BUILDING PLANS

WELDING RESULTS

Fifteen Government Steamers new in Service—Plans For Sixty Vessels

Ottawa, Oct. 30.—The programme of ship construction undertaken by the Dominion government early in 1918 has yielded substantial results. To date fifteen ships have been delivered and are already in service under the direction of the Canadian National Railways. There have been twenty-five sailings, aggregating 116,000 tons of traffic. Voyages have been completed between the Atlantic seaboard and the United Kingdom, and from the Pacific Coast to Great Britain. Thirteen voyages have been completed between Canada and the West Indies and Cuba and to South America, and one to Newfoundland. A service is already under way to Australia and New Zealand, and it is possible that the first ship will be available at Vancouver in about Dec. 1. Additional sailings will be inaugurated to London, Glasgow, Avonmouth and St. John's, Newfoundland.

When the present government ship-building programme is completed sixty vessels will be in service. These will have a dead-weight tonnage of about 82,500 tons.

The Dominion of Canada ships have brought some 35,000 tons of raw sugar from Cuba. A real shortage was averted by the national ships as no privately-owned ships were available for the service.

British Government Will Lift the Bread Subsidy

Premier Lloyd George Makes Statement in Sheffield That Present Arrangements for Handling Flour Will be Done Away With Shortly.

The British government, according to a statement just issued by Premier Lloyd George, will soon lift the bread subsidy. Under present conditions the British government stands a loss of sixteen and seventeen shillings on every bag of flour sold to the English bakers. Now, according to the premier's statement, this subsidy will be done away with. The process of handling grain has been so complicated that the government must draw a check for the cost of the wheat, but cheap bread, for the consumer, is government selling below cost. This loss, however, was made up nearly in its entirety by government of flour to France, Italy, Norway, Sweden and Denmark. In these latter countries bread is very high owing to the cost of the flour, but in England the consumer now pays only nine pence for a four-pound loaf. This subsidy is now selling at 2-6d per pound.

GOOD WISHES AND GIFT OF GOLD TO REV. R. B. FRASER

The Cathedral Sunday school teachers at their monthly meeting on Sunday afternoon took occasion to say farewell to Rev. R. B. Fraser, and express in a tangible way their appreciation of the reverend priest, who has been in the honored and efficient director of the Sunday school for some time, and who is going to a new field of labor. The president, Miss Moran, reviewed the progress of the Sunday school under Father Fraser's direction and paid well merited tribute to his zeal and painstaking efforts in its interest. Miss Katherine O'Neil and Miss Rheta MacNeil also while congratulating him on the recognition of his ability and devotion to the work of God.

A presentation of a purse of gold was made, after which Father Fraser thanked the teachers for their expressions of good will and the hearty cooperation he had always received from them, asking a continuance of the same for his successor, Rev. Father Oram, who was present also. Father Fraser goes to Sussex to join in the work of Rev. Joseph McDermott.
