TORONTO, ONT.

WANTED. A FIRE-PROOF SAFE, a second-hand one will do. Report to the MESSENGER AND VISITOR office.

News Summary.

DOMINION.

—The Labrador fishery catch will be the best for 20 years.

—An Ottawa despatch says: Thursday, Nov. 6th, has been set apart as Thanksgiving day.

—Montreal's population is now estimated at 233,000, and the suburbs added will make it 283,000.

—Diphtheria, of a malignant type, has appeared in Windsor and bad drainage is mentioned as the cause.

—The Sackville and Westmorland Agricultural Society holds its annual exhibition Wednesday, Oct. 15th.

—The Yarmouth Cotton Duck Company has for this year placed \$35,000 to rest, and pay a dividend of \$7,500.

—A wild cat attacked two men while logging near Shubenubie River, the other, day, and badly scratched them before it was despatched.

—Mackerel are still being caught in St. Mary's Bay in large quantities. Word was received from Boston that the price has fallen considerably.

—The Yarmouth and Shelburne S. S. Company intend placing a steamer on the route from Barrington to ports east in Shelburne Co. next season.

—While a man was digging a well near Matland, N. S., a few days ago, he came upon a seam of coal, which now promises to be worth working.

—Sir John A. Macdonald and some of his colleagues in the government are expected to visit and speak in the Maritime Provinces in a short time.

—The Fredericton exhibition has been postponed until the 15th and 16th of October, when it will be carried out on a more extensive scale than previously intended.

—From the harbor commissioner's report last year, it is learned that during the past year 1,325 vessels of all kinds arrived in Charlottetown, with an aggregate tonnage of 275,574.

—It is reported from Ottawa that the gross revenue of the post office department for the fiscal year, 1889-90, shows an increase of over a quarter of a million dollars, compared with the previous year.

—A late issue of the Royal Gazette contains a notice of incorporation of the Windsor Gold Co. (Ltd.). The stock will consist of 40,000 shares at \$2.50 each. The object of the company is to town and develop mining lands.

—The Nova Scotia Glass Factory opened for work last Tuesday and is now in full blast. There are a large number of orders to fill and business is booming. Humphrey's factory will open for business next week with lots of orders on hand.

—Silver is reported to have been discovered near Brookfield, Colchester Co., N. S. It is said that a rich gold lead also exists near the same place, in connection with which it is said by a person competent to know, a 100 stamp mill will be running in one year.

—It is estimated that ten to twelve million feet of square lumber from the Ottawa district, cut expressly for the American market, will be held over at Quebec this winter. The recent troubles in South America have also seriously interfered with lumber shipments in all directions.

—Application has been made to incorporate the Rawdon Anthony Mining Company, limited. Capital \$50,000, in shares of \$10. Head offices in Halifax and East Rawdon. The incorporators are: Robert McNaughton, of Truro; Benjamin F. Pearson, of Charlottetown; and John Dunn, of Halifax; John Sim, of Rawdon.

—W. W. Dimock, Truro, has been appointed secretary in Nova Scotia of the Jamaica exhibition, which opens in Kingston, January 27, 1891. The government pays freight of exhibitors both ways. November 1st, 1890, the latest date, that articles from Nova Scotia will be received at Halifax. Mr. Dimock, no doubt, will be happy to give intending exhibitors any information.

—For the week ending September 17, the P. E. Island products shipped from Summerside, the steamer St. Lawrence were valued at \$14,000. Meats, live stock, geese, oysters and fish were the main items. On Wednesday morning, the St. Lawrence carried to Point du Chene, among other freight, 648 barrels of oysters and 120 barrels of mackerel, and the M. A. Starr, 239 barrels of oysters and 200 bags of oats.

—Says the Amherst Record: On the ship railway the damage is heavy—much water in the cuts and the mud has been washed in, and will take much trouble to remove. The Lawson mine at Macan considerable water in it. Mr. Fuller's loss at Athol and Hastings will be about \$4,000. All the marshes in this vicinity were flooded. A large quantity of cut grain has been ruined by sprouting. The damage on the Shinimicas is heavy.

—The Signal, of Acadia Mines, furnishes its readers with the following: Apples were first grown in Nova Scotia in 1653. First recorded mention of coal in Nova Scotia, 1654. First attempt at mining coal in Nova Scotia was in 1720. The first Canadian coin was issued in 1858. The first railway advertisement appeared in the Montreal Gazette 1837. The first horse in Canada arrived 20th June, 1647, and was presented to the Governor, M. de Montmagny. The first smelting of iron in Canada took place at the St. Maurice Forges in Quebec, October 1733.

—J. Woodworth, of Revere, Mass., writes: "I suffered a week from toothache; one application of Foter's Liniment cured me. We found it very valuable in Pneumonia, Headache, etc." All dealers.

—A faded and discolored beard is untidy and a misfortune. It may be prevented by using Buckingham's Dye for the Whiskers, a never failing remedy.

