Ladies' Winter Trimmed Hats, 50c to \$2.00

We Share the Burden With You

Prices for Produce and for the Day's Work are not what they were a year ago. They probably never will be again. We must adjust our ways of living and remember that still conditions are easier than they were before the war. Our advice is to buy carefully for your needs, pay as you go, and get real value for your money. We back up our advice with the offer of the BEST goods for the LEAST money.

THE HOUSE WITH THE STOCK

JOHN T. G. CARR

NEW COUNCIL IN SPECIAL SESSION

Mayor Kelley for County Council—Old
Assessors Re-Appointed

A special meeting of the new Town Council was called on Jan. 13 for the purpose of appointing a representative to the County Council for the present year, to appoint a nominating committee and to name the assessors for 1922.

Mayor Kelly was the unanimous choice to represent the Town at the County Council. The same assessors were elected as last year: M. W. White, H. J. Alton, ward 2 and J. E. McCollum, ward 3. This board of assessors rendered excellent service last year and there is no reason to doubt that they will give the same faithful attention to this work during the coming year. The eldest member of the board has served ten years, off and on, in this particular capacity and his geniality and experience has been beneficial to the younger members of the board who have at all times co-operated in the duties of their office.

The nominating committee met at the close of the meeting and will render their report at the first regular meeting of the Council in February. There will probably be no changes in the chairmen of the roads, water and finance committees for 1922.

The citizens of the town will await with keen expectancy the crystallized opinion of the seven financial wizards who, through their finance minister, will bring down the budget for consideration and the passing of the estimate for 1922.

THE DISASTER AT ARGYLE

In respect to the explosion that occurred at Argyle it might be well to make a few corrections of the report appearing in our issue of Jan. 5. The mill was owned and operated by John Crawford. The man killed was Geo. H. Dutcher of Newcastle. His wife has been dead a number of years, in fact before he went overseas. He served four years. The explosion was not caused by frozen steam pipes, as when Mr. Kenny viewed the wreck next morning and questioned the engineer he was satisfied that the cause of the explosion was from a different cause which will no doubt be made public in due course.

The owner had complied in every respect with the laws and regulations of the compensation board governing the operating of steam plant and in addition had adopted and enforced further precautions against possible injury to employees. All boilers in steam plants, of whatever nature, should be thoroughly tested every season by some competent man under direct supervision of the government board, and if every detail of the test is not carried out in full before leaving the plant he should be held the same as any other felon who is the cause of taking of human life should an accident of this nature occur, and the government should reimburse the owner in full for the loss sustained financially.

What about Mr. Millwain?

NEW VALLEY RAILWAY SERVICE

A new timetable went into effect on the Valley Railway on Monday, and it is one that will not be so generally satisfactory as the old one, inasmuch as the express service is reduced to a tri-weekly and arrivals and departures, particularly at Centreville, are untimely.

On Tuesdays, Thursdays and Saturdays the express will run, leaving Centreville at 9 a.m. and arriving at Fredericton at 9:30. St. John at 12:35. On the same days the express will leave St. John at 4:20. Fredericton at 7:40 and will arrive at Centreville around midnight.

On the other days of the week a mixed train, hauling passengers and freight, will leave Centreville at 9:30, and another will leave Fredericton at the same hour.

UNITED FARMERS MEET IN FREDERICTON

(Cleaner)

Fredericton is to be the meeting place of the United Farmers of New Brunswick in their annual convention, a decision to return to this city after trying other places having been recently reached.

The annual meeting will be held here in February following the annual meeting of the shareholders of the Maritime United Farmers Co-operative Company, Limited, which will be held in February.

It is also learned today that the directors of Maritime United Farmers Co-operative, Limited, have at a re-

cent meeting passed a resolution for the reorganization of the company's system under which each branch will become a separate corporation with the idea of inaugurating at the annual meeting some plan whereby a brokerage system may be put into effect.

To explain the changes to the shareholders in the stores now being operated in the company's system a series of meetings are being held, the territory being divided into districts for this purpose with C. Gordon Sharpe, of Pembroke, in charge of Carleton and Victoria counties, Alfred E. Williams, of Keswick, in charge of York county, and Dr. McIsaac in charge of the eastern portion of New Brunswick and branches in Nova Scotia.

PERTH WINS FROM HARTLAND

Exciting Game of Hockey at Perth
Last Evening—Return Game
Here Saturday

In an exciting game of hockey played at Perth last evening the local aggregation went down to defeat by a score of 1-0. The Hartland team put up a good brand of hockey through the whole game and had an edge on the play until the last of the third period, when Stevens, Hartland's defence man, was disabled with six minutes to go and a hole in the Hartland defence lines. Leitchford scored after a melee in front of Hartland goal. The Hartland team much lighter than the Perth team put up a much faster game.

A large crowd of rooters were on hand. The game was clean from start to finish, no penalties being handed out. Dr. A. F. Macintosh refereed the game to the satisfaction of all.

A return game is announced for Saturday afternoon which should be as fast if not a faster game than the one yesterday.

