stock market had a satisfactory tendency today. Home rails were dull following threatened labor trouble, but the offerings were unimportant. The demand for Mexican securities exceeded the supply, and the Scandinavian issues were strong. South American railways receded on unfavorable traffic returns. Oil and shipping shares railied.

Money was in better demand and discount rates were steady.

The national receipts were smaller last week, and the falling off is attributed to the holidays. The treasury bills issued amounted to £46,441,000. GERMANS SEIZING AMERICANS FOR ARMY

United States Citizens Living in Kaiser's Domain Being Forced to Serve.

Copenhagen, Aug. 15.—An American of German birth, who was permitted to leave Germany recently, says that the military authorities there are commencing to take American citizens long resident in Germany for military service on the grounds that they have forfeited their American citizenship and are now de-nationalized. Even native-born Americans, he says, have in some instances been put into the army,/but the military duty usually applies to naturalized citizens of Ger-

man origin.

The Americans, a number of whom have protested to the Spanish embassy, it is believed here, have little hope of escaping service.

## **GRAIN GOES DOWN**

Chicago, Aug. 15.—Uncertainty today over the new peace move and in regard to food control developments had a tendency to make grain prices decline. Corn closed steady, but at \$6 to \$6 control developments had a tendency to make grain prices decline. Corn closed steady, but at \$6 to \$6 control for at \$1.15 to \$1.15 \$6. December, and \$1.12 \$7. May. Wheat finished 4c down, but steady at \$2. September. The outcome in oats was unchanged to \$2 conv. Provisions showed an advance of 12c to 15c. Sellers had the advantage from the outset in the corn market. Only minor rallies took place and they served, in the main, no purpose but to increase the pressure from the bears. Aside from the questionable chance of a stoppage of hostilities and in addition to the likelihood that the fixing of an absolute price on wheat might have a material relation to a change in the standard of values for corn and oats, the favorable crop outlook counted to a noticeable extent against the bulls.

In wheat there was a sharp decline owing to liquidation by scattered holders who were confronting a certainty that within ten days business in future deliveries would be a thing of the past. Besides the bids from mills and other purchasers of spot wheat were decidedly lower than yesterday, and the call by no means energetic.

Onts gave way with other cereals. A contributing cause was an official statement that according to the present prospect this season lows would yield nearly 50.000.000 bushels more than last year.

Provisions jumped in response to a continued record-breaking advance in the hog market.