—It is stated at Ottawa that the Imperial Company is arranging an extensive system to obtain all claims in Crow's Nest Pass, N. W. T. If successful, large refineries will be established there and the projected railroad, for which the Galt Company holds a charter, will be built to that point.

—The cod fishery is reported poor on the southern coast of this island during the past week. At Bay St. Lawrence fall mackerel have made their appearance, and a few were taken. At Ingonish plenty of squid reported, but will not jig. At Arichat cod and mackerel fishing is poor, but herring fishery fairly good.

—The loss to farmers by the heavy rains last week was greater than was first supposed. The weather being warm, wheat and oats in sheaf sprouted rapidly, causing great damage to the large quantity of grain cut but not housed. Some large farmers, we hear, estimate their total loss by the late storms at not less than \$1,000.—Weekly Patriot.

—It is said the best of the fruit crops of Nova Scotia is being sent to the States, and only the second rate apples coming to Halifax and going to St. John. Oats, potatoes and other produce are being hurriedly shipped from Prince Edward Island and the province to American ports in vast quantities in anticipation of the coming into effect of the McKinley tariff bill.

—Mr. Thomas H. Smith, of Athol, has a cow of common stock, which surpasses most thoroughbreds. When three years old she made 124 lbs. of butter a week, and gave 232 lbs. of milk, and is now giving 20 quarts of milk a day. Mr. Smith keeps some excellent stock which has bred by selecting the best of his herd to breed from. He has one of the finest three-year old bulls in the country.

—The sardine factory at Welshpool, operated by Wm. T. Gosselin & Co., of Montreal, of which Alexander McNeil, of St. Andrews, is local manager, began packing Saturday 17th inst. The factory employs sixty operatives, and its advent is heartily welcomed in the community. It is the only sardine factory in operation in the valley, and its output should find a ready market in Canada.

—Work commenced at the evaporating establishment this week, and many and curious are the questions some people ask as they inspect the works. The establishment, if it is to be a success, will only take pains to collect hundreds of bushels of apples that previously have gone to waste. The price paid per bushel is small, but still it is more than can be got out of the apples to turn them into cider.—Annapolis Spectator.

—"Pay as you go, and get what you pay for." Sheppard Hoskins, late secretary of the Mutual Life of New York, and author of the American Experience Table of Mortality, in a recent letter to the Monetary Times, says: "The level premium system has its advantages and its disadvantages. It is a combination of insurance, which is one thing, and of investments, which is quite another thing. Each man can choose for himself whether he prefers to pay for insurance as he gets it, or whether he prefers to pay largely in advance. The one is as sound in theory as the other, and if it is to be a success, it must be so. It is a matter of fact, however, that our territory is decreasing, and, of course, impossible with such a vast Dominion to give the exact extent of our country, and it is probable that, as surveys are made and measurements corrected, all the estimates made for some time past will be more or less wrong. It is a matter of fact, however, that the Dominion is nearly thirty times as large as the whole of the United Kingdom, and that Canada is 500,000 square miles larger than the United States with Alaska.

—Up to date there have been 3,472 cases of cholera in Spain and 1,787 deaths from the disease. Twelve feet long, sixteen feet wide and four inches thick are the dimensions of a redwood plank, which has been sawed in Eureka, Cal., for exhibition at the World's Fair. The warehouses at Liverpool of all the Atlantic lines are crammed with goods which merchants are anxious to export before October. Freight has advanced from 60 to 70 shillings a ton. A report relative to the recent heavy floods in China says they were the most serious ever known. Three thousand miles of an area and a population of several millions were affected by them. Many people were drowned. The rains of August in England were succeeded by splendid harvest weather in September. London despatch declares: "It is quite within the facts of the case to say that the weather of the past three weeks has made the English nation a present of £10,000,000."

—Further reports show that the damage by floods in France is enormous. Factories have been destroyed, and railways damaged to such an extent as to render them impassable. The floods were accompanied by some loss of life. The water is still rising.

—A hail storm at Devil's Lake, Dakota, has ruined all the crops in the district which were spared by the drought, and it is said the destitution this winter will be worse than last.

—The most valuable freight train, probably, that ever crossed the Rocky Mountains, came recently by the Atchison, Topeka and Santa Fe Road. It consisted of thirty-eight cars laden with silk, oil, wine and seal skins to the value of about a half million dollars.

Jeux-de-Mots.

A witty lady says:

"That common DYES cannot die too soon."

"That some ladies really die in the attempt to dye with worthless dyes, which give forth poisonous and deadly exhalations."

"That worthless imitation DYES are already branded by the dis of public opinion, and must dye ere they die long."

"That the dyes used in branding crude imitation package dyes, so as to have them look outwardly like the 'Diamond' DYES, should be confiscated by law, so that the unwary be not deceived."

"That profit and pleasure cannot be found before DYING, if your DYING is not done with Diamond DYES."

"That Diamond DYES while DYING goes on never die, but always dye so as to live in the hearts of the people."

"That Diamond DYES dye to live; and although their consumers die, they die satisfied that what they DYED would retain color, brightness and beauty after they died; thus DYING with Diamond DYES gives consolation and sweet recollections, even when DYING is so; all may dye and dye easily, before the die of fate is cast, which calls on them to die."

