

PREFACE.

The Publisher now places before the Public his twenty-first edition of St. John City Directory. Portland, as a City, was last year placed in similar type to St. John, support, to some extent, having been guaranteed to carry out that intention; but this edition has been very poorly supported, the Publisher therefore notifies the business men of Portland that he will next year have to place Portland in small type as it was formerly printed. The Publisher has tried to place before the Public as complete a work as can possibly be made, owing to the various difficulties in the way, and hopes it will give general satisfaction.

The Publisher thanks those who have supported him, or in any way given information to this work.
