Of different patterns, and various prices. He has purchased the right to Manufacture  
A. M'SHERRY'S PATENT PLOW, Patented October 30, 1867.  
The advantages of this Plow, over all other Plows are his patented Wrought Iron Beam, at-  
tached to wood handles, with adjustable Collar. It possesses all the qualities of the best  
Wrought Iron Plow, being much lighter, and can be manufactured as cheap as the Wood  
Plow. The Landside and Mould-board are of a different formation from any other Plow in the  
Dominion. This Plow is warranted to cut higher, save the furrows better, pack closer and  
draw lighter than any other plow that can be produced. This Plow has been tested against  
the best Plows in the Province, at two grand Plowing Matches, in the County of Wellington,  
in November, 1867, and carried off the first prizes in both Men's and Boys' classes.  
A stock of the above named Plows kept constantly on hand.  
GEORGE M'SHERRY, Ingersoll.
