FIRE DESTROYS PRESBYTERY 'SECOND TIME'

Bathurst, Oct. 3.—The Catholic Presbytery at Belledune was completely destroyed by fire yesterday afternoon. This building was just completed, having been constructed to replace the one destroyed by fire about a year ago.

\$100 REWARD, \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh of the Bladder. Catarrh is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietor has so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address F. J. CHENEY & CO., Toledo, O.
Sold by all Druggists, 75¢.
Take Hall's Family Pills for constipation.

MILL ACCIDENTS

In the Sinclair Co's mill, Bridgetown, on Tuesday, George Henderson's fingers on one hand were badly bruised by being caught in a gear, and Pat Cloud was struck in the face with a belt and bruised.

Sealed Tenders

Sealed Tenders addressed to the undersigned, and endorsed "Tender for Public Building, Hartland, N. B.," will be received at this office until 4.00 on Wednesday, Oct. 19, 1910, for the erection of a Public Building at Hartland, N. B.
Plans, specification and form of contract can be seen and forms of tender obtained at this Department on application to Mr. D. H. Waterbury, Supt. of Public Buildings, Public Works Department, St. John, N. B., and at the Post Office at Hartland.
Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.
Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender is not accepted the cheque will be returned.
The Department does not bind itself to accept the lowest or any tender.
By Order,
R. C. DESROCHERS,
Secretary,
Department of Public Works,
Ottawa, September 26, 1910.
Newspapers will not be paid for this advertisement if they insert it without authority from the Department. Sept. 29-2

THE FUR SEAL

A Sea Animal With Heart, Liver and Kidneys Like a Sheep.
The fur seal is a land animal of perverted tastes, who, living at sea, has had his paws changed into flippers very like the long black kid gloves of a woman. His heart, liver and kidneys are exactly the same as those of a sheep and just as good to eat, but his flesh, although just like fat mutton to look at, is rank and distasteful from his habit of eating fish. The whole package is put up in a parcel of thick white fat to keep the body warm, while from the skin grows a heavy crop of beautiful brown fur, protected with large flat oil bearing hairs, making a glossy surface which slides through the water without friction.
Perfectly fearless, overdoing with fun, a perfect little athlete, marvelously strong, the fur seal is the most delightful of all wild creatures. But, although they live at sea, the seals, being heavily clothed in fat, skin and hair, find the temperate latitudes much too warm for comfort during the summer months. Since they cannot shed their garments like ourselves, they migrate to a subarctic climate, gathering in immense multitudes where there are fisheries to support them. Their ration is fifty pounds of cod every day, which for a creature the size of a sheep is considerable.—Exchange.

THE FUR SEAL

A STORY OF THE SEA.

The Man Who Braved the Storm and the Sailor He Rescued.
Off the coast of Ireland there was a terrible storm, and a crowd gathered on the shore to see a storm tossed vessel not far away being pounded on the rocks.
Sturdy men launched a boat and pulled away at the oars to rescue the imperiled ones.
As the boat came back the watchers on the shore cried, "Did you get them?" and they answered: "All but one. We had to leave him or risk the lives of all." And when they were landed a stalwart fellow stepped from the group and said, "Who will join me in the rescue of the remaining one?"
Then an aged woman cried out: "Oh, my son, don't go; don't go! You are all I have left. Your father was drowned at sea, and your brother William sailed away, and we never heard from him, and now if you are lost I will be left in sorrow alone."
But the man replied: "I must go, mother. Duty calls me." Then he and other brave hearts launched the boat and pulled for the wreck.
Anxiously the mother waited in tears and prayers. At last they saw the lifeboat coming nearer and nearer, and when it was in halting distance they called, "Have you got your man?"
And the answer rang out above the storm, "Yes, and tell mother it's brother William!"

Nests of the Golden Eagle.

Every pair of eagles whose habits I have had an opportunity of watching over a period of a few years would seem to have invariably at least two alternative sites for their nests. Some have three, and I know of one with four sites. In fact, I only know of one pair out of many which habitually resort to but one place and only one. The reason for this is, however, apparent, for owing to its situation it has never been disturbed. The nest is in a small cavern on the face of an absolute wall of limestone rock some 800 feet high, at about 400 feet from the summit. Above the cliff is a talus of loose stone at an angle of forty-five degrees or so, above which again rise other precipices. To reach the nearest point above this nest would be a long day's work.—London Saturday Review.

University of Paris.

The doctor's degree in the University of Paris is so entitled as to designate the faculty under which the work was done, as those who do literary work would receive the degree doctor of letters, etc. To obtain the doctor's degree the candidate must possess the lower degree of the corresponding division of work, submit two theses on different questions, reply to questions or objections concerning them, pay a fee of 140 francs and present 100 printed copies of one of his theses to the university. The candidate for the degree doctor of letters must write one thesis in Latin, the other in French. If in the scientific department, the thesis must be on some original investigation; if in theology, the examinations are both oral and written.—School Bulletin.

Left Out in the Cold.

Elder (discussing the new minister's probation discourse)—In my opinion he wasna justified in dividin' folk into the sheep and the goats. I wadna just say, Jamie, that I was among the unco guld, an' I wadna say that you were among the unco bad. So what do we come in? He'll no do for us, Jamie. We'll no vote for him.

An Estimate and a Hope.

"You've heard her, you say?" remarked Mr. "Dobley. "Ah, she certainly has the gift of song."
"Well, I hope that's what it is," replied Miss Eboz. "I should hate to think she paid anything for it."

