

## FRENCH MAKE PROGRESS ON VERDUN FRONT

By Hand Grenade Fighting  
at Fleury Troops Move  
Forward.

By Special Wire to the Courier.  
(Bulletin) Paris, July 19, 11.45 a.m.—The French made some progress last night on the Verdun front in the course of hand grenade fighting in the vicinity of Fleury, says to-day's official report. Artillery actions continue energetically in this sector. A German raid in the region of Paschendaal, Belgium, was checked by the French fire as was a raid north of the Aisne, near Paezzy. Along the greater part of the front the night was quiet.

The statement follows:  
"The night was calm over the greater part of the front. Two surprise attacks delivered by the enemy against small French posts, one in Belgium in the region of Paschendaal, the other north of the Aisne, near Paezzy, were repulsed by our fire."

"On the Verdun front, east of the Meuse, the artillery fighting continued very vigorously in the sector of Fleury. We made some progress with grenades near the Chapel of Sainte Pline."

**GREAT WAR RECORD**  
By Special Wire to the Courier.  
Cincinnati, O., July 19.—Only a short business session was held this morning by the delegates attending the seventh annual convention of the International Rotary Club in session here. The rest of the day was taken up with an outing.

Most all of the members of the Halifax, N.S., rotary club have gone to the war, according to Walter R. Parker, president of the club, who is attending the convention with five other members.

N. Y. Marlin Arms Corporation is making shipments of Celta automatic machine guns under contract with British government. Contract provides for 12,000 guns and 12,000 sets of accessories to be delivered by or before December 31, 1916.

## CLEANSE THE BLOOD AND AVOID DISEASE

When your blood is impure, weak, thin and debilitated, your system becomes susceptible to any or all diseases.

Put your blood in good condition. Hood's Sarsaparilla acts directly and peculiarly on the blood—it purifies, enriches and revitalizes it and builds up the whole system.

Hood's Sarsaparilla has stood the test of forty years. Get it today. It is sure to help you.

## Conference Broken Off

Garment Workers Strike in Chicago  
Just Where it Started  
By Special Wire to the Courier.  
Chicago, July 19.—The breaking off of conferences between the Cloak, Suit and Skirt Manufacturers' Protective Association and the International Garment Workers Union, left the garment workers' strike to-day to all intents where it was when it started three months ago. Statements issued by both sides accused the other of bad faith and responsibility for the failure of negotiations.

The strike affects some 40,000 employees and about 500 manufacturers. It is estimated that orders for women's clothes, worth \$60,000,000, have been left unfilled. Strike payments of \$65,000 a week have been made by the union. The citizens committee which has been aiding the workers, issued a statement to-day saying as the result of the strike more than 200,000 persons are facing hunger. The committee plans to raise \$25,000 a week for the benefit of the garment workers as long as the strike lasts.

## Obituary

**MR. JOSEPH ION.**  
In Chicago, Ill., there died on Sunday, Mr. Joseph Ion, formerly of Brantford, at the age of 42 years. He was a son of Mrs. Ion, 103 West St. He was ill about six months.

