best in life insurance. Premiums payable under this contract are only slightly higher than the Ordinary Whole Life rates, and one does not have to "Die to Win" because, under any circumstances, the face value of the policy is payable to the assured himself not later than at age 75.

All the usual options of dealing with the profits at the end of each five year period are provided. In addition, two special options are granted under which the profits may be used, to reduce the number of premiums payable, or to hasten the maturity of the policy as an Endowment.

An Accelerative Endowment will ensure your own independence in old age, if you live; the independence of your family, if you die. Write now for our booklet which explains in detail the distinctive features of this most desirable policy.
