## REDUCED BY 1,500,000 GALS.

Consumption of Water Down and Situation Relieved.

Hon. Frank Cochrane Coming re the Water Lots.

Citizens Invited to Inspect the Technical School.

Statistics furnished to-day by the waterworks department of the amount of water pumped before and after the break at the Beach pumping station are interesting, showing just what the city can do in an emergency in the way of reducing the water consumption. August 23rd, two days before the 2,500,-000-gallon pump was crippled, 8,500,000 gallons were pumped. The following day this was increased to 8,775,000. The figures are not given for the day of the accident, but on the 26th, the engines pumped 9,225,000 gallons. That afterthe engineer's order cutting off lawn sprinkling and street watering and lawn sprinkling and street watering and appealing to the citizens to be sparing in the use of water was issued and on Friday the amount pumped dropped to 7.75,000 gallons, a reduction of about 1,500,000. The City Hall officials are satisfied that they have the situation well in hand now and the Board of Works department expects to resume street watering at night this week. The matter is being taken up with the Waterworks Department. There have been few complaints about dusty streets since the street watering was cut off, thanks to the recent rains.

Although it was the intention that the Wellington Street School should remain closed for good, it may be necessary to reopen it again. Inspector Ballard will do this, however, only as a last resort, the school having frequently been condemned on sanitary grounds. About 160 pupils were enrolled there last year. The intention is to distribute these around the other schools in the district. The ten-room addition to the Barton Street School will, it is expected, be completed by Christmas and the Building Committee on Thursday night will deal with the architect's report on the Victoria Avenue School, to which it is proposed to make a ten-room addition.

Secretary Foster announced this morning that he had instructed all the members of the teaching staff of the new Technical School to report for duty on September 1st, although the school does not open until a week later. The teachers will be expected to be on hand to see that the departments are in shape. In the meantime the public are invited to inspect the new iastitution. Over fifty pupils have been enrolled and the oficials expect they will have as many as they can accommodate as soon as the school opens. Pamphlets will be circulated among the employees of the Westinghouse, International Harvester and other big works.

City Solicitor Waddell was to-day no-tified by Holman, Drayton & Monag-han, Toronto, that a stay of proceedings had been granted until September 2, in the suit of Morris vs. Hamilton, over the power question as a result the power question as a result of the notice of motion by way of appeal from the order of the Master in Chambers or-dering that particulars of the bribery and corruption charges be filed.

Secretary Brennan, of the Board of Works, called on City Engineer Macal-lum at the Toronto General Hospital yesterday. The engineer's many friends here will be pleased to know that he is getting along nicely, although still very weak.

Mayor McLaren promised to-day that he would lose no time in taking up with the Radial Company the question of operating freight cars on King street. The company asked that he should reconsider his decision to stop these cars travelling on King street, but his worship insists that if the company wants any such privileges it must apply in the regular way to have its by-law amended.

MANY ENGAGEMENTS.

Toronto, Aug. 29.—Lord Charles will commence his lofig list of engagements by attending the reception given by the Mayor and Council at the City Hall at 3 o'clock to-day. The programme for the affair is a brief one. Mayor Oliver will read an address of welcome to the Admiral and Lord Charles will make a short reply. But it will not be until the official opening of the Canadian National Exhibition to-morrow afternoon that the Admiral will deliver the message to the people of Canada on the question of Imperial defence, which he has prepared and so carefully guarded from all interviewers. For the rest of the week Lord Charles will be busy fulfilling the score or so of engagements in Toronto. Next week he will probably visit Cobalt and the north, and may join the Legislative party which leaves on Monday, Sept. 6, to travel over the Temiskaming & North-ern Ontario Railway to Cochrane, the junction of the line with the National Transcontinental Railway. Lord Charles may, it is said, go to a few other Canadian cities, and will take the opportunity offered by his trip to this continent to impect the property which he owns in Mexico. Alex. C. Mitchell, an infant, is suing the city, through his nearest friend, Ar-thur Sawyer, for \$250 damages for in-juries received, it is alleged, as a re-sult of a defective sidewalk on Paradise Road. The boy broke his arm. Kerr & Thomson issued the writ.

