

WASHINGTON CONFERENCE TURNS TO CONSIDERATION OF FAR EASTERN PROBLEMS

(Continued from page 1)
As many public sessions as possible are desired by the Japanese in the discussion of Pacific and Far Eastern questions, members of the Japanese delegation declared today. They added that the Japanese would welcome open discussions because they want to be able to examine Japanese policies in the Orient.
It was indicated that Japan would like to adhere to her attitude, voiced at Tokyo a few months ago, that questions affecting particular states be left so far as possible to direct settlement between those states and that no effort be made to discuss the past in connection with the general situation of the situation in the Orient.
Japan stood ready, it was insisted by her spokesman, to admit her faults, but if the conference were to plunge into history, as to Japan or the other powers, she feels it would prove useless and probably stir up ill-feeling. Such an examination, the Japanese point out, would logically include the conditions under which Great Britain occupied Hong Kong and Wei Hai Wei and France Indo-China, and to mention the spheres of influence of these countries in the Yang-Tze Valley and Yunnan province, respectively.

Oppose International Control.

It was also intimated today that the Japanese are opposed to the idea of an international control of China, contending it would be a violation of the sovereignty of that country. Japanese say they are willing to work for a real open door in China which would include all parts of that country, even Tibet and Mongolia, as well as Manchuria, in which Japan considers she has special interests.

Outstanding Features.

Four outstanding features of the official British viewpoint on China's proposals on the Far Eastern question were emphasized tonight by the highest authority.
Great Britain reiterates that she is in full agreement with the open door policy.
She regards the "spheres of influence" as antiquated and unsuitable to modern conditions.
The Panama Canal is not regarded as a specific question, and will not be argued on the consideration of the conference.
The Anglo-Japanese Alliance is not regarded by the British as directly involved in the Chinese proposals for

The Nationalist Press of Germany Makes Discovery

Only American Egoism, Lies,
Hypocrisy and Dishonesty
in Proposal.

Berlin, Nov. 15.—(By the Associated Press).—The nationalist press discovers in the proposals of Secretary Hughes at Washington only "American egoism" and "lies," hypocrisy and dishonesty. The newspapers declare that Germany cannot expect the slightest relief from French cruelty, carried on with a revolver of the hip along the Rhine.
Some of the newspapers express the belief that the delegates greeted the proposals of Secretary Hughes with approval in order to gain time "to put something over on each other."

Married

CONNELLY-CARSON—At St. James' church, Broad street, on Nov. 16, 1921, by Rev. H. A. Coady, George Edgerton Connelly to Mary Helen Carson.

Died

Settlement of the Far Eastern question, although it may be drawn into the discussion at a later stage.

Washington, Nov. 14.—Members of the French delegation, commenting upon the Chinese proposals, agree that they form a suitable basis for discussion of the whole Far Eastern question. The proposals to them, however, seem to lack definiteness, except as to principle, and it is presumed that the Chinese delegation will take an early occasion for suggesting specific articles of such outstanding issues as Shanghai, Peking, Manchuria and all the other disputatious problems.

Briand's Position.

Premier Briand, while not saying anything respecting the Chinese project, in talking after the meeting, did comment upon the general outline of his speech about the French army which he will be prepared to deliver at an early plenary session of the conference.
"France being isolated,—for she is isolated," said he, "in a different position from the United States, Great Britain and Japan in the limitation of naval armaments, those countries are friends, and they propose as friends among themselves to reach a reasonable and equitable restriction each having due regard to the position of the other. France is not in such a relation to Germany. Consequently, France is bound to make such provision for her security as seems to her sufficient."

Fear Germany

"Germany is in a situation where she can, with great rapidity, mobilize five or six millions of men who have had service in her armies. We must be able to put immediately into action a force adequate to delay or prevent rapid mobilization. I shall go into these questions in the address I am to make when Mr. Hughes indicates the day."

Relation to Turkey

M. Briand was questioned respecting the treaty with the Turkish Kemalists. "We have made that agreement," said the Premier, "so that we may now have in Syria and Cilicia, the Ankara agreement permits us to do that."
"Will that agreement enable the Turkish Government to have Constantinople?" he was asked.
"It remains for the Greeks to reach an accord following which, I assume, the Turkish Government will have possession of Constantinople," said M. Briand.

