

THE WEATHER

Toronto, Oct. 26.—Present conditions decidedly high from Ontario to the Maritime Provinces, while the depressions which were over Florida, Kansas and British Columbia have become much reduced in energy. The weather has been fine today in nearly all portions of the Dominion.

AROUND THE CITY

CHILD DEAD. Much sympathy is felt for Mr. and Mrs. Thomas Ramsey, 484 Main street, in the loss of their infant son, Joseph Charles, aged three months.

WORK HELD UP. The work on Prince Edward street will be held up for three or four days on account of a shortage of paving blocks. Commissioner Frink announced yesterday.

BACK ON ROUTE. The El Ross, ferry steamer between Indiantown and Pleasant Point, which was forced to lay off last week because of repairs made, is once more on the route.

NO SITE AS YET. Mayor Schofield said yesterday the committee in charge of looking for a site for the proposed hockey rink were having difficulty in finding one suitable that would be convenient. He expressed the opinion that a rink could be built for from \$10,000 to \$12,000.

POWER BOAT CLUB. The Power Boat Club is rapidly taking on a winter like aspect with about 60 boats hauled up already and more boats leaving their summer moorings in the waters of Marble Cove for their winter quarters on its banks every day.

PLENTY OF ICE. Reports from ice river districts say that there is quite a lot of ice along the shores for this time of year and that the marshes and swamps are partially frozen over. Present indications point to an early winter.

LONGSHOREMEN'S WAGES. The negotiations between the longshoremen and the shipping companies in regard to wages and working conditions for the coming winter will not proceed any further until a meeting of the men on November 7, to discuss the report of the committee who met the shipping agents.

MAKE GOOD PROGRESS. Good progress is being made in the paving of Marsh Road by the contractors, the Currie Construction Co., the grading on one side being all done and the surface laid as far as the McAviry plant. Grading on the other side is rapidly proceeding.

HARBOR DEVELOPMENT. Mayor Schofield said yesterday that he had asked the Commissioner of Fisheries to prepare a plan showing the layout of the harbor as it would have been under commission, and as none of the opponents of commission had come forward with a plan for development, he would see what could be done in the matter.

ICE FORMED YESTERDAY. The cold weather of Tuesday held through the night and early yesterday morning the mercury dropped to twenty-four above, eight degrees below the freezing point. Through the morning water which was set out of dogs in a ditch had quite a scum of ice form on it, and the flowers still in bloom looked sick enough, the frost practically killing them all.

PUBLIC UTILITIES. The regular monthly meeting of the Public Utilities Commission was held yesterday morning in the Government rooms. An application from the Electric Power Co., Ltd., of Southville, asking the board to compel a better service from the Eastern Electric and Development Co. of the same place was received and an order issued returnable November 23.

CANNOT COME. Secretary Romans of the Canadian Club, acting on a report that A. Bonar Law would be in Canada this autumn, invited him to address the club. The distinguished statesman replied by letter dated October 23: "I thank you very much for your kind invitation to address your club, but I do not think there is any likelihood of my being in America this autumn."

Will Nominate The Candidates

National Liberal and Conservative Delegates to Assemble in Seamen's Institute. The National Liberal and Conservative Party will nominate candidates this evening for the City and County of St. John and County of Albert. The convention will be held at the Seaman's Institute, Prince William street, at 8 p. m., and all the delegates elected at the primaries will be present. Special accommodation will be provided for the ladies. All indications point to an exceedingly large attendance.

Sheriff Here With Prisoners

Frank Langford and Jack Clifford Are En Route to Penitentiary to Serve Terms. Sheriff Reid, of Gagetown, arrived in the city yesterday afternoon with Frank Langford and Jack Clifford, who were convicted before Judge Slipp, in the Queens County Court of breaking and entering the C. N. R. Station at Gagetown and stealing a quantity of goods from express parcels there. The two prisoners were confined in the local jail last evening, and will be taken to the penitentiary at Dorchester this morning to serve the terms noted out by the court. Both men pleaded guilty to the charge and gave their residence as St. John.