Dr. Roberts said to-day that he did not intend asking to have any of the schools kept closed on account of the scarlet fever epidemic. He does not see any need for this, or of creating any alarm.

is an immensely increased street traffic since the section was provided with a well-paved street. The autos spin over when will Hamilton be a six-figure city. Nineteen-twelve is the date set by the Greater Hamilton Association. The time is short, and the magic figures, 100., 000, probably farther away than the carnest workers of that association would desire, but the proud city rolls on towards the goal, and it may be reached sooner than a good many think.

Certain it is that at no time in the city's history has its population grown as in the present decade—22.1-2 per cent, in the past five years, as compared with 7.1-2 in the previous five. And with increase of population have come increase of comforts and advantages of citizenship. Fortunately for the city's future, those dark spots known as slums have not been brought into being by the growth of numbers even though all good people are occasionally shocked by things that go on in our midst.

Evidences are everywhere to be seen that this is Hamiltons' era of expansion. It took fifty hours to complete the job.
The shaft will be delivered to night, and it will take all week at the very best to get it in place.

#### KILLED A GOOD HORSE.

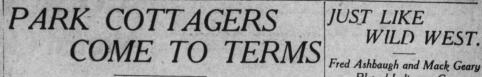

A valuable horse belonging to Burnison, the grocer, had to be killed on account of injuries it received by having its foot caught in the track at the corner of Queen and Herkimer streets yesterday. The animal became frightened at a Dundas car, which was running down Queen street, and bolted. As it was crossing the tracks at the corner of Herkimer street its foot became caught in the track and it was thrown so heavily that its leg was broken near the thigh. One of the William Telis of the police force ended the sufferings of the horse by two well-directed shots.

#### AUTO AND STREET CAR.

#### BROKE HIS LEG.

Falling to the ground while attempting to board a street car at the corner of King William and James streets on Saturday night, Charles Halliday, 200 Main street east, broke one of his legs. He was taken to the City Hospital, where the injury was attended to. He is doing well to-day.

"Were you born in the city?" asked the Magistrate.

"Yes, sir."
In consideration of that fact he was remanded for a week to allow any of his friends to come forward and go bail for (Continued on Page 10.)

### FROM ITALY.

showed that many of those who signed the original petition for annexation, opposed it in counter petitions. This meant that their names had to be struck off and the result was the defeat of the scheme.

The recent scarlet fever epidemic in Crown Point and the surrounding country made it very easy to get the new petitions signed. The potition filed with the City-Clerk contains the names of a large majority of the property owners. George Pilton, secretary of the committee, which has the matter in hand, was quite confident to-day that the territory would be annexed at once. "We have over 700 names already." he said, "and petitions that we are still circulating continue to be largely signed. The clause that appeals to the people is the provision that if annexation takes place the district is to have a proper water supply and sewer system at once. The terms the people will come in on are the same as were agreed upon by the city and township before."

Mayor McLaren to-day had a talk with some of the property owners in favor of having school section No. 8 incorporated as a village. He thinks in the provision that the property owners in favor of having school section No. 8 incorporated as a village. He thinks

#### LABOR MEETING.

Paris, Aug. 30.—The sixth international Trades Unions congress was opened in this city to-day. Samuel Gompers,
president of the American Federation of
Labor, submitted a proposal for the organization of an international federation of workmen, which would "defend
the rights and interests of all and create
international fraternity and solidarity."

### BROKE RECORD.

Queenstown, Aug. 30.—The steamer Mauretania, the record holder for the trans-Atlantic passage, arrived here to-day from New York, over the short course and made the passage in four days, fourteen hours and twenty-seven minutes. This beats her previous beat-passage by two hours and fifty-three minutes.

