

THE EXHIBITION. One of Most Successful Ever Held in St. John.

The Attendance Ran Away Ahead of Recent Years, and But for Wednesday's Rain, It Would in All Probability Have Crowded Close Up to Seventy Thousand—Everybody Delighted With the Result of the Show.

The dark sky and threatening weather of Tuesday caused a marked falling off in the attendance, and although quite a number of excursion trains arrived from Fredericton and points on the C. P. R. and I. C. R., it was not until some time after dinner that the grounds presented anything like the lively appearance of previous days.

The programs of out-door entertainment were more elaborate than usual, a slack wire performance and some other features being introduced by the Japs, in addition to their former acts. The Roman chariot, and other more very exciting, and Natta's thrilling high dive was most neatly executed, but in the eyes of the great mass of the multitude the parade of the prize horses and cattle, and the exhibition of Mr. Sanborn's troop of French coach horses.

The most prominent visitor of the day was Hon. P. A. McIntyre, lieutenant governor of P. E. Island, who arrived in the city Monday night and was escorted to the Royal Hotel by the exhibition executive. On Tuesday morning about 11 o'clock his honor, accompanied by Messrs. McLaughlin, J. H. McAvity and R. B. Emerson, visited the exhibition and was shown through the various departments.

The management have strained every point to make the closing day a success, and to that end have arranged a grand display of attractions. If tonight is fine there should be a large attendance. It rests with the people of St. John, the masses, to make this exhibition in point of attendance the highest ever marked in the history of the city.

Table with 4 columns: Day, 1898, 1897, 1896. Rows for First day, Second day, Third day, Fourth day, Fifth day, Sixth day, Seventh day, Eighth day, Ninth day, and Totals.

Do you remember how you felt in the mornings when you were a boy? How hungry you came to table! How tired you were at the end of the day! How glad you felt when you were soundly asleep!

have disposed of sixteen or his prize sheep and swine.

The exhibition of 1899 has passed into history. In point of attendance it ran ahead of the snow of 1897 by about 12,000, and but for Wednesday's heavy rain, morning, afternoon and night, and the unfavorable weather of Monday, the total attendance would have gone pretty close to 70,000.

Amusement had added considerably to this year's income, and so did the grand stand, but with an up-to-date system of selling admission and reserved seats, the revenue from these two sources can be largely augmented next year.

WHERE THE PRIZES WENT. A comparative statement of the prizes obtained by the different provinces is of interest at the close of the exhibition. New Brunswick leads in the number of its first, second and third prizes, in which it practically equals its nearest rival, Nova Scotia.

ABOUT GRAINS AND ROOTS. W. S. Blair of the Experimental Farm exhibit in agricultural hall, was questioned yesterday by a Sun reporter as to the difference between varieties of grains and roots.

Do you remember how you felt in the mornings when you were a boy? How hungry you came to table! How tired you were at the end of the day! How glad you felt when you were soundly asleep!

ent of agricultural hall, has the thanks of the members of the press for a generous donation presented last night.

The difference may be no difference. The difference may be in the formation of the head, the straw may be larger and stiffer in some sorts than in others, while others may be susceptible to rust, smut and other diseases.

The Banner, said Mr. Blair, probably has as large a range as any sort grown. It is later than the first named and of a rather different type. With some varieties, however, the influence of soil and climate is so pronounced that to recommend them is not advisable.

QUESTIONS AS TO THE BEST SORT OF GRAIN TO GROW. Mr. Blair said that there is and naturally always will be a difference of opinion as to the best sort of grain to grow.

SUNDAY SCHOOL. THE INTERNATIONAL LESSON.

LESSON I.—October 1. GOLDEN TEXT. I was glad when they said unto me, Let us go into the house of the Lord.

PLACED IN THE HISTORY. The return from exile began B. C. 538. The temple was completed in 520. We now are in the midst of the return, just after the completion of the temple.

PSALM 122. The date of this Psalm is unknown. It fits best the times of David and Solomon. But whenever written, it belongs to a post-exilic collection, just as our modern hymnbooks are continually obtaining new hymns from very ancient days and revising them for present use.

CASTORIA For Infants and Children. BUIVERMILK AND BILIOUSNESS. (What to Eat.) Here in the south, where we have to guard against malarial affections, we drink a great deal of buttermilk.

THE BURDEN OF TIME.

(From the Canadian Magazine.) Before the sea and mountains were brought forth I signed, I hung the universe in bright I capped earth's poles with ice to South and North.