Three Test Cases In Police Court

J. A. Barry for Union Bus Co. and H. H. McLean, Jr. for Prosecution. Three test cases for violation of the city traffic laws by the Union Bus Co. were taken up before Magistrate Ritchie in the police court yesterday afternoon. H. H. McLean Jr. appeared for the N. B. Power Co., and J. A. Barry for the Union Bus Co. In one case, that of a Union Bus stopping within fifty feet of a white pole, Rupert Taylor stated he had reported Bus No. 1093 for stopping about thirty-five feet from a white pole on Market Square on Sept. 16th. He was prepared to swear that the distance was less than fifty feet. At first the witness said he could not say in which direction the bus was travelling but on further consideration was sure it was proceeding towards Dock street. No further witnesses were called and J. A. Barry then took up the argument on the three cases before the court, namely that of allowing more than one passenger on the driver's seat of a Union bus; of allowing persons to stand on the steps of the bus; and of stopping within fifty feet of a white pole; all of which constitute violations of the city by-laws according to recent legislation enacted at city hall. Mr. Barry contended that the Union Bus Co. had been incorporated under a provincial charter and were operating under, and subject to, the N. B. Motor Vehicle Act and that the city did not therefore have authority to prevent a Union Bus from stopping at a certain place where a street car was allowed to stop, and that such a law would constitute class legislation, and would moreover be ultra vires. As to the carrying of passengers, he said the street cars had been allowed to carry passengers on their hangers, the aisles of the cars, the vestibules, the steps, and even the fenders of the street cars had been crowded with passengers for years, and yet the city had taken no steps to prevent what was clearly a violation of the laws of safety. He could see no reason therefore why an ordinance should now be passed preventing the Bus Co. from carrying two passengers on the driver's seat, when in no way impaired the driver from operating the car. As to standing on the steps, he thought this prohibition was also ultra vires, as the city had no power under the Motor Vehicle Act to pass such legislation. Again referring to the Provincial Act, Mr. Barry said it was there enacted that the operator, and not the licensee of the car, was the one who could be held responsible for any violation of the act by such car. F. A. Campbell, president of the company was summoned to appear for each of the violations by the cars of the Union Bus Co. reported to the court, as he was registered as the licensee of the cars. Mr. McLean claimed that the by-laws were passed by the city and were in force, and whether they were ultra vires or not, the court was still obliged to sustain them, as the laws had been passed in the interest of public safety. As to whether Mr. Campbell should have been summoned or not, Mr. McLean said the defense in their contention had referred to the definition of "person" as defined in the Motor Vehicle Act, but it differed from section two of the city traffic law, which provided that action might be taken against the licensee of the bus. The three test cases were allowed to stand until Saturday morning at 11 o'clock for judgment.

Cattle Facilities Being Estimated

Shippers Expect About 18,000 Head Will Be Shipped This Winter. An estimate of the cost of providing facilities for the handling of live cattle at this port are being prepared by the engineers of the Marine Department. The figures will show the cost of fitting up the Island Yard on the C. N. R. and D. shed at No. 15 berth, West Side, and as soon as completed will be forwarded to Ottawa. As soon as these have been received there, a decision as to which of them the government will fit up will be made and the work started at once. The shippers expect about 18,000 head will be shipped during the coming winter and St. John is in line to get a large share of this trade if the facilities are provided.

Plans For Opening The Winter Season

Executive of Canadian Imperial League Conducted Important Business. A large and enthusiastic meeting of the executive of the Canadian Imperial League was held last evening at the office of Charles Robinson, Canterbury street, president of the league. All the members were present and much important business was transacted. Twenty-five new members were added to the list. Plans for a grand opening for the winter season were talked over and the members may look for something good when the rooms are opened the second week in November. The executive are preparing to make the league an even bigger factor in the life of the community than it has been in the past, and promises there will be something doing all the time.

Local Council of Women Have Placed Milk Can in Hotel to Receive Money.

A very striking appeal for a milk fund for the needy children of the city has been placed by the Local Council of Women in the Dufferin Hotel. A large milk can has been converted into a penny bank, and placed in a prominent position on the cigar counter. Attached to the can is a sign which reads: "Be a lady Help a baby Be a man Fill the can Drop a penny They want money. The very commendable appeal to the public to donate to a worthy response."

CONCRETE DOES PROTECT

A Standard representative was shown yesterday by G. O. Hare, City engineer a piece of the reinforcing of the old twelve inch concrete main laid from Spruce Lake 63 years ago and it was as bright as the day it was put down. This is good evidence for the claim that concrete does protect reinforcing and keeps it from rusting out.

