

MAYOR TALKS OF VOCATIONAL SCHOOL

Objects to Situation Giving School Board Large Spending Power.

Mayor Potts this morning said he was very glad to see that some action had been taken to hold up for a time the erection of the vocational school and he hoped nothing would be done until such time as the elected representatives of the people had something to say as to when and how the money should be spent. In his opinion it was a crime that any body of men not elected by the people and responsible to no one but themselves, could impose an expenditure of \$450,000 on the citizens while the men who had to bear the responsibility had to sit back and twiddle their thumbs.

As Mayor of the city he resented being placed in the position where he would have to sign the bonds issued to build such a structure when he had no chance to say whether it should be built or not. He was of the opinion that the time had come when the trustees should be elected by the people and make their own assessment, thus making them directly responsible to the people for the way they expended the funds entrusted to them. He did not know of any other place in the world where a body not responsible to the electors had the spending of money as the St. John School Board had.

He said that in 1924 the amount assessed for school purposes was 91 cents on each \$100 and 7 cents in the county, making a total of 98 cents, or about one third of the entire assessment and the council had no say in making the assessment or spending the money. He thought if the city had any money to spend at the present time it could be better expended in trying to bring in new industries and in order to do this he would practically give away electric current for power. From reports he had received he was satisfied that St. John was the best town in the Dominion, in so far as unemployment was concerned, and that more industries would do away with that problem altogether.

HORSE KILLED BY STREET CAR

A horse, owned by J. Connell, was struck and killed last evening about 7 o'clock in Robbsey avenue near the Three Mile House by a Glen Falls street car. It was said that the animal, which was loose at the time, ran out of a gate right in front of the car. Before Motorman W. Doucette could bring the car to a stop it had partly run over the unfortunate animal. The street car traffic was delayed for a short time while the body was removed from the track.

EXCITEMENT IN KING ST. CAUSED

Citizens who were in the vicinity of the King street about one o'clock today were startled by a loud report followed by the smashing of glass in the window of T. McAvoy & Sons, Ltd. A lady who happened to be looking in the window at the time was showered with bits of broken glass. Inside the store a clerk was demonstrating a gun to a prospective purchaser and a cartridge exploded. It struck the thick pane of glass quite high up, fortunately and tore a hole about a foot square in the window. Harry Young investigated the matter. Quite a large crowd collected on hearing the report.

Burden Shifted.—Dougherty says he put the decree on Hanson's desk when he was away. After this the plaintiff changed his basis of defence and said it was after his return the bond was dictated. But in order to adopt this line something had to be done about a letter he wrote Mr. Nevers on Oct. 30, when he spoke of the decree and asked her to come in. That letter was not on the file submitted to court. Mr. Hughes was blamed by Mr. Hanson for that. He shifted the burden to his own counsel. He believed it was after his return from Montreal he dictated the bond until he found Miss Anderson's note-book. But it was the defence that secured this note-book and not Mr. Hanson. She was sent after her note-book and when she returned Mr. Hanson went and talked with her. The note-book shows the first bond was dictated on Oct. 30.
