Lecture By James L. Hughes

The third lecture of a series of five lectures to be given in St. Saviour's Parish Hall took place last night when a large and enthusiastic audience heard an eloquent and interesting address on Robert Burns the Democrat. The speaker of the evening was Mr. James L. Hughes of Toronto who needs no introduction to a Waterloo audience and his masterly handling of the subject was a treat. He held his audience spell-bound throughout and his address was voted one of the best of the course so far held. The subject, Bobbie Burns is one dear to the heart of everyone whether he has a drop of Scottish blood in his veins or not and for the benefit of those who were unable to be present, it is to be hoped it will be repeated in the very near future.

Youths Are Given Chance to Reform

Attempted Highway Robbery And Conspiracy to Escape Cases.

The attempted highway robbery cases, that of carrying a revolver without a license and those of conspiracy to escape from gaol were definitely disposed of in Police Court this morning by Magistrate Weir. The four youths received advice and instructions which the Court hopes will be beneficial. John Sauer and William Beckstein, who had previously pleaded guilty will be accommodated at the Ontario Reformatory for the next three months, the maximum sentence being two years less one day, but if at the end of the three months their conduct is satisfactory, the Magistrate Weir, said they have the privilege of applying to the Board of Parole for release. The extreme youth of the accused was taken into consideration. Mr. D. McIntosh appeared for Sauer and made a strong plea, assuring the Court that the boy would never get into trouble again. The Crown Attorney, Mr. D. S. Bowditch replied that the offense of attempted highway robbery was so serious that he could not consent to suspended sentence. Magistrate Weir taking into consideration all the facts considered that the ends of justice would best be met if the boys would go to the Reformatory for three months. Asked by the Magistrate whether they had anything to say and why they committed the offense Beckstein said: "Reading Jesse James stories," and Sauer replied "Seeing moving pictures."

Previously it might be stated that Mr. McIntosh said that he thought the question of dime novels and boys access to the same should be thoroughly considered by the government. He referred to the fact that the boy had a good record previous to this incident and said he now was repentant.

The other cases, that of Albert Lemanski, city and Fred Fisher of Galt who had pleaded to conspiracy to escape, also were disposed of by a three months' sentence to the Reformatory. Beckstein also was sentenced on this charge but his sentence will run concurrently with the other sentence, as also that of Fisher, who was sentenced in Galt on a housebreaking charge.

DR. NEIGHBOUR DELIVERS ANOTHER STIRRING AND ROUSING ADDRESS

Noted Speaker and Bible Student a Remarkable Authority. Impressive Words at Benton Street Baptist Church

What a dynamic force there is at the Bible conferences that are being held in Benton Street Baptist Church, where Dr. Neighbor, the noted authority on Bible study, is delivering a series of addresses! With the visiting speaker in the lead there cannot fail to be something stirring and impressive to the hearers at these meetings.

Dr. Neighbor is a remarkable exponent of the scriptures with many standpoints. First he knows the written word through and through; his comprehensive knowledge of it alone enables him to speak with good effect. But there are other features which account for his successful work. His personal experience with men and women in the every day walks of life coupled with the knowledge above referred to has resulted in giving him a far more practical point of view of the scriptures. His faculty of judging men and women rightly are a complement of this practical view point. Also there is the intense enthusiasm in the cause of carrying on the work in the name of the Master which permeates all his addresses in a manner seldom so manifest as in this instance. The keen imagination, the ability of accurate description and lastly a genial personality, radiating with good cheer and an open-heartedness complete the cycle of characteristics which make the visiting speaker what he is.

LT.-COL. GEO. T. CHISHOLM, returned officer, who served nearly two years on the staff of the Sixth Corps, Third Army.

The development of so much opposition to daylight saving creates a difficult position for this Government. It has generally been assumed that Canada would follow the example of the United States in this matter. While daylight saving was strenuously opposed across the border by the agricultural interests in Congress, they failed in their effort to have the measure killed, and when that body adjourned some days ago the bill providing for a change in time on March 30 was still intact.

It is probable that considerable pressure will now be brought to bear on the Government by the railways, boards of trade, etc., to have Canadian time conform to that of the United States. It is admitted that if it does not, much confusion will result at the border in connection with the operations of the train service. In this connection the suggestion is made by those who favor daylight saving that if the Government fails to introduce a bill, the railways will be compelled to make their time conform to that across the border. Should the railways do this the cities would be almost certain to follow their lead, with the result that people in the country would in some respect be placed in much the same position as they were last year when the Daylight Savings Act was in force.

NONE TO BE USED FOR MILITARY PURPOSES

Paris March 13—The aerial terms of the German disarmament as adopted by the supreme war council provide that airplanes and dirigibles shall no longer be used for military purposes. The council concluded that it was not feasible to prohibit airplanes for commercial use. The drafting committee was directed to make clear the distinction excepting commercial airplanes in the terms incorporated in the peace terms. All forms of military airplanes are barred to Germany the only excep-

tion being made for those used in the postal service, for example, or for the transport of mail. The council also decided that Germany must not possess more than 100 military airplanes, and that the number of military dirigibles must not exceed 10. The council also decided that Germany must not possess more than 100 military balloons, and that the number of military dirigibles must not exceed 10. The council also decided that Germany must not possess more than 100 military balloons, and that the number of military dirigibles must not exceed 10.

At the conclusion of the meeting an opportunity was given to all individuals present who might feel that they were not living the Christian life they should, to come and meet him personally after the service.

Mr. Carr's excellent singing again featured the program. Mrs. W. F. Roadhouse sang immediately before the address. Mr. Carr followed the address with singing the hymn "Alone." The subject for tonight will be "The Signs of the Times." There will be a large chorus of boys and girls singing this evening who have been well trained by Mr. Carr. These special services come to a close Sunday evening.

A FOUR-MILE FUNERAL PROCESSION. The funerals of Liebknecht and thirty-two other Spartacists in Berlin, passed off unexpectantly quietly, though the military were prepared for all eventualities. Wreaths were carried in the procession, which was more than four miles long. The picture shows a dense crowd which watched the cortege.

DOCTOR PRESCRIBED VINOL For This Poor Mother Who Could "Hardly Drag Around"

Glasgow, Ky.—"I am a farmer's wife and was suffering from a nervous breakdown—loss of flesh and poor appetite so I could hardly drag around and do the work for my family. My doctor prescribed Vinol. It not only made me well and strong but I have gained in weight." Mrs. S.M. Gray.

The reason Vinol proved such a wonderful strength creator in Mrs. Gray's case is because of the beef and cod liver peptones iron and manganese peptones and glycerophosphates, combined in a pure, native tonic wine, which makes Vinol the most successful tonic.