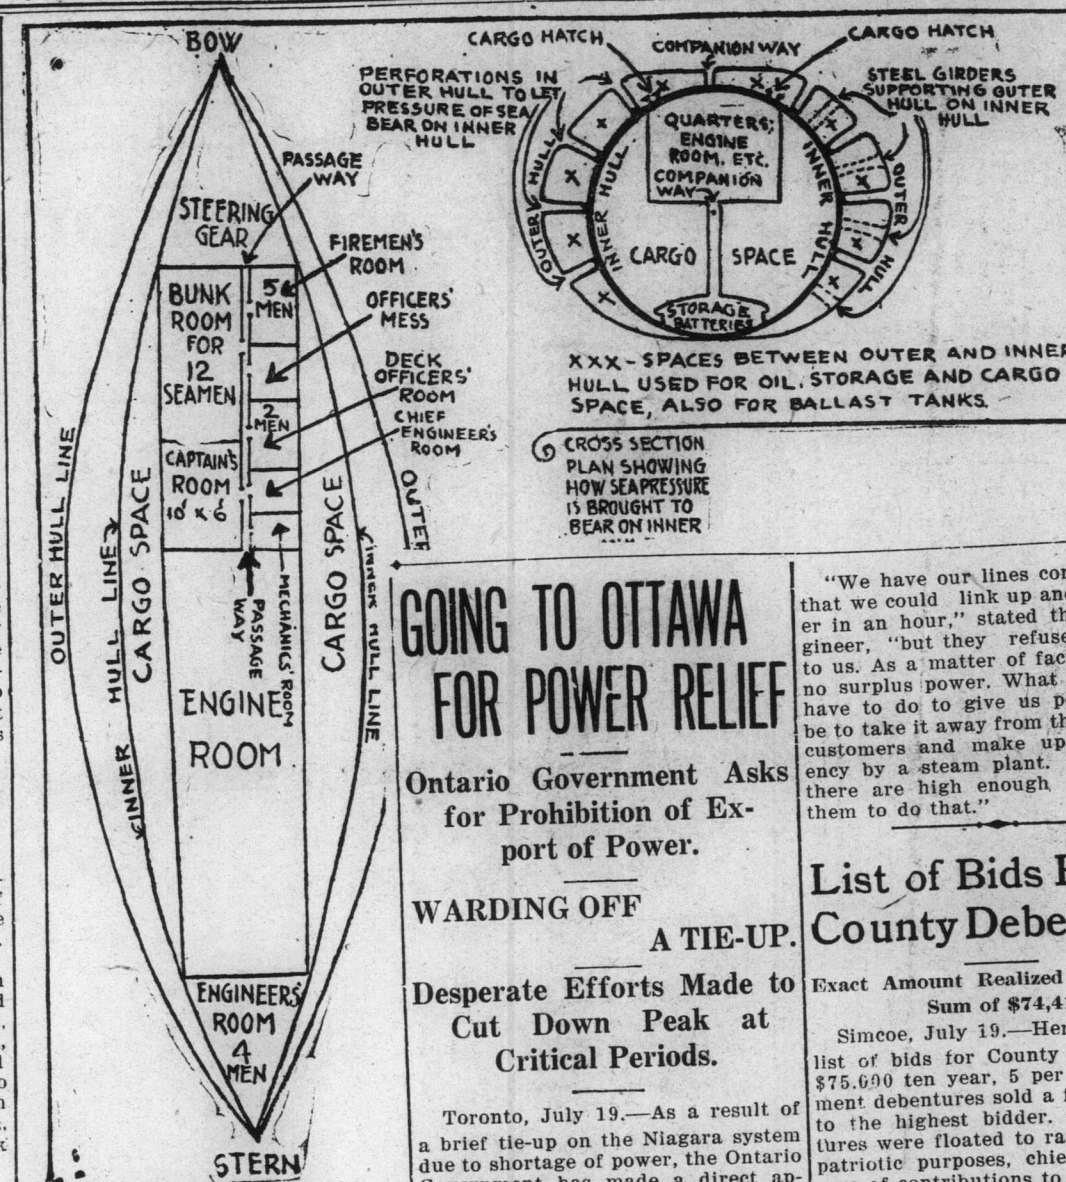

A widow and two small children survive him, besides his widowed mother, five brothers, Thomas, Frank, John and Fred, of the city, and Fred of Vancouver, B.C., and well known as a lacrosse player. Two sisters also survive, Mrs. Joseph Waterhouse and Mrs. John Walters, both of Brantford. The funeral took place this morning in Chicago.

## Bad Storm Strikes Western Points

Telegraph and Telephone Wires Affected, and Some Crops Battered

By Special Wire to the Courier.  
Winnipeg, July 19.—Many points in the Prairie Provinces appear to have been more or less badly hit by the storm Monday evening. Telegraph and telephone wires were affected. According to reports just coming in, crops were battered down and barns wrecked. William Smale, a resident of Portage La Prairie, was killed when the wind overturned a caboose on a farm where he was working.