Notices of Meetings.

The next district meeting of Antigonish and Guysborough counties, (including Port Hawkesbury), will open at 10 o'clock a. m., Tuesday, October 14. It is hoped that pastors and representatives of all the churches will be present. Let the brethren do their best to attend. The last meetings were specially good, and the next will be so too, if the brethren only come.

J. CLARK, Chairman.

The next session of the Albert Co. Quarterly Meeting will be held with the Third Hillboro church, at Demoiselle Creek, on Tuesday, Oct. 14, at 2 o'clock, p. m. Rev. S. C. Moore is to preach the quarterly sermon. Rev. J. C. Steadman is his alternate. Rev. W. Camp and Dea. R. Wilbur are to read essays. The following are conveners of the standing committees: On grouping churches—Rev. S. C. Moore; on prayer—Rev. W. Keirstead; on missions—Rev. W. Camp; Sabbath school—Dea. R. Wilbur. A large attendance is expected, and we hope all the churches in the county will send their delegates.

S. W. KEIRSTEAD, Sec'y.

—Mr. Henderson, Newcastle, writes: Dear Sir, I was laid up with acute Rheumatism so bad that I could neither walk nor sit for four months, attended by two doctors. I rubbed five bottles of different Liniments on me, receiving no relief. I then got a bottle of your British Liniment and bathed myself with it at night, and next morning I was able to walk down town, and the third day I was able to work, and have been working ever since, and am rapidly recovering.

Marriages.

ROLF, WEATHER—At Cheverie, Sept. 24, Stephen Rolf, to Beattie Weather, both of Cheverie.

CLYNTON-MACOMBER—At Somerville, Hants Co., Aug. 16, Dimock Clynton, to Lally Macomber.

OAK HALL CLOTHING HOUSE,

Cor. King and Germain Sts., ST. JOHN, N. B.

CUSTOM WORK A SPECIALTY.

WALKER.—At Marlboro, Mass., 13th ult., Mrs. N. M. Walker, formerly a resident of Shediac, in her 73rd year.

CHUTE.—At Woodville, Kings Co., Sept. 21, Abbie, wife of Richardson Chute, of Berwick, and daughter of the late Wm. C. Cox, of Somerset.

ROBINSON.—At Campbellton, Sept. 20, F. W. Robinson. Our brother united with the church here a few years ago. "Blessed are the dead that die in the Lord."

BETCHER.—At Halifax, Sept. 11, Henry C. Betcher, Esq., in the 35th year of his age. Also, Sept. 17, Emma Myrtle, infant daughter of the late Henry C. and Emma Betcher.

NEAL.—At Greenwich, Kings Co., N. B., Sept. 13, after an illness of four days, Laura M. aged 9 years, only daughter of the late Wm. Neal, and was seldom absent from the house of God on the Lord's day.

TREURY.—At Newport, Sept. 14, Mark Treury, in the 73rd year of his age. The deceased was a member of the Baptist church at Hantsport, and was seldom absent from the house of God on the Lord's day.

SPIDLE.—At Bridgewater, Sept. 15, Albert J. son of Howard and Sarah Spidle, aged 4 years, 4 months and 5 days. Although so young, the little one told the sorrowing parents, in the beginning of his sickness, that he was going to die.

BAROCK.—At Dorchester, Mass., after a lingering illness, on the 13th ult., Annie, wife of J. T. Barock, aged 37 years. She leaves two little children, and an early bereft of a mother's love and care. Her remains were brought to Upper Gagetown for burial, where she had formerly lived.

BIGLOW.—At Antigonish, N. S., Sept. 17, after a short illness, Charles Bigelow, in his 84th year. He was baptised by the Rev. W. Walcott in 1846, during a season of gracious revival, and since that time has been in steadfast fellowship with the Antigonish church. He was regular in his attendance on the means of grace, and unflinching in his testimony down to the very last. During his illness he had much peace. Gazing often on a picture of Father Harding hanging on the wall, the remembrance of that good man's prayers for himself and family gave him great delight; but all his trust on Christ was stayed. His name will long be remembered with esteem for his kindness, honesty, and piety. The late Rev. Manson Bigelow was his brother.

JEFFERSON.—At Bloomington, N. S., Miss Addie C. Jefferson fell a victim to consumption, Aug. 15, at the age of 20 years. When 14 years of age she experienced saving faith in the Redeemer, and united with the Nictaux church. She walked consistently with the church, but during her protracted illness of two years she found her Saviour more precious than ever before, and frequently expressed her gratitude for His tender, loving care. She was frequently visited by her pastor, who was always gratified to hear her quiet, yet confident expression of trust and hope in her Saviour. Towards the close of life's struggle, she was overcome with gratitude at seeing before her, in vision, a beautiful crown; and she was

consumption, Aug. 15, at the age of 20 years. When 14 years of age she experienced saving faith in the Redeemer, and united with the Nictaux church.