Some Old Miserie.

"Spies der was a turkey fer every man in de country?"
"Wadn't make any difference, fer they'd have wadna enough to fry out de turkey."

A man's mother.

"A man's mother is like a sheep— if you know her, you know her."

Campbellton Graphic Oct. 7.
ANDERSON—CALDWELL

A very pretty wedding took place at New Carlisle, P. Q., on Tuesday, Aug. 10th, at 9.30 a. m., when Miss Ethel Anderson of New Carlisle and Mr. Andrew Caldwell of Aberdeen, Wash., were united in marriage, in the presence of a large number of friends and relatives. The bride looked charming and was gowned in a beautiful dress of white duchesse satin, with veil and orange blossoms and carried a bouquet of sweet peas. Rev. G. S. Tattrie officiated. Miss Rena Caldwell played the wedding march as the bridal party entered the room and took their places beneath a rope of flowers, which was carried across the room. Miss Flora Campbell of Kilmarnock, Scotland, acted as bridesmaid and looked charming in a dress of white silk mull, and carried a bouquet of sweet peas. The bride's brother William, supported the groom. At the conclusion of the ceremony a short reception followed and a dainty lunch served to the company. The bride was the recipient of a large number of beautiful presents. Among the guests were noticed, Mr. and Mrs. I. W. Doherty, Mrs. Herbert Easter of Bass River, Mr. and Mrs. John Caine of New Richmond, and Miss Effie Downes, of Campbellton. Mrs. Doherty, sister of the bride, who was hostess, looked very pretty in a dress of white silk. After the reception Mr. and Mrs. Caldwell left on the noon train for Aberdeen, Wash., where they will make their future home. They were accompanied by a large number of friends to the station, where a great quantity of rice was liberally showered on them, and also carried away the goodwishes of all. The bride will be missed by everybody—in the home, church and social circle, where she always took an active part.

H. T. JACKSON

Hugh T. Jackson, who for the past 27 years has made Port Arthur his home, died at Rosport yesterday evening. When the news of Mr. Jackson's death was learned in Port Arthur there was genuine regret expressed, as the deceased had hosts of friends in the city. In the early days he was a business man of Port Arthur, but he afterwards retired, and until the last few years he lived in a retired state. Always being an exponent of the preserving of the great fishing industry of the Upper Lakes, he took a position from the Ontario Government when it was offered to him, as fishery inspector at Rosport. There he has been an active employee of the Government for the past two years and under his able attention the fishery laws have been administered in a manner that has been of great benefit to the fisheries.

Ten days ago the deceased came to Port Arthur to spend a few days with his friends. He was in the very best of health. Yesterday morning and afternoon he complained of pains in the chest. However, his condition was not very alarming, and the family were not notified.
Last evening about six o'clock Mr. Jackson passed away. The news of his death was telegraphed to Port Arthur, where it was received by the family and friends as a shock, as no one had any knowledge but that the deceased was enjoying his accustomed excellent health.

The deceased leaves a widow, four sons, John J., of Victoria; Clarence, of Fort William; Frank D. and Arthur W. of Port Arthur, and one daughter Edna F. of Port Arthur.
The deceased was born in Dumbarton, Scotland, 67 years ago. The funeral will be held from the family residence, 385 Herbert street tomorrow, Wednesday afternoon, at 2.30 p. m., to the Riverside cemetery.
The funeral of the late H. T. Jackson was held from his residence, Hebert street this afternoon to Riverside cemetery. At the residence a short service was held prior to the cortege leaving for the cemetery. At the grave side a service was conducted by Rev. Dr. Murray. Many beautiful floral offerings were received and placed upon the casket.

The following acted as pall bearers: Arthur F. Jackson, Clarence W. Jackson, Frank D. Jackson, Col. Ray P. H. Penfold and A. E. Wideman.
Mr. Jackson was for years a resident of Campbellton and was a railway man. Many of the C. P. R. employees will regret to hear of his death.

This Oven Bakes Perfectly

because it is evenly heated—because it is thoroughly heated, always. The heat-flues, broad and deep, encircle the entire oven so that it bakes as well at the top as at the bottom, and in the corners as well as the centre. The bottom is doubly stiffened so it can't warp and tilt pies. The inner body of the Kootenay is thoroughly protected with asbestos—the oven walls can't burn through. Besides, the Kootenay oven is thoroughly ventilated. No food can be tainted by fumes or steam. You get perfect baking results. Ask the nearest McClary agent to show you the many other advantages found exclusively in a

KOOTENAY Steel Range

Write to the nearest McClary branch for booklet and detailed information. It will show you why your range money will be best invested in a Kootenay.

DO YOU KNOW

that 90% of the telephones used by Canadian farmers have been manufactured by us? We are proud of this fact, for we think you will agree with us that it is a guarantee that our telephones give satisfaction to the farmer. It was to satisfy the farmer that we spent \$10,000 in designing and developing our 1317 type Telephone Set, which contains the most up-to-date features of any telephone intended to meet the requirements of rural service.

"How to Build Rural Telephone Lines"

is the title of a most interesting and instructive book which we have just published and which we will be pleased to send you FREE. It not only contains a full description of our telephones, but it also tells the complete story of the organization and construction of a Rural Telephone Company from the time the first post hole is dug until the last telephone is installed. With this book you have something definite to work on and can go among your neighbors and organize a community-owned system in your own locality. The book costs nothing—write and ask for Bulletin No. 780 and we will send you a FREE.