**ELEVENTH VOTE OF CREDIT**  
By Special Wire to the Courier.  
London, July 19.—Another vote of credit will be asked of the House of Commons next week, the premier informed the House to-day. It will be the eleventh vote since the outbreak of the war and probably will be for £300,000,000, the same amount as the last one. This will bring up the total for the war to £2,682,000,000.

## DESIGN OF GERMAN SUB MERCHANTMAN DEUTSCHLAND

Ready to cross ocean. These pictures of the Deutschland are from the New York Herald.

## Wedding Bells

**KENYON-ROHR**  
A quiet wedding was celebrated on Tuesday morning at St. Basil's Church, when Miss Marie Elizabeth Rohr was married to Mr. Charles Edwin Kenyon, Rev. Father Dorgoski officiated. The bride was gowned in champagne chiffon over silk, and wore hat to match, carrying a shower bouquet of bridal roses, and was assisted by Miss Mary A. Rohr, who wore blue and white silk mull, with a white and blue bouquet of sweet peas. The groom was assisted by Mr. Harry A. Rohr, of Superior, Wis.

After the ceremony, the bridal party returned to the home of the bride's father, 97 Queen Street, where refreshments were served. Mr. and Mrs. Kenyon left on the afternoon train for Toronto and points east.

## DEUTSCHLAND MAKING READY TO GO TO SEA

Public Excluded from View,  
and Captain Cancels all  
Engagements.

By Special Wire to the Courier.  
Baltimore, July 19.—Shut off entirely from the view of the public at her pier at the foot of Andre street, Spring Gardens, the German merchant submarine Deutschland, is believed to be ready to sail at any moment, her commander, Captain Paul Koenig, is ordered by the American agents to depart.

There was little activity apparent about the boat to-day, it being said all of the return cargo of crude rubber and nickel is now in the hold. The two big oil tank cars standing on a switch near the pier have not been emptied, and it was said to-day their contents are not for the Deutschland, but for her sister ship, the Bremen, expected to arrive here in the near future. Captain Koenig, it was learned this morning, has cancelled all social engagements, and it was also said no more of the crew will be allowed shore leave except for such distance that they may be summoned on board at short notice.

## A. O. H. MEET.

All Sessions Up to Now, However,  
Are Merely Executive

By Special Wire to the Courier.  
Boston, July 19.—The Ancient Order of Hibernians took up at the first business session of the Fifth biennial convention to-day a number of questions of peculiar interest to the organization. All sessions, however, are executive. Joseph McLaughlin of Philadelphia, the national president, submitted a report in which he reviewed the work of the last two years and outlined plans for future development.

The ladies' auxiliary met to-day with Mrs. Ellen Ryan Jolly of Pawtucket, R.I., presiding. Aside from consideration of resolutions, chief interest was in a contest for the presidency between Mrs. Jolly and Mrs. Mary F. McWhorter, of Chicago.

Albert Lund, of London, director of the Hiram Walker Company, Walkerville, sailed for Canada by the Baltic.

## GOING TO OTTAWA FOR POWER RELIEF

Ontario Government Asks  
for Prohibition of Ex-  
port of Power.

## WARDING OFF A TIE-UP.

Desperate Efforts Made to  
Cut Down Peak at  
Critical Periods.

Toronto, July 19.—As a result of a brief tie-up on the Niagara system due to shortage of power, the Ontario Government has made a direct appeal to the Dominion Government to prevent the exportation of Niagara power entirely from Canada. What the result of that appeal will be the members of the government hesitate to say, but Hon. W. H. Hearst, in referring to the matter, expressed the hope that an early solution would be arrived at that would relieve the situation.