—A provincial charter has been granted to the Crowe Manufacturing Company, of this city; capital \$40,000.

"Mike" Miller, of Batavia,

The Canadian Westinghouse Company was able to announce to-day that it had the new main shaft, which is to replace the Killey-Beckett pumps at the Beach waterworks out of commission, com pleted and ready for delivery. Fortunately the Hamilton Steel & Iron Com pany had a shaft in stock. It was hur ried over to the Westinghouse and there finished up, that company giving

Owing to a collision between an automobile and a street car on York street, near the entrance to Dundurn Park, yesterday afternoon, traffic was held up for some time. The chauffeur was turning the auto around when the street car ran into it, breaking the axle of the machine. No one was injured. The auto belonged to Mr. Thomas Crooks, 518 York street.

Every fruit jar sold by us is guaranteed perfect. We have the Crown, Gem, Schram, also jelly glasses, all sizes, at reasonable prices; extra heavy rubber rings, extra rings, glass tops, specially prepared pidding vinegar, absolutely pure spices.—Bain & Adams.

## **Detective Shot**

Wm. Zimmer, a Lehigh Railroad detective, from Buffalo, was shot and probably mortally burt in a running fight with car thieves at Batavia late last night. Zimmer prised seven burglars at work on a Lehigh Valley Railroad car. One of the gang shot Zimmer, and the officers then fired six shots at the gang, mortally wounding

The alleged car thief and the detective were both taken to the

## PETITION FOR ANNEXATION.

City Council Called For 4 o'clock to Consider It. Over 700 Names on Petition

Already In. They Want Whole Section From Mountain to Bay.

Mayor McLaren this morning called a special meeting of the City Council for 4 o'clock this afternoon to deal with annexation. To-day a petition signed by over 700 property owners in the section between the mountain and the G. T. R. and as far east as 150 feet east of Ottawa street, was filed with City Clerk Kent.

For the past two years the rapid growth of the eastern section has presented a problem in sewage and water supply to the people—in the northern part of the district. Outbreaks of ty-phoid and scarlet fever made it dephoid and scarlet lever made it desirable on sanitary grounds to annex to Hamilton. It was thought early in the year that petitions had been secured, sufficiently signed, and the city and township council practically reached an agreement as to terms. The opposition, however, of the southern section resulted in counter petitions and a scrutiny order. counter petitions and a scrutiny order-ed by the Ontario & Municipal Board

A small child had a very narrow escape from being run over by a street car on York street in front of the Duff store this morning, and would have been have been seriously injured had it not been for the promptness with which Motorman John Duncan stopped the car. The car was going at an average speed, and the child apparently did not notice it, and stepped on the car track when it was but a short distance away. Motorman Duncan at once threw off the power and applied the brakes, stopping the car a very short distance. Those who saw it were loud in their praise of the motorman's prompt action.

of the motorman's prompt action.

THEY ARE SAFE.

On Saturday afternoon word was received here by Charles N. Stewart, Mayor McLaren's secretary, that his brother and sister-in-law, who were on board the ill-fated Ohio, wrecked last Friday on the Alaskan coast, were safe on board the Prince Rupert, which returned to Seattle with the passengers. Six people lost their lives when the hoat went down, and some anxiety was felt here about the safety of Mr. and Mrs. Stewart. They reside at Seyard, and were on their way there when the steamer was wrecked.

THE ZEPPELIN.

Buelzig, Germany, Aug. 30.—The Zeppelin airship, which started at twenty-four minutes past 11 last night from the Templehof parade ground on its return voyage to Freidrichshafen, met

Buelzig, Germany, Aug. 30.—The Zeppelin airship, which started at twenty-four minutes past 11 last night from the Templehof parade ground on its return voyage to Freidrichshafen, met with an accident this morning and landed here at 7 o'clock. The two forward propellers were broken, and one of them pierced the envelope, causing the gas to escape.

expedient to annex the district and the old committee will be appointed about the terms.