Labor Leaders Are Declined to Accept Liberal Nomination

Twelve Trades and Labor Council Members for Holding Unlawful Assembly. Lt.-Gov. Pugsley Will Not be Candidate—Another Convention to be Called. Lt.-Gov. Pugsley has definitely declined to accept the nomination of the Liberal party to contest the constituency of St. John-Albert in the coming Federal election. In a letter dated October 26th, addressed to the chairman of the committee appointed by the convention, His Honor expressed his appreciation of the honor which the delegates had bestowed on him; but he stated that for reasons which he had verbally and confidentially mentioned to the committee he felt that he would not be doing justice to himself or his party in accepting the nomination. Several names were mentioned yesterday evening to replace Lt.-Gov. Pugsley as a Liberal candidate. The name most mentioned was that of Dr. E. P. Emery, but it is understood that as yet nothing definite had developed. Another convention will in all probability be held within the next week, although no definite date has been fixed. The existing condition in local Liberal ranks appears to be of a very chaotic nature, and none of its members appeared last night to know just what developments would ensue in regard to the choice of another candidate.

PERSONALS

J. L. Healey, of St. Stephen, was a guest yesterday at the Royal Hotel. B. K. Colwell, of Wickham, is registered at the Victoria Hotel. L. Kennedy, of Moncton, was stopping at the Victoria Hotel yesterday. G. F. Lancaster, of Moncton, registered yesterday at the Royal Hotel. Miss Fraser, New Glasgow, is a guest at the Bradford Hotel. D. OPHANS' FAIR

Another good crowd was present at the Protestant Fair last night and a brisk business was done by the booths and games. The 26th, had furnished a splendid programme of music. Tonight the Martello Band will be present. The prize winners were: door prize, James H. Gault; best bean stew, Bert Edwards; ladies bean stew, Mrs. J. T. McCormack; best bean stew, Mrs. J. T. McCormack; best bean stew, Mrs. J. T. McCormack; best bean stew, Mrs. J. T. McCormack.

Second Trial of John Paris

Man Charged With Murder of Sadie McAuley Will be Given Another Trial. The second trial of John Paris, charged with the murder of nine year old Sadie McAuley at Riverview Park on the 3rd of August last, will probably be taken up before Chief Justice McKenna on the opening of his circuit here on November 22. The attorney-general Hon. J. P. Byrne will conduct the prosecution for the crown. The Hon. Mr. Byrne was in the city yesterday and in company with Sergeant Detective Powers and Detective Hildescombe visited the spot where the unfortunate young girl's body was found buried beneath some rocks at the foot of the slope in the rear of the park on Douglas Avenue. Hon. Mr. Byrne stated yesterday that he did not think the case would be ready to be resumed on the opening of Mr. Justice Barry's adjourned session on November 1st. It is understood that the crown has been carefully building up their case since the disinterment following the first trial, and that some very strong evidence will be produced at the second trial. It is further stated that the defense will produce a number of witnesses who have recently returned from harvesting in the West, and who will swear that Paris was on the harvest train which left Truro on the night of August 2nd for St. John. Paris is at present a prisoner in the county jail.

The Bay of Fundy Survey Under Way

Gov't Stmr. Acadia Being Used in the Work—Soundings off the Lurcher. The re-survey of the Bay of Fundy, asked for by the Board of Trade in the interests of navigation, is now under way and it is expected the re-survey will be made known and a new chart issued just as soon as possible. The government steamer Acadia is being used in the work, according to information received by J. C. Chaeley, agent of the Marine Department, who has been advised that she is now making soundings off the Lurcher shoal. Last night he had no definite information as to when she would be up in this part of the Bay but expected she would keep on until the whole Bay had been covered.

EVIDENCE TAKEN IN THEFT CASE

The preliminary hearing of Fred Gallant, charged with breaking and entering the store of E. R. Taylor, 45 Union street, W. E., and stealing several pieces of cloth, was taken up yesterday morning in the police court. J. A. Barry appeared for the defense. Mr. Taylor gave evidence and the case was allowed to stand until Monday morning at 10.30. A number of traffic cases were dealt with. Fines of \$10 each were struck against John Seaman and James H. Beard for speeding. Three charges against O. W. Wood were allowed to stand till the Mayor could be called as a witness.