"For some time," stated the Prime Minister, "the Hydro-Electric Commission has been negotiating with the Canadian Niagara Power Commission for the purpose of securing an additional supply of power to enable the commission to meet all the demands made upon it. The commission, however, is unable to conclude any arrangement with this company for a supply of power at a price that the commission felt it could properly pay. The Government has been taking every measure within its power for the purpose of solving the difficulty, but we have been hampered in our negotiations by the unfortunate and unprovoked agreement made with the power companies by the late Liberal Government. An application has been made to the Dominion Government to prevent the export of Niagara power entirely from Canada and the Government is hopeful of a solution at a very early date that will relieve the present situation. The Government has taken and will continue to take all possible measures within its power to assist the Hydro-Electric Commission in securing the necessary supply of Hydro Electric power to meet its requirements."

Preliminary engineering work on the new Chippewa development at Niagara was being proceeded with as rapidly as possible, stated the Prime Minister.

"That is entirely in the hands of the engineers of the Hydro-Electric Commission," he said. "The commission has from the government all the authority it requires to go ahead with that work and to hurry it as much as possible."

While deeply concerned in the steps being taken to compel the private power interests at Niagara to furnish an additional supply of power to the commission, Hydro engineers yesterday were hard at work trying to reduce the peak load.

"We have had some success," stated Chief Engineer Gaby yesterday, adding that he hoped a further tie-up would be averted for awhile.

"The difficulty," he said, "is that we have little room to cut any further. For months we have seen this thing coming, and it is only because of the efforts we made to keep down the peak that we have been able to run on as long as we have. We have been running close to the line for a long time. By arranging with every customer we could cut off at peak periods, civic waterworks, factories, etc., that can use their men at times with the power soft, we have tided over. On Monday, in spite of everything we could do the consumption climbed until it was well over our contract amount with the power company. There was really nothing else they could do but cut us off."

According to officials of the Hydro order-in-Council authorizing the commission to go ahead with the necessary engineering work for the Chippewa system had been received a week or so ago, and the work was going on.

Sir Adam Beck arrived in Toronto from London yesterday and discussed the situation fully with the engineers. According to the Hydro chairman, the only solution of the problem at present was to stop the exportation of power to the United States to the extent necessary to provide Ontario with power. Sir Adam declared that every horsepower now sent to the States would be needed in Ontario before the big Chippewa system was completed three years hence.

It was stated by Hydro officials yesterday that the Canadian Niagara Company with whom the negotiations for a larger supply have been carried on, had refused to give even a temporary or emergency supply.

"We have our lines constructed so that we could link up and take power in an hour," stated the chief engineer, "but they refuse to give it to us. As a matter of fact they have no surplus power. What they would have to do to give us power would be to take it away from the American power and make up the deficiency by a steam plant. The rates there are high enough to enable them to do that."

## List of Bids For County Debentures

Exact Amount Realized by Sale is  
Sum of \$74,415

Since, July 19.—Herewith is the list of bids for County of Norfolk \$75,000 ten year, 5 per cent. installment debentures sold a few days ago to the highest bidder. The debentures were floated to raise funds for patriotic purposes, chiefly to take care of contributions to the patriotic fund and the \$1,000 grant to the 33rd Battalion for camp equipment. The sale is said to have been a record. The exact amount realized was \$74,415.

The Bethlehem Steel Company will bid for construction of some of the new warships for United States Government, provided for in the pending naval bill.

## Activity Noticed Now in Albania

After Being Quiet for Months, Artillery Engagements Occur

By Special Wire to the Courier.  
Berlin, July 19, via wireless to Sayville.—Revival of activity in Albania, where the military situation has been virtually unchanged for months, is reported in the official Austro-Hungarian statement of July 18.

There were artillery engagements and skirmishes along the lower Vojussa (Albania to the north of Avlona), the statement says.

Regarding the Italian front, the war office reports:

"Our positions in the district of Borcola Pass were shelled heavily and uninterruptedly. Hostile aircrafts bombed Vielleureath without success."

"In the Tofano district, the Italians made repeated attacks which broke down."

The report of the operations on the Russian front (an abstract of which the rest of the cable) says that in Bukovina the Russians were repulsed in hand-to-hand fighting following attacks on Austrian positions on Capul heights and near Lucina. The number of prisoners taken at Jablonitz was increased to three officers and 316 men. A Russian night advance in the Novo Poczay sector failed. Attacks by the Russians southwest of Lutsk were repulsed.

