The Sons of Temperance during the last four weeks have been taking on new life and energy. During the summer months while there are so many outside attractions it is sometimes difficult to get enough members to hold a meeting; but with the advent of cooler weather and longer evenings the members again return to the Division room. The initiation of a number of influential citizens is expected in the very near future. The idea now in the minds of the officers is to make the Division room not only a pleasant place to spend an evening, but also a place where Temperance sentiment and enthusiasm may be gathered and strengthened. Plans are already being laid for something along the line of aggressive Temperance work during the winter. The need is apparent on every hand. It is commonly reported that we have a number of open bars in direct violation of the law. Our officials seem unwilling to lift a hand to apply the remedy which they alone possess. Our town where the Scott Act is supposed to be in force is becoming a hiss and a bye word. Shall men and women of Temperance sentiment and principle longer endure this? The Division of the Sons of Temperance call upon all their old members as well as all other right thinking persons to rally to their assistance so that this Temperance movement may become a power in our town.
