saved.

The passengers of the schr Villager have come up to the city, in a Sambro heat; they report that in beating through the Ledges on Tuesday about 10 a, in, for the purpose of going into Sambro she struck upon Stapleton Rock. The vessel was seen by the keeper of the Light who immediately came to their assistance. The passengers and crew were landed and taken to his house, where they were treated with the greatest kindness. The passengers baggage was principally aved. Part of the cargo has floated out and every exertion is being made to save it. The vessel has sunk in about 15 feet of water. We learn that the other is partially insured—nothing on the cargo.

# Halifax, 7th Fel'y, 1856.

WE, the Subscribers, passengers in the Schooner Villager at the time of her loss off Sambro Island, feel bound to state that in our opinion the loss of that Vessel was not owing to any fault or mismanagement on the part of Mr. Alexander Green, the Master, and part owner of her, but was one of those accidents which occasionally happen to the most prudent and cautious mariner.

cautious mariner.

That the conduct of Mr. Green and his crow after the Vessel struck on the Stapleton Rock was most exemplary and praiseworthy, and free from any selfish feeling, and that the coolness and presence of mind displayed by them on the trying occasion, prevented any fears on the part of the passengers, two of whom were females. We have also great pleasure in expressing our thanks to Mr. Gilkie, the Keeper of the Light House, and his family, for the hospitality and kindness shown by them to all the passengers and crew, twolve in number, for the assistance afforded by them in preserving the property saved, and in ministering to the wants and comforts of the parties providentially saved from the wreek.
