

E. DEVILLE, Esq., LL.D.,
Surveyor General.

SIR,—

I have the honour to submit herewith a catalogue of stars prepared under my direction, giving the mean positions for 1910.0 of all stars plotted on the latitude star charts. This catalogue has been prepared for the purpose of facilitating field computations and dispensing with the necessity of star catalogues in the field. I believe it will prove to be a great convenience to those surveyors taking latitude observations.

Respectfully submitted,

G. BLANCHARD DODGE,
Chief of Special Surveys Division.
