NOTICE TO MARINERS.

NOTICE TO MARINERS.

TOMPKINSVILLE, NY, Oct 5-Notice is given by the Lighthouse Board that a lantern, showing a white light, suspended from her starboard forerigging, about 8 feet above high water, has been placed to mark the wreck of a barge loaded with coal, sunk in New York Lower Bay. The wreck lies in 30 feet mean low water, in the middle of the tain Ship Channel, and heads about NNW. The hull is submerged, with three masts and Armasts visible above the surface. The tagnetic bearings from the wreck are: Elm free Lighthouse, NWAW; Old Orchard Shoal sighthouse, WSWAW; Coney Island Lighthouse, NEWAN. Pilots should exercise great aution in passing this wreck, es, in such a arrow channel, it forms a very dangerous batruction.

bstruction.

Woodworth, Mr. and Mrs H. Dunham Mrs. Ada Miles and Miss Bessie Fos-er.

night. The management divided the attractions pretty equally between the three days, with the result that the attendance kept up well to the very last. The great rush was on the second day, when over 5,000 people were present, but the horse show, which took place today, drew its own special patrone, and the grounds were a scene of much activity all through the aftertoon. The showing of horses, while not up to the standard of some years ago, was as creditable as that made in recent times in any part of the province. The decadence is not due to right. The ma any want of enterprise on the part of the farmers, but is the result of a poor est centred around the hauling match, in which three extra fine matched teams competed. The first prize went to Mr. Aiton's horses, and the judge's islen was unanimously endorsed out the awarding of the second prize o Mr. Roach did not meet with so much favor, a large part of the specator's believing that Major Campbell' eam was fully as good as Mr. Roach's ses. It was a close run for second place, and even had the judge given different decision he would not have bleased the multitude

The presence of the Sussex band this evening was much enjoyed and helped o swell the attendance. Much of the success of the exhibition is due to the earnest labors of Col. Beer, who gave a great deal of imesto the arrangement of the exhibits and allotted the space most judiciously. It was not util pretwell up to the time ppening that the management disovered that even the new buildng was not large enough to accommodate all applicants, and Major Campbell and his associates are already nsidering the question of enlarging the hall before next year's show. The chibition has been a financial as well as a popular success, and a credit to the enterprise and push of Sussex Following is the balance of the prize
