MATTER OF IMPORTATION OF LIQUOR INTO THE PROVINCES OF CANADA.

Toronto, March 13—Dr. S. Grant, organizer of the Ontario temperance, from committee, yesterday said he was satisfied that the present dominion law was good enough to stop the importation of liquor into Ontario if a majority of the Ontario electors voted in favor of this. As to the committee's request to have a referendum as soon as possible, Dr. Grant said, "Every province in Canada, except Quebec, is asking for a plebiscite under the new federal law, and Quebec is shaping up for it, too."

Ideal Candy for Pocket or Purse

WINT-O-GREEN LIFE SAVERS

5c

SO many candies, when you start to eat them, have to be finished up right there. You can eat one Life Saver or two, then fold the tin-foil and drop the rest of the packet into your pocket or purse.

You can finish the pack tomorrow or next week—they'll still be crisp and fresh. You can take Life Savers out of the pack with a gloved hand without soiling the glove, because Life Savers are highly compressed—nothing sticky or mushy about them.

Buy genuine Life Savers and carry them with you always. 5c a pack.

WANTED INVENTIONS

An interesting and encouraging thing about these fortune producing inventions is that most of them are of ordinary or minor value in themselves. If you have noticed that you must invent a big thing to make money, get rid of it at once. Many of the simplest ideas have made their inventors millionaires are those which contained very few entirely new ideas.

The safety razor, the sanitary drinking cup, the hump hairpin, the comfortable tire rim—any of these could have been invented by a man of average ability. In your every day life, at home, at your office, in your shop you handle any number of articles that are subject to improvement. If you can think of a way of improving some article or process already in use, or if you can invent a new subject device or process or article of manufacture, you are on the road to fortune. Invention made a fortune from a single shipping-tag. Prepare now to meet the demands of industry in All Fields for New Ideas and New Inventions. Before sending your invention to any attorney or manufacturer or disclosing your invention, write for our free blank form PROOF OF CONCEPTION in order to protect your invention and secure your rights.

WE ADVERTISE our Clients Inventions Free in INDUSTRIAL CANADA, which is the Official Magazine of the Canadian Manufacturers Association. It pays to have Shipman's Service. Ask for our new booklet "Patent Protection"

Send Model, Sketch and description of any new invention you have for Free Opinion as to Patentability. This Certificate of Patentability together with our blank form "Proof of Conception" will protect the Inventor and serve as a proof of the invention until the case can be filed in the Patent Office.
