AT VARIANCE WITH TRAMWAY COMPAN

CITY WILL NOT BEAR COST OF THE RAILS

Interesting Question Arises at Council Meeting as to Who Shall Lay the Car Track.

Once during last night's regular meet ing of the city council did the mayor and aldermen find themselves in a belligerent mood. The provocation was a letter from the manager of the Tramway Comin the matter of re-tracking Government work to be carried on in early spring. The subject was warmly discussed, and petition was received and referred to the was the most interesting question of the city engineer for report.

He intended to build on a lot facing on that failing such acceptance Mr. Sprink-that street, and requested that the city ling's claim be resisted. engineer be detailed to define the proper! The report was received and adopted. Referred to the city engineer for

To the Mayor and Council of the City of Re Block Paving Government Street.

Gentlemen:-We have the honor to ac knowledge the receipt of your advice that How the Work Has Progressed—Com it is the intention to proceed in the spring plete Information is Being

From your advice in the matter it would appear that your honorable body assumes that this company is compelled or is under some legal obligation to, at its own cost, provide a different class of rail than that

So that there may be no misunderstanding, we have to at the earliest opportunity e must fall upon the municipality. We have to draw your attention to the

fact that in 1897 at a great expense to ourselves we laid a 60-lb. "T" rail with proper ballast, and were, previous to doing so, assured that there was no likelihood of Government street being block paved, at that time putting in a double track and proper connections, with the approval and according to the requirements

Apart from the legal position, we have to respectfully point out the inequitableness the rails has still very many years to run -and to add to the company the cost of new rails and the other cost to be thrown upon the company, is, we submit, wholly

your honorable body in a fair and honorupon strict legal rights, and we think this must be admitted, at the same time consideapital expenditure that the company is at

company's position, but at the same time the company has, we consider, been always ready to meet your hororable body in every belief that it was better to duplicate a way to advance the convenience of the citi | man's name rather than miss him en-

Whilst such is the case, however, we sub- ate any duplication. mit that the proposed work cannot reasonably be at the company's expense. We have the honor to be, gentlemen,

Your obedient servants,
B. C. Electric Railway Co., Ltd.,

ALBERT T. GOWARD. Local Manager.
Ald. Yates thought that the Tramway

Company had dealt with the aldermen in a most unfair way. The city had de- down for operation of all the steam maferred the paving purposely in order that the company could get the heavy rails, and he for one would not favor that the rested in the development of the min-city meet any of the company's expense. In the development of the min-ing industry. I have also endeavored to

Ald. Brydon acquiesced with his brother aldermen, but Ald. Williams moved an amendment that a committee pe appointed to confer with the company in regard to the matter.

ment. The same in regard to conf. I have a number of reports on coal. Then we have the industries—the sawmills. machine shops, brick yards, electric light and power plants, and so on, and the total feet of lumber cut in the territory

Ald. Cameron was of opinion that the ommittee should consist of Ald. Wilcommittee should consist of Ald Williams, the city solicitor and the mayor, ready been collected." The understanding of the city with the company was not in writing, but it was certainly believed by the council that as soon as the city was prepared to go chead with the paving of the street the

company would be ready to lay the track. Killer. The mayor pointed out that such a committee could not act, as it would

The letter from A. T. Goward local manager of the B. C. Electric railway of the sum appropriated for the improvement to the James Bay mud flats. The council adjourned at 9.30 o'clock.

TAKING KLONDIKE CENSUS.

Collected.

The general work of census taking in the Klondike district has commenced. In an interview describing his labors Census Commissioner Henry J. Woodadvise your honorable body that all such though the number of obstreperous people was not large, they were certainly numerous enough to delay the work and

encourage others to attempt to evade

"There is absolutely no sense in a man trying to evade this census, as the par-ticulars sought are neither to be used for royalty or any form of taxation whatever, but for the sole purpose of providing tables as to the population, health, wealth and resources of the country. I must say, however, that the great bulk of the people gave the enu merators every assistance in the work and made their task an easy one. had a good staff of enumerators who did their work in a thorough and conscien judge at present. Some of the work

that has come under my notice has been very satisfactory. "In addition to the regular names with all personal particulars, we have collected thousands of names only, of persons who are moving around, who inication is written instructions were that in case of doubt

The sifting process will elimin-"There is a month or two of hard work yet to sift out these names and tabulate and prepare the report. I have had reports from each of the districts outside of Dawson on agriculture, timber and fuel, fishing, game birds and heasts. I am also preparing a complete report on the horsepower of engines and boilers, and the total value, as laid city meet any of the company's expense.

Ald. Beckwith said he knew that the company had been telegraphing away for the rails for some time, and he agreed quartz or engaged in its development and the extent of such development and the extent of such development. the rails for some time, and he agreed quartz or engaged in its development, and the extent of such development, and the extent of such development. The same in regard to coal. I the product, freight, etc.

and said that the sawing of wood on the street was certainly a nuisance. Ald. Yates said he understood that the

SEEKING NEW MARKETS

The city solicitor in reply said he did How Probable Action on the Part of the Big Trust Might Be Neutralized.

Recent actions on the part of the copper trust, and the growing production of copper in British Columbia have aroused the apprehensions of mining men in repany disclaiming that concern's liability malt district asked that the city open a gard to the future, and have led to their street from Williams street to a point on suggesting steps which would counteract street in connection with the pavement Craigflower road, stating that the land any hostile act on the part of the big craighower road, stating that the required would be donated gratis. The trust. Prominent among those who have studied the question is W. M. Brewer. The fire wardens reported recommending M.E., of this city, and in an interview

> Butte, Montana," he said, "relative to mines temporarily in order to keep the price of copper at its present high rate, British Columbia, that at some future of this province is sufficient to have an

"There is no doubt that the price of copper for a long time past has been F. P. Watson, Cummings and Hobbs. rather artificial than real, and regulated more by the trust and curtailed produc-tion than by actual demand. Up till the resent time the production of British Columbia has not been sufficient to cut any figure on the market, but in future ese conditions are likely to be changed. During the past year the production rom the low grade ores of the Boundary Creek district has been such that any increase in the smelting capacity will certainly attract attention from the copper trusts. It is the expressed inten-tion of some of these companies to continue increasing their smelting capacity, and the present time is, in my opinion, the best time to look ahead so that there may not be any fear of a repetition of the complaints which followed the action

help herself, if she will do so, and place herself in the position almost entirely independent of either the trusts in the United States or the English market so far as lead, copper, iron and steel products are concerned. True, this is a very early day to advance this position, but it is nevertheless true, because the markets of Hawaii, Japan, China and Australia are at her doors, and in those markets she should be able to meet all

"A good deal of talk has been made about the establishment of smelting and refining works in British Columbia.

"British Columbia can help herself in this way. Let the provincial government select some representative in each of the countries I have mentioned who of the countries I have mentioned who off. In some places work was done on is competent to compile statistics and ascertain beyond any doubt the quantity and character of lead, copper, iron and steel products which the markets of the control of the contr and times making, it is not out of the way
for the company to call attention to the
fact that the proposed work, if undertaken,
must fall upon the municipality.

We trust that your honorable body will

The honorable attention to the classified and sifted out so as to avoid duplication, because in many cases the same name might be handed in by several enumerators.