HORSE RACING FRIDAY AFTERNOON

Hartland Driving Club will have their first meet tomorrow when there will be at least two classes and a few hours keen sport. In Class A old Ben Ali will be matched with Frank Hayden's Queenie Patchen, and in Class B. Al Moore's Peggy Hal and Stanley DeWitt's Onward Wilkes will try conclusions. Eureka, owned by Dr. Macintosh, and Brown Dick, Jr., owned by Charles Crabb will make a good exhibition.

If too much snow does not interfere the track will be in fine condition with ample scope for a clear quarter mile between the wires. The track is just opposite the Deep Creek siding, about a mile and a half below town. The races will start at 2 o'clock.

STEPHEN D. ROSS

On Jan. 10, at the home of his daughter, Mrs. C. H. Merrill, at Marlboro, Mass., Stephen D. Ross, formerly of Florenceville, died very suddenly while sitting in a dentist chair.

Mr. Ross was 66 years old. He was born in Grand Lake, and with his wife went to Marlboro to make their home with Dr. and Mrs. Merrill at the time Dr. Merrill left for the war, four years ago. They have resided there ever since.

He leaves, besides his wife and daughter, Mrs. Amy R., wife of Dr. Merrill; two sons—Fred Ross, a civil engineer in Harlan, Ky., and George H. Ross, civil engineer in Placentia, Calif.

Mr. Ross was a member of the Independent Order of Foresters and the I. O. O. F., and of the Baptist church.

NEW FERTILIZER COMPANY

Home-Mixed Fertilizers Limited is the company organized to take over, continue and develop the fertilizer business initiated by Hatfield & Co., Ltd., last year. H. H. Hatfield is chief promoter of the enterprise and interested with him is H. B. Durost, B. S. A., of Woodstock, who has had ten years experience in home-mixing.

The head office of the new company is at Hartland and they occupy the rooms in the Hatfield office building formerly used by the late A. A. Rideout. H. J. Alton is in charge of this office. The unmixed fertilizers sold direct to farmers will in most cases be shipped from a warehouse which the company has opened in St. John.

NEW THEATRE OPENS JAN. 26

Will be Known as the "Neighborhood Theatre" and First Picture Will be Finest Ever Shown Here

The work of transforming the Bartt building on Main street into a first class, modern picture house is now about completed and the management are advertising Jan. 26 as their opening date.

The new auditorium is on the street floor, which, with the 30-foot addition at the rear, affords a hall with seating capacity for about 240. There is ample lobby space and convenient box office, while every precaution and regulation has been adopted to prevent danger or panic from fire.

The management has made a wise choice in their first offering to the public, the picture being "The Old Nest," a remarkable screen version of Rupert Hughes' famous book. The play is one of those full of heart-throbs and the theme is the old, old one of "Love"—mother love, the love that endures.

It is needless to predict that the house will be filled on the opening night, but the following outline of the story will interest those who are anticipating the event:

The home of Dr. Horace Anthon is the average American small town home. Mrs. Anthon is the average hard-working mother whose time and mind are occupied with the cares of her household and her six children, who range in age from one to fourteen years. In this home are shown all the little comedies and tragedies that occur in all families and that go into the making of a home—the old nest.

The eldest son is killed in a railroad wreck. Another son grows up to be a typical small-town sport, an idling, pool-playing, pilfering youth, whose small thefts finally cause his father to disown him and send him out into the world. The eldest daughter, Kate, marries and goes to New York, and her brother Frank goes to Paris to study art. Emily, the baby grows to womanhood at home, and after promising never to leave mother, suddenly elopes and goes abroad with her young husband.

Mother is now left alone in the old nest. Father goes on with the humdrum, trying life of the country doctor, but mother now old and careworn, spends all of her time in the empty house, longing for her children and trying to live over again the old memories. Her birthday comes and goes without the children remembering it until days afterward. They are all busy with their various lives and haven't much time to think of mother.

Once Tom, now a successful lawyer, telegraphs suddenly that he will be home in a few days. There is great excitement in the old home; Mother prepares a magnificent dinner, but at the last moment the son wires that business will prevent him from coming. The breaking mother heart is partially consoled by the future return of her wayward son, Jim, who needs money, he says, to ship his cattle to market. She gives him all her jewels, and he blinks away without seeing his father.

Then one night, after mother has gone to bed, feeling tragically her lonely life, she is awakened from a nightmare by the sudden entrance of Tom. He embraces her; the door opens, and all the children rush in. There is a tender scene of reconciliation between Jim and Father Anthon, and the picture closes with a beautiful message to all sons and daughters.

Women's Institute Notes

The January meeting of the Hartland Women's Institute will be held in the Knights of Pythias Hall on Friday—tomorrow—evening. The roll call will be answered by a "New Year" quotation. After the business has been transacted a splendid program will be rendered and refreshments served.

At the December meeting of the Women's Institute a splendid report of the Annual Convention of the New Brunswick Women's Institute was given by Mrs. Rupert Harris, who, as the delegate from Hartland, attended this convention which was held in Woodstock in November.

Mrs. J. Ray Montgomery, Sec.

PRODUCE PRICES

Today dealers are paying \$24 a ton for hay, 45 cents for oats. Eggs are bringing 40 cents and butter 25 cents. Potatoes are being bought for \$1.50 to \$1.75 on a very weak market. There is little chance that the price will be much better and farmers are wisely disposing of what they can at these figures.
