Let Experts Figure the Rations

Don't Waste Your Time

ANYBODY can feed a hog—but only experts can feed for *tip-top* results. Who but an expert with years of study and special experience could properly make available the odds and ends of feed materials about your farm. Certainly you haven't got time either to study scientific feeding or to figure out mixtures changing with the feed materials that happen to be available to you.

Let the experts figure your rations.

Our experts—Canadian experts with closest knowledge of Canadian needs—have the time, the scientific training and the facilities for proper selection and mixing of feeds. The result is

Monarch Hog Feed

the cheapest feed available because it means good, firm, hard bacon, commanding best prices. It means quality bacon at minimum cost of production when feeds are high-priced. In short, it means extra profits put into your pocket.

Monarch Hog Feed is not only calculated to a nicety as a ration, but it is properly mixed. And it is handy. No trouble collecting feeds to mix—just one feed to handle. You just ought to see how hogs go for it. It is both highly palatable and digestible.

Monarch Hog Feed is composed of shorts, corn products and digester tankage. It is unequalled for bone and muscle forming, and supplies the right amount of fat for shortening the hogs' stay on the farm and for sending them to market in A1 condition. Guaranteed analysis: protein 15%, fat 4%

Decidedly you should feed not only for results but for MAXIMUM profits. With Monarch you can do it. Give it a trial. Order a ton from your dealer. If he can't supply Monarch write us direct, giving dealer's name.

The Campbell Flour Mills Co., Ltd., West Toronto.

MONARCH DAIRY FEED

has guaranteed analysis of 20% protein and 4% fat. It is a properly mixed combination of Oil Cake Meal and Cottonseed meal with the bulky feeds, bran and corn meal. Though very rich, ensuring splendid results, it can be fed alone.

SAMPSON FEED

This general purpose feed is somewhat similar to Monarch Hog Feed, except that oil cake meal is used instead of digester tankage; it gives results for both cattle and hogs. Guaranteed analysis: 10% protein and 4% fat.