## Prohibitionists Feel Optimistic

By Special Wire to the Courier.  
U. S. National Party Think They  
Will Get Progressive Vote.

St. Paul, Minn., July 19.—Confident that the ticket they nominate will poll the largest vote in the history of the party, the delegates to the National Prohibition party opened the twelfth quadrennial convention to-day in the Auditorium Hall.

The willingness of such men as William Sulzer of New York, J. Frank Hanley of Indiana, Eugene H. Fox of Massachusetts and Sumner W. Hayes of Portland, Ind., to be considered as presidential candidates, the leaders say, a widening of the party's influence and they expect thousands of former Progressives to vote with them. Some party leaders express the belief that the contest has narrowed down to two men—Sulzer and Hanley.

Boston.—It is estimated that earnings of Butte and Superior for the six months ended June 30 were approximately \$6,000,000, or better than \$20 per share. Against this was charged \$50,000 per month for sinking the new shaft. The total cost of this work will be about \$50,000.

## FLOODS RECEDING IN CAROLINAS

But Loss of Life Reaches 34,  
and Property Loss Is  
Enormous

By Special Wire to the Courier.  
Asheville, N.C., July 19.—Flood waters in the Carolinas and portions of adjacent states were rapidly receding to-day, leaving in their wake a property loss variously estimated at from \$12,000,000 to \$15,000,000, and a list of deaths from drowning that has steadily increased since the waters rose Sunday. Tuesday the toll of human life stood at 34, with prospects that it might be increased still further.

From Spartanburg, S.C., came a report that persons arriving there said almost all of the small town of Chimney Rock, in Rutherford county, N.C., was washed away, and that there was no sign of its inhabitants. It was pointed out, however, that they might have reached high ground in time to save themselves.

Loss to railroads, industrial plants and agricultural interests in north and south Carolina has mounted in the millions, and it may be weeks before the transportation system is restored. Nearly all passengers marooned since Sunday on trains in this section, had been removed to-day however, and in many localities repair work was being rushed, and thousands of cotton mill spindles were beginning to turn again.

## CASTRO IN NEW YORK

By Special Wire to the Courier.  
New York, July 19.—Former President Cipriano Castro of Venezuela was released from Ellis Island to-day, accompanied by Mrs. Castro, who shared with him his four days' exile at the federal immigration station, he took up quarters at an uptown hotel.

He said that the decision of Secretary of Labor Wilson over-ruling the special board of immigration official in New York, which had denied him admission to the United States, was what he expected. He declined to discuss his plans for the future.

## Making a Flat World Round

When Columbus set out to reach India  
by sailing westward, he met with opposition and ridicule. He be-  
lieved the earth to be round.

Wise men held that it was flat—that Columbus was man—and that he'd fall off somewhere if he departed from established beliefs.

of memory.

**The Business World is flat to some Men**  
Their profit-bearing shores of Opportunity stretch only so far as their grandfathers' trod. Custom, superstition and apathy have set them confines which they may not pass. For instance they believe the business year is a flat one—not an all-year round of trade, with East joining West, with Spring merging into Autumn—but just two distinct seasons, with sawed-off Edges gaping into space.

They confine their activities to a Spring trade and to a Fall trade. To them there is no intervening continent with stores of waiting wealth. Their world is flat. They have not explored the mid-year months of Summer trade, June, July and August are never-never land. Surely this conception of Summer as a "dull" season is as fallacious as the delusion that the earth was flat. People have just as much money in the hot weather and spend quite as freely as in Spring and Fall. Granted that they are not buying skates and snow shovels in August, yet they are buying staple articles. Furthermore they have an eye on luxuries and comforts they are counting upon purchasing in the Fall.

**The modern Columbus has discovered this**  
Summer trade—this golden West lying between the known continents of old beliefs. Departing from established habit, many have made their energies and their Advertisements an all-year-round proposition.

Keeping up Advertising during the Summer months not only links your Spring and Fall, but produces rich harvests from the Summer months themselves.
