The Barometer.

The Barometer was invented by Tox.

The Barometer.

The barometer was invented by Torricelli, at Florence, about 1643. It is made in its simplest form by filling a graduated tube about 34 inches long, with mercury, and inserting in a cup containing mercury. The column of mercury in the take descends until balanced by the weight of the atmosphere, and its rise or fall under varying conditions is a measure of the change in the atmosphere pressure. At the sea level its ordinary height is about 39 inches, in many height is shout 30 inches, in an anerold barometer the action depends on the varying pressure of the atmosphere upon the elastic top of a merchant of the atmosphere upon the clastic top of

MRS. FRANK E. NADAU AND GHILD. A BRIGHT, HEALTHY BOY whose life was Bayed by

GRODER'S SYRUP. A Mother Speaks to Mothers.

THE GRODER DYSPERSIA CURE CO. THE GRODER DYSPEPAL CHIE CO.
GENTLEMEN:—My child is the picture of health to-day because I heeded
THE the advice of a friend and
the tried your remedy. Our
baby was cutting his teeth last spring,
and like many other children at such
a time, he became very sick and feverish.
We were so anxious about him that we
called in two physicians, and did all in

our powerKIND to relieve him But. haw feared for his life. There seemed no help for him, and the doctores gave us no hope of his recovery. It was then that a friend recommended your medicine, and we commenced its use. To our entire THAT surprise the very small doses HAT while the gave each hour brought speedy relief. Our boy rallied quickly and soon became hinself again. Other mothers have children who suffer precisely as mine did. They should use your remedy and keep it constantly in the OURES think my children sele without it.

Very greatefully yours,

MRS. FRANK 16. NADAU,

Victory after victory is the second of Dock Blood Purifier, which never fails to do good. Read what Mrs Outhouse says about it 7 From MRS HENRY OUTHOUSE, TIV.

ERTON. N. S.

About three years ago I was sick with consumption, which was brought on by a heavy cold. I employed a doctor who advised me to use fautisions. I did so but they did me no good. I was growing weaker fast—my cough was very bad—with night sweats; in fact my parents had given me up as I belong to a consumptive family. Two of my sisters and one brother have already died with that dread disease. As my appetite was very poor a triend advised me to use Dr. Norton's Dock Blood Puritar. I got six bottles, the use of which soon gave me a craving for food. Soon my cough was better and I began to gain in strength. I used twelve bottles of the medicine and by that time had gained forty-four pounds in flash with good health. Have had no sumptoms of any lung trouble since and believe that Dr. Norton's Dock Blood Purifier saved my life,
