

New Brunswick Sets Pace In Health Legislation

Illuminating Address by Hon. Dr. W. F. Roberts Before Convention of Women's Institutes—Describes the New Act and Tells of Organization Planned

In his address before the convention of Women's Institutes in Fredericton this week, Hon. Dr. W. F. Roberts said: In Canada, Ontario was practically the first province to adopt medical inspection. It was first carried out in Toronto and now the remotest portion of the province is under this legislation. Later the western provinces have fallen into line, and nearly every province has either separately or in association with the educational department, some form of medical inspection.

Banner Province.

New Brunswick, I might humbly suggest, is the banner province of the dominion in having an act calling for a department of health, represented upon the executive the same as the other departments; in other words, placing the question of the health of the people in the foreground where it naturally belongs. This means that medical inspection will be controlled by the state in this province and the argument for the support of this rests upon the fact, and it cannot be denied, that there are present in the schools (town and country alike) children suffering from preventable and remediable diseases of which both the teachers and the parents are ignorant; besides others suffering from diseases the serious nature of which only the doctor can recognize. This assertion is supported by the support of figures and statistics, but in passing let me recall the fact that more than 80 per cent of the children are suffering from defective teeth, and 50 per cent are affected with vermin or other parasite conditions; 20 per cent with defective vision, and that 10 per cent are retarded in their educational progress by physical defects such as anemia, general debility and deafness, resulting from adenoidal growths or discharging ears. These figures may not be exact, but the general inference is sufficiently sound and inasmuch as the greater national asset is men and not money, it behooves the state to be up and doing, particularly at this, the most unique time in the history of the world regarding the question of the conservation of health and life.

Then a further argument to my mind.

RHEUMATISM CONQUERED

I say that I can conquer rheumatism with a simple home treatment. I have cured many cases of rheumatism, sciatica, neuralgia, etc., with a simple home treatment. I have cured many cases of rheumatism, sciatica, neuralgia, etc., with a simple home treatment.

In some instances will visit the schools as often as it is thought necessary.

The premises of school buildings are inspected by the medical inspector and district health officer, and recommendations for their betterment from a sanitary standpoint will be left for the trustees to act upon and will be kindly compulsory.

The system of school inspection is good, but rendered much more effective by a school nurse whose duty it will be in cities and towns at least to visit the school with the inspector and then to follow up the work at the home of the child to see that such is being attended to.

I have in mind some service of a similar nature for rural districts, but it will take some little time to develop same.

It is needless at this stage to direct your attention to the fact that the effect of medical inspection on future citizenship will be the robbing of our hospitals, asylums, sanatoriums, etc., of their patients and handing them over as practically healthy units to the state as an all-round asset, and all that meant to the home and the various callings in life.

Have You Friends Who Suffer?

You have friends who are discouraged, who seem to have lost all interest in life, and whose sufferings are acute—because they are afflicted with Kidney or Bladder trouble?

Have your golden opportunity to be a real friend to your friends. Tell them about GIN PILLS, what they have done for others, and about the thousands who have found relief by taking this remedy.

Persuade your friends to try them, if only a sample box. Mrs. James Harris of Port Rowan took the advice of a friend and wrote us for a free sample. Hear in her own words the results:

"My husband had suffered for some time with lame back and kidney troubles. He seemed so bad, work was almost impossible. So many remedies were tried without effect that he became discouraged. A friend advised him to give GIN PILLS a trial, which he did, and to-day he is almost entirely cured."

The case of W. T. Baldwin, of Smithville, Ont., is similar in many respects. Mr. Baldwin suffered from a pain in the back for over three years. Finally on advice from friends he tried GIN PILLS, with the result that he obtained relief from his pain after taking the first box.

There is no need for anyone to invest a cent in GIN PILLS until they have received a sample free and tried them, as Mr. Harris did. Write to-day, telling us to send a sample box free to your friend's address.
