To the Subscribers at the Annual Meeting Held This Afternoon

The estimated fees from pay patients of \$12,000 has not been reached, the amount received this season being only \$8,000.

The drainage of the hospital is still a source of much anxiety to the directors, and it is to be hoped now that the city has full representation that this will be attended to without delay.

The lightning of the hospital is still done with oil but it is hoped that it will now see its way clear to use electric light or gas.

The item of laundry is still heavy, but until proper drainage is adopted by the city and a laundry established at the hospital this cost is not likely to be materially lessened."

The report of the resident medical officer shows a very large list of out patients treated, number 248 and 508 out door patients.

Dr. Richardson, the resident medical officer, has continued his earnest efforts in every way during the past year, and the unanimous thanks of the directors staff under his control is worthy of all commendation.
