

## Quality Plus

When you buy King Cole Tea you expect quality. But you also look for something more—for a certain taste that is pleasant to you, and that will be repeated in every cup you make. The quality is produced in Nature's Garden; but the taste is the outcome of expert blending which gives King Cole its characteristic rich flavor—the flavor you like. Is it not worth much to have your cup of tea always—as you like it?

"You'll Like the Flavor."

## Relief for Famine Sufferers

Empress of Russia at Vancouver loading supplies for the earthquake-stricken thousands of Japan.

With every available inch of her cargo space crammed with foodstuffs and a capacity stock of ships stores, sufficient to replenish the supplies of the Empress of Canada and the Empress of Australia, on relief duty off the Japanese coast, the Canadian Pacific S.S. Empress of Russia was the first relief ship to arrive. She carried consignments of flour, canned milk and canned salmon amounting to 350 tons, from the Canadian government. The British Columbia branch of the Canadian Red Cross sent twenty tons of canned milk and fifty tons of other canned food-stuffs, while the Vancouver Japanese Association contributed an initial shipment of fifty tons of flour for their famine-stricken countrymen. More than two hundred & twenty-five of the "Russia's" three thousand tons of cargo was of flour.

## Canadian Rockies Lure Noted Artists

Noted artists; famous moving picture directors and expert scenic photographers, like thousands of tourists, have succumbed to the lure of the innumerable beauties of Banff and the Canadian Pacific Rockies. Artists in increasing numbers each year spend the summer on the trail in the mountains transferring these beauties to canvas. For seventeen years Carl Rungius, celebrated painter of wild animals in their native haunts, has been a regular visitor to Banff. Now he lives there most of the year and has built his own bungalow and studio. In 1924 Rungius won the \$1,000 Altman prize, but, being foreign born, was disqualified, whereupon the National Academy of Design bought the painting for \$1,000 and it now hangs in the Corcoran Art Gallery, Washington.

Belmore Browne, artist, explorer and conqueror of Mt. McKinley, 29,000 feet, lives in his own bungalow-studio in Banff this year round, except when exhibiting in New York. He and Rungius both study the mountain goats, sheep, deer and bear in their wilderness homes and paint them and their majestic scenic backgrounds. Richard W. Kimbel, landscape painter, has spent two summers in Banff and is painting in Lake O'Hara, west of Lake Louise, and last year W. Langdon Kihn lived a month on the Stoney Indian reservation making pastel portraits of the big chiefs, little papooses, squaws and guides. Leonard M. Davis, who paints wonderful landscapes in Alaska and the Canadian Rockies with a palette knife, has joined the Banff art colony and expects to make his winter home in near-by Calgary.

The lure of Canada's Switzerland drew John Singer Sargent, R. A., to beautiful Lake O'Hara; in the heart of the Great Divide, and with his easel planted in the white and pink heather of an Alpine meadow 6,600 feet above sea level the world renowned painter devoted ten days to painting this exquisite blue-green lake and the towering mountains in which it is cupped. Charles W. Simpson, R. C. A., of Montreal; Oliver Dennett Grover, of Chicago; Philip R. Goodwin; Edward Posthast and Albert Groll of New York and many other painters of note have found inspiration in this scenic wonderland. As for those humble artists; the tourists with cameras; they are to be seen snapping away everywhere in the bungalow camps, by the lakeside and along the trails making beautiful pictures which inspire these artists to visit Banff and its environs.

## NEW LAMP BURN'S 94 AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean safe. Burns 94 p.c. air and 6 p.c. common kerosene (coal oil).

The inventor, J. M. Johnston, 240 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.
