of prayer in the Yong Men & Chanenica. In St. John next Sunday many of the pastors will preach sermons especially for young men and during the week services will be held from 9.30 to 10 o'clock each evening in the Y. M. C. A. It seems evident from recent develop-ments that the exploits of Kelson and Briggs in St. John were mearjy incidents in their criminal career. Yesterday Chief of Police Clark received from the chief of police of Saco (Me.), a list of valuable articles alleged to have been stolen by them from that city. The list includes several gold watches. The chief says none ef. the articles mentioned were either brought to St. John or disposed of here by them. The meeting of the St. John or disposed of here by them. The meeting of the St. John or disposed of here by them. The meeting of the St. John or disposed of here by them. Among other things needed to make the immates com fortable this winter is a supply of blankets. Miss Leng Mortisey and David Bradley,

the work is being done. It is expected that the home will be ready for occupancy again in about two weeks. Among other things needed to make the immates com-fortable this winter is a supply of blankets. Miss Lena Morrisey and David Bradley, ir., were united in marriage by Rev. Dr. T. F. Fotheringham Tuesday afternoon at the residence of the bride, corner of City Road and Stanley street. The groom was supported by F. E. Morrisey, and the bride was attended by Miss Emma prince. The groom's gift to the bride was a seal coat and to the bridesmaid a ring set with pearls. Mr. and Mrs. Bradley left on the afternoon train for a trip to Worcester (Mass.), and on their return-ing will dwell at 81 Summer street.

W. A. Quinton is suffering from a seri-ous accident sustained while working in his barn Monday afternoon with his horse. The animal kicked a door which swung back and struck Mr. Quinton with such force that he was thrown against the wall, a distance of 20 feet. He lay for nearly an hour before assistance came. Though suffering very much he did not think it necessary to summon a doctor, believing that muscles only were injured. Doctor Macfarland was summoned yes terday morning and found that one of his shoulders had been dislocated.

his shoulders had been distocated. A number of relatives and friends gath-ered at the home of Mis. Catherine Car-ter, Kennebeccasis Island, Tuesday even-ing to celebrate her seventy-sixth birth-day. Among those present was Miss. Keith, 54 years old, who had walked more than a mile to tender her congratulations. Supper was served, after which, in a few appropriate words, John Hutchings pre-sented Miss. Carter with a purse of gold in behalf of the company. She was the recipient of several other remembrances also. The evening passed pleasantly. Miss. Carter, favoring the company with some old familiar songs. The company dispersed at an early hour, wishing Mirs. Carter many returns of the day.

D. H. Waterbury, of the public works department of this city, is preparing the immigration building at Sand Point for the arrival of the first settlers who are expected about the 15th inst. The accom-modations in the building will be much more comfortable than ever before. Per-manent beds to the number of 180 will be installed and two rooms will be fitted up as sick bedrooms. The dining room will be separate from the large room. The heating apparatus, lavatories and closets are in good order and the building has been thoroughly cleansed and painted and supplied with settees and chairs. In short, the appointments are all that could be D. H. Waterbury, of the public works the appointments are all that could be

At his recent visit to Fairville, Inspector Carter called a meeting of trustees and teachers. Trustees Jas. Ready, T. H. Wilson and Doctor Gray were present. Several matters of general interest were discussed, the most important being the necessity for providing increased accommo-dation, which is now urgently needed, there being nearly 100 pupils in grades I and II. To give better accommodation,

Currey looked after the sale. The terms of

gard. Local grocers who handle vinegar are being served with notices from the depart-ment of inland revenue warning them against selling or offering for sale product created by the dilution of acetic acid. The attention of the department has been di-rected to the fact that a so-called vinegar which is produced in the manner referred to has been placed upon the Canadian market and it is taking this action to pre-vent its sale. Vinegar is one of the ar-ticles which is regulated by government test, and a heavy fine is provided for vio-lation of the conditions governing its sale. Local dealers are being warned through John C. Fergúson, food inspector.

house Tuesday afternoon at 1 o'clock apparent'y for work but did not arrive there and when the news of his sudden depart-irre reached his domicile suspicion was aroused and the other bourders com-menced to look with some anxiety to their goods and chattels. Then it was found that the festive Mr. Theriault had not departed alone. Twenty dollars be-longing to one boarder; \$6 to two others and a gold ring to another had left with him. That's the principal reason why he's wanted. Up to last evening no trace of him had heen found and it is prefound that the festive Mr. Therault had not departed alone. Twenty dollars be-longing to one boarder; \$6 to two others and a gold ring to another had left with him. That's the principal reason why he's wanted. Up to last evening no trace of him had been found and it is pre-

sumed he is now across the line.

At a spot indicated by a water diviner an artesian well was bored at Sleaford, Lincolnshire, England, with the result that at a depth of 150 feet a spring was struck that is now yielding 664,000 gallons of water daily.

wards the east, and thus a safe harbor obtained for small vessels at all times. During the winter a tunnel 1,500 feet long will be driven across the seven veins about 20 feet above high water level and about 20 feet above high water level and this will form the working basis for ob-taining the higher grade ores. The low grade ore has to be quarried only from the face of the cliff, no underground work being necessary.

Feitecostal Mission, Lower Cove.

Mr. Rutlidge, having retired from the management of the Pentecostal Mission, Lower Cove, the new committee met Thursday evening, Oct. 30, and appointed Wilmot W. Howe chairman, John R. Burtt, collector, and C. K. Short, secretary-treasurer. This undenominational mission was open-

ed last spring and will in the future be continued on the same lines as begun. The building and the work are the result of Christian activity commenced about a year ago in the vicinity of the present

building. Cottage meetings were held regularly, and much personal work done with such good results that a great change has come over the neighborhood. The hall was built and furnished at a cost of \$700, and the present debt is about \$300. To meet this amount and provide for

ic.es which is regulated by government test, and a heavy fine is provided for viotation of the conditions governing its sale. Local dealers are being warned through John C. Ferguson, food inspector.
A man named Theriault, who has been working in Randolph & Baker's mill in Milford, is wanted. He left his boarding house Tuesday afternoon at 1 o'clock apparently for work but did not arrive there and when the news of his sudden departure reached his domicile suspicion was in Cape carts. While in Africa Mr. Lafte will visit all the centres where his com-pany have agents. He will, if time per-mits, probably appear before the different boards of trade in the African cities with the idea of acquiring information as to the best means of developing Canadian trade with Duitein's African processions.