Landru Pleased With Developments In Murder Trial

Prosecution Announces That
All Evidence Against Blue-
beard is Circumstantial.

Versailles, Nov. 16.—When the trial of Henri Landru, called "the Bluebeard of Gambais," adjourned this evening until tomorrow, the prosecution had made acknowledgment that it was basing its case on circumstantial evidence alone in charging that Landru was guilty of numerous murders. Landru was exultant over the admission of Prosecutor Godofroy.
With regard to the disappearance of women in Paris, Landru turned to the prosecutor and said:
"I can point out 150 women taken from the morgue and buried in Pottier's Field each year during 1915, 1916, 1917 and 1918."
When adjournment was taken today only three women remained to make accusations or produce direct evidence against the prisoner.
Contrary to other famous trials, in which interest has decreased as the hearings proceeded, the number of spectators in the court room today was much larger and more select than on any day since the opening of the hearing. A member of the French Academy, theatrical stars and famous authors were present, but the monotonous recital of the sordid details by the women witnesses afforded them little over which to become interested.

Catarrh Means Impure Blood

It is a Constitutional Disease

When it affects the nose and throat and becomes chronic it weakens the delicate lung tissues, deranges the digestive organs, and may lead to consumption. It impairs the taste, smell and hearing.
Take Hood's Sarsaparilla, which by purifying the blood removes the cause of the disease, so troublesome at this time of year, and gives permanent relief.
"I had catarrh of the head and stomach, and dreadful ringing noises in my ears. I decided to try Hood's Sarsaparilla; my health improved wonderfully and I adopted Hood's Sarsaparilla as my family medicine." Mrs. M. Janney Shaw, St. Johns, O.

IMPROVING RAPIDLY.

Favorable reports on all the recent accident cases admitted to the General Public Hospital were received on enquiry at an early hour this morning. The patients, in reported considerably improved and practically out of danger.
Isaac Patchell is also much improved, and his case is no longer considered serious.
Master Arthur Post while still suffering from a flesh wound in the face will be discharged shortly.
LATE ARRESTS.
One drunk was arrested early this morning and four prostitutes were seen leaving at the police station.

KEEPS HIS WORD.

Charlottetown, P. E. I., Nov. 16.—Shortly after informing his housekeeper that he was going to bed himself, the body of Roderick McRae, aged 62, farmer of Little Sands, was found in two feet of water in a pond near his late home.

Pacific Problem of Vital Interest To Small Nations

Solution Will Affect Their Colonial Possessions in Far East.

Washington, Nov. 14.—Because it will more directly affect the countries they represent and because they will have a voice and vote in the deliberations upon that question, the solution of the Pacific problem naturally looms as of largest importance upon the vision of delegates from the smaller nations which have been invited to participate in the conference on the Limitation of Armaments which was begun here this week.
Speakers from these countries expressed today their profound admiration for the proposal for naval disarmament promulgated by Secretary Hughes at the opening session of the conference and the opinion that it would be accepted.
The three smaller nations that will sit at the conference table when that great conference seeks to arrive at a solution of the weighty problems of the Pacific are the Netherlands, Belgium and Portugal. Of these three nations the Netherlands and Portugal have a colonial interest in the Orient, those of the Netherlands being large and important. Belgium has substantial financial interests in China and is vitally interested in the settlement of outstanding questions affecting her political status and her economic relations with the rest of the world.
"The proposal of looking to a reduction in naval armaments that was presented to the conference yesterday by Secretary Hughes, in my opinion, if it becomes effective, will greatly benefit the world," said Dr. E. Moreau, principal technical adviser of the Dutch delegation. Dr. Moreau is secretary general of the Netherlands Association of Colonies, and a former vice-president of the Dutch East Indian Council.
"The Government of the Netherlands is keenly interested in what the conference may do to remove or diminish possibilities for future discord in the Pacific," he continued. "In the settlement of the question it is vitally concerned. We have large colonial possessions in the Orient and consequently have an important mission of civilization to perform in connection with the emancipation of native races under our suzerainty, who now must depend upon us for the material necessities of life. The performance of every function of orderly government, and in preparing them for a larger measure of self-government. That peaceful government, naturally would be greatly disturbed and materially retarded in the event of a future upheaval in the Far East."
While delegates from these lesser nations expressed a lively hope that some progress would be made towards the settlement of the Chinese puzzle—perhaps the most vexing problem with which the conference will be confronted—there was an almost unanimous opinion among them that the final settlement would have to await a more opportune time.

