DIED IN EAST BOSTON.
Many residents of St. John will regret to hear of the death of Michael J. McCarthy, formerly of this city, which occurred recently in East Boston. An invitation to address the St. John Canadian Club was sent recently by Mayor Frank to George Bury, vice-president of the C. P. R., who returned recently from Russia. Mr. Bury has replied that he would be happy to address the club, but that conditions in Russia have changed so much since he left that he would not feel justified at this time in basing an address on his observations. Some hope is held out that he may be able to address the club later.

Mr. Frank in communication with the two former presidents of the United States, Theodore Roosevelt and W. H. Taft, is endeavoring to secure them as speakers for the club.

B. FRANK SMITH'S LABORS
(Fredericton Mail.)
B. Frank Smith, ex-minister of public works had another uncomfortable day of it in the legislature yesterday. He has been asking a lot of questions of late and yesterday he got a dose of his own medicine. An answer to an enquiry by Mr. Michaud brought out the interesting information that on February 2 last, Mr. Smith wrote the White Company of Boston to the effect that the government would pay no commission to local agents on motor trucks, as it proposed to buy them direct. On the same day he issued a check for \$5,000 in favor of the Smith Foundry Co., the local agents of the company. There was no contract with the Smith Foundry Company at the time for motor trucks, but they got the check all the same, and it was "contracted" to furnish motor trucks for road building.

It transpires that the date on which the letter was written to the White Company, and the date on which the check for \$5,000 was issued to the Smith Foundry Company synchronized with the date on which the writs were issued for the election. The people took advantage of the opportunity and put the Murray government off the job, and blasted the hopes of B. Frank Smith.

UNION STREET REPAIRS AGAIN ARE DELAYED

Action Postponed Another Week for Further Discussion

H. M. HOPPER BEFORE COUNCIL

Company Asks City to Excavate Rail Section And Supply Refill Material — City Engineer Asks For Automobile For Departmental Use

Further discussion of the paving plans for Union street, West St. John, and of the portion of the work which should be undertaken by the street railway company took place at a meeting of the council in committee this morning. H. M. Hopper was present on behalf of the company and contended that the city should excavate the rail section and supply the material for the refill. As Commissioner Fisher could not agree, the matter was laid over until next Monday when the city solicitor and road engineer can be present.

A recommendation by the city engineer that an automobile should be purchased for use of the mayor's and harbor commissioners' departments was laid over without discussion.

Commissioner Fisher announced that he was not ready to submit plans for the Clarendon street repair work.

Mayor Hayes presided and all members of the council were present.

Mr. Hopper, relative to the plans for paving Union street, West St. John, explained the objections of the N. B. Power Company to renewing their rails there until after the war, but added that the commissioner had determined to go ahead. He said that the payment of \$1,400 a month to the city had relieved the company of its obligations to repair the track section and that, therefore, the city should dig up the rails and all that could be asked of the company would be the bringing of the rails up to the new grade. The work to be done by the city was only temporary repairs, and the change in grade was made necessary by the city's work not by the rails sinking. He asked that the city should do the excavating and provide the material for refilling.

Commissioner Fisher said that he and the road engineer did not agree that the city should do what the company asked, and all that could be asked of the company would be the bringing of the rails up to the new grade. The work to be done by the city was only temporary repairs, and the change in grade was made necessary by the city's work not by the rails sinking. He asked that the city should do the excavating and provide the material for refilling.

Mr. Hopper said that their contention rested on the agreement with the city that the latter should keep the track section in repair. With regard to changing material for refilling the grade, the cost of this was estimated roughly at from \$800 to \$400.

Commissioner Fisher said he believed that it would be neither right nor legal to grant the company's request.

Commissioner McLellan said that the interests of the citizens must be considered and it would not be in the public interest to create a canal in the middle of Union street.

It was agreed to postpone action until next Monday when the city solicitor and road engineer could be present.

With regard to an application for permission to erect a temporary shed in Queen street for use in connection with the construction of the new elevator, it was agreed that the council would not place an obstacle in the way.

A communication from William Murdock, the city engineer, recommending the purchase of a five-passenger automobile for the use of the department of finance and harbor, ferries and public wharves, was held over for further consideration, on motion of Commissioner Russell.

In reply to Commissioner McLellan, Commissioner Fisher said he was not ready to report on his plans for Clarendon street.

IN COURT ON CHARGE OF STEALING WATCH

James Jordan was before the police magistrate this morning on charge of theft of a gold watch, the property of J. Edward Barry, railway trainman, from the Lancaster Hotel, Fairville. The owner of the watch said that he boarded the same hotel as the defendant in Fairville. He changed his clothes on last Friday afternoon and left the watch in one of his pockets. On Saturday he went to get the watch and it was missing. He had suspicions of the defendant and had seen him in his room twice since Friday. Joseph Gilbert, a second-hand dealer in Dock street, said that the accused had come into his store on Friday and looked over some rings. He returned again on Saturday and asked for to see the rings. He selected one and, producing the watch, asked for an exchange. The bargain was made, the witness receiving the watch and the defendant the ring. The accused gave his name then as James H. Kelly, and said that he had purchased the watch in the west, having paid \$40 for it.

The owner of the watch identified the time piece produced in court as his, and said that the figures on the watch corresponded with the figures on card he had in his possession from the last time he had the watch fixed.

The magistrate remanded the defendant until tomorrow morning. He is a well dressed young man and attracted considerable attention in court. He arrived at the hotel some days ago and registered from Minnesota.
