Germans Defend Titles. Berlin, Oct. 11—(Associated Press, by Mail)—Three German boxing champions successfully defended their titles all on the same bill here recently. Urban Grasz, the bantam-weight title-holder, won in seven rounds because his ponent's skull was so badly damaged a head-on collision that his seconds rew in the towel. The loser was "Phenomenon" Volkmer, who is more than forty years of age. Hans Breitenstreter, Germany's heavyweight pride, knocked out the Belgian heavyweight champion, Jef de Paus, in six rounds. Richard Maujocks, the German lightweight title-holder, defeated the Belgian boxer Claes on points, but the decision was not generally approved. Hana, Austria's welterweight champion, gave up in the sixth round to Ernest Grimm, a Berlin fighter. The bill attracted one of the largest gates ever attended a German boxing programme, the spectators numbering more than 10,000. Considerable interest was manifested here in Siki's sensational defeat of Carpentier, boxing fans recalling that Breitenstraeter once battled the Sengalese to a draw. ATHLETIC. Williamstown, Oct. 81.—Coach Jack Coombs of the Williams baseball team concluded fall practice here last week. He has departed for Texas, where he will spend the winter. Coombs will return early in March to take charge of the Purple squad in the cage.

Fall workouts for the diamond candidates were held here for six weeks, with the varsity and freshman squads practicing separately. Toward the end of the drills, the two nines played a series of games in which the first year nen showed plenty of promise. Coach Coombs will return in the spring prepared to pick out varsity material without wasting time in experimenting. It is predicted that several of the Purple veterans will be forced to fight hard to hold their positions on account of the freshman opposition.

Larly in the nineteen hundreds, at a sume when I thought all yearning for authorship dead, an idea came to me while on a train, which I thought might make a good short story. Falling before the tempation, I began writing the story that night finishing it two or hree days later. On sending it to the Atlantic I was amazed to find it accepted and paid for at once—and pulsilished within a few months. A writing career was further precipitated by the fact of partially losing my sight. On ha day when I realized my eyes were toing, I bought a typewriter. If the worst came to the worst, I know I could learn to work as a blind man plays the piano. The worst did not come to the worst, though it came to pretty bad. Detroit, Oct. 31—Snooping by police around private homes to discover prohibition law violators was vigorously condemned in recorder's court by Judge Thomas M. Cotter.

"I never realized until a few months ago how risky it is to neglect a cold in the chest. I have always had such good health, that a cold either in the head or chest, while unpleasant, never gave me any worry. Outside an occasional cold, I had never known what it was to be laid up even for a day in all my life, until last December. One afternoon I got a chill and no matter how close I got to the stove, I couldn't seem to get warm. This chill was followed by a cold in my chest.