General Bruce May Head Next Everest Expedition

London, Nov. 16.—Brigadier General C. C. Bruce, Canada, has been offered the leadership of the Mount Everest expedition to succeed Col. Howard Bury, your correspondent learned today. General Bruce, at the present time is secretary of the Glaciers and Territorial Association, but has asked for and received a leave of absence.
Gen. Bruce is considered one of the greatest living authorities on the Himalayas, where he passed 20 years, and is fitted for the task, in addition, by his wonderful physique. Gen. Bruce was the organizer of two previously planned Mount Everest expeditions which did not make good, and is a member of the special committee of the Royal Geographical Society, which planned the present expedition.
He has seen military service all over the East, chiefly in India. He commanded the Chinese expedition at Gellipoli in 1916, where he was severely wounded and mentioned in dispatches. He returned to India in 1917 and commanded the North West Frontier and the Gilgit Agency in 1918. He is also mentioned in dispatches for his services in this and other frontier wars. He received further mention and was decorated.

Women Taking Active Interest

Well Organized in the Riding to Assist in Electing Meighen Supporter.

Woodstock, N. B., Nov. 16.—The Vogue Theatre was packed to the doors this afternoon with the citizens of Woodstock, especially the women for whom the lecture was especially meant, to welcome and listen to Sir George E. Foster, the clever statesman who, being born in this country, has been an outstanding figure in the political life of the Dominion for over forty years. The ovation given to Sir George on his arrival at the theatre was sufficient evidence that in that large audience composed of all shades of political following he was acknowledged to be without a peer as a great statesman and an authority on all the public questions that affect the welfare of Canada. He presented a masterly array of facts and figures as he dealt with the issues of the day, such as the railway problem, mercantile marine, condition of exchange, national debt, tariff, unemployment and the like.
On the stage with Sir George was Lady Foster, Mrs. Harry King, the chairman and president of the Conservative Ladies' Organization of Woodstock, Mrs. Colonel Sunder and Hon. B. F. Smith, the candidate for Gaston-Victoria. After a few introductory remarks by Mrs. King, she introduced Mr. Smith.

Candidate Speaks.

Mr. Smith said that this was the largest gathering of women yet brought together in this contest. He paid a tribute to women in all walks of life. He eulogized Sir George as one of the great men in Canada, and no man had done so much for Canadian politics during the last forty years as had Sir George Foster.
Since he was nominated on Oct. 20 he had travelled much throughout this country. In this contest there were two candidates—
Mrs. Minnie Bell Adney—"Three candidates, Mr. Smith."
Mr. Smith—Three candidates, then, Mrs. Adney, but in the meetings held he had met only one candidate, T. W. Caldwell, who was the candidate of the Grain Growers, the president of the world, with headquarters in New York. He gave examples to show that selfish ideas were behind the Grain Growers of Western Canada. During the darkest days of the war, the Grain Growers demanded of the government to set the price of wheat at \$3 a bushel, and they would refuse to grow wheat the following year; and, as a result, the price of flour went as high as \$18 a barrel. The Grain Growers at present are able to hold their wheat in elevators until they can get the very highest prices.

U. S. Railroads Announce 10 p.c. Rate Reduction

Will Apply to Farm Products
in Car Lots; To Extend Six
Months.

New York, Nov. 16.—An immediate reduction of ten per cent. in certain freight rates on farm products for a period of six months was agreed upon today by executives of the railroads of the United States.
In announcing the decision, Thomas De Witt Cuyler, president of the Association of Railway Executives, stated that any reductions in such rates since Sept. 1, 1920, were to be included in the ten per cent. and that it would be put into effect without waiting for a reduction in wages. The freight rate cut will apply throughout the entire United States except on traffic moving wholly within New England.
It was expected that the new rate would be effective within ten days, as the Interstate Commerce Commission, through their general counsel, to authorize the change on one day's notice. The reduction will cost the railroads about \$25,000,000, it was estimated.

