Tuesday's Daily)
If appearances and past perform ances can be banked on, Chas. Moth will have about the busiest hour in his career on Saturday night, when he encounters Settler and Vallee the local wrestlers. Under the articles Moth is

to throw each of them twice in an Setter has been seen at work here before. He and Watson, of Calgary, met at the Thistle rink in October. Setter securing two of the three falls in nine and six and a-half minues

Vallee is a Montreal man, and divides his time between boxing and wrestling, preferring the gloved sport. He has been in the west about three years. He made a great stand against Downs in September at Strathcona, the latter requiring fourteen minutes Taylor stands first on the list for it, to get him on his back. He is also with a 29 to his credit. He got this one of the quartette Downs fell down on when he undertook to dispose of the four in an hour. Vallee is 24 years of age, stands 5 feet 11, inches. and will tip the scales close to 175. Moth is superior to both by am inch or two in height, and has had more

experience. He also is a trifle heavier than Vallee, but has nothing in represent him. The delegates in atthis respect on Setter.

BASEBALL

The season in the Eastern league will probably open on April 25. There are now in the National Association thirty-four leagues,256 clubs and 4,600 players.

mourn. NO CAR SHORTAGE IN THIS Saturday's Daily) Office of White Star C Strathcona ,January 24th,

rusty nail about a month

Dear Sir-It would appear by cussion which is going on in n pers throughout the west that ally speaking the railway con are being held responsible for shortage wheneveer and where has occurred. As coal mine ors we have had some experienc one railway company, the C Pacific, and incidentally have ha knowledge of how their coal con were being served in the distribu cars and to the credit of tha way company we must state that have shown us every considerati with very little interuption hav kept supplied with cars since operations were begun in Sept We believee that in justice to-th way company we are called a give a fe wracts which indicat there is another side of the quest sides the wholesale condemnat railway companies for scarcity n this part of the west. The Star Coal mine is situated three from Ellerslie, a siding on the (line, eight miles south of Strat In the early part of the season quired one car per day and ist few months about two cars day. From eight to twelve teams two trips daily with the except Thanksgiving day, Christmas and Year's days. During the whole since September 1st just fi ty tons taken to the siding at Ellerslie ar to be thrown on the ground and ty-five tons probably were broug to Strathcona which might have loaded on the cars. This was sev and represents the extent of th shortage as far as the White Star Co. was concerned. In this conr it might be mentioned that as the mand for coal far exceeded our the time, it was our practice t only a minimum capacity of ca on certain occasions when there no other empty cars when team rived and these minimum loade. were still standing on the sidir increased the weight on them.

while it prevented our supplyi

greater number of people with cars, afforded transportation