SIR GEO. FOSTER OPENS CAMPAIGN IN CARLETON CO.

Gov't Candidate, Hon. B. Frank Smith, Addresses Meeting With Canada's Statesman.

Meighen showed that any disturbance of the tariff would be most disastrous for the welfare of Canada. He proved that England and the United States, in proportion to population, had many times more the number of unemployed than had Canada, and explained clearly how these conditions were the direct result of the war and the disturbance of trade conditions the world over. He closed by advising all to vote for Hon. B. F. Smith. He had a right to give that advice, as he was born in this country, and he regretted to say he had his parents moved away when he was three months old; but he always had a warm spot in his heart for the country of his birth.
Reception to Lady Foster.

A reception was given to Lady Foster at the conclusion of the meeting. She said that she had heard a great deal about this country from her husband, and was much impressed with its beauty and advantages, and expected to make another visit here in the near future.
Sir George Foster, Lady Foster, and Hon. B. F. Smith left for Hartland at 6 o'clock this afternoon, where a meeting will be held this evening.

To Stop a Cold in One Day Take Laxative BROMO QUININE tablets. The genuine bears the signature of E. W. Grove. (Be sure you get BROMO.) 30c. Made in Canada.

MEIGHEN OF THE MASTER MIND

The world rings with the momentous news from Washington of the apparent success of the Disarmament Conference. Canadians must thrill with pride as they realize that their unassuming, reserved, almost ascetic Prime Minister paved the way for this great gathering by the very decided stand he took at the Conference of British Premiers against the renewal of the Anglo-Japanese Alliance and in favor of a friendly rapprochement between the United States, Great Britain and Japan.

Back Hurts Use Salts For Kidneys

Eat Less Meat if Kidneys Feel
Like Lead or Bladder
Bothers.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.
You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then set fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flushed kidneys and stimulates them to normal activity. It also neutralizes the acids in the urine so it is no longer irritating, thus ending bladder disorders.
Jad Salts is harmless, inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.
A well-known local druggist says he sells lots of Jad Salts to folks who are suffering from recurring kidney trouble while it is only ten cents.

CANADA'S GREATEST CITIZEN

HAS NEVER FELT THE RHEUMATISM

Since Taking "Fruit-a-tives" The Famous Fruit Medicine

F. O. Box 128, Pasadena, N. B.
"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up.
I tried medicines I saw advertised, and was treated by doctors but the Rheumatism always came back.
In 1918, I saw an advertisement, that "Fruit-a-tives" would stop Rheumatism and took a box, and got relief; then took "Fruit-a-tives" right along for about six months and I have never felt my Rheumatism since."

THE INDUSTRIAL BOOM ENTIRELY WITHOUT CAUSE

Dr. Rathenau Delivers E tremely Pessimistic Speech at Bremen.

Berlin, Nov. 16.—"Our industrial boom will not last long," was the keynote of a brilliant two hours' speech delivered by Dr. Walter Rathenau, ex-Minister of Reconstruction, before the Democratic party convention in Bremen. Analyzing German economic situation, he said:
"In the foreground of economic discussions must reckon the fact that we have an absolutely clear understanding of the cause of this boom. The optimistic view held abroad against our consequences has changed. The hope of German economic reconstruction is no longer shared abroad. The catastrophe of Upper Silesia has also supervened. It is the victory of those of our enemies who do not want us to flourish and prosper again.
"Feeling abroad must be variously estimated. Everywhere a khaki Parliament, elected under the influence of war or the armistice, is a reality with which the sane statesmen must reckon. Favorable turn for us is not to be expected. We are today in the position of a seller who is absolutely dependent on buyers for our paper money; otherwise it is unusable.
"How do we stand in principle toward the reparations question? Or can we do against our consequences? Anyone who recommends a policy of resistance must tell us how he proposes to carry out such a policy. As honest men we must say one thing: We will help repair the shattered
