into print with time at their toilto the proper state of

If an American woman wants to an injunction to keep her husband's love, I don't think American women she needs to go through with any subjec- carefully.

Madame announces that our men do ruin himself to buy ornaments for he object of his affection, whereas an American man almost never com- plaining notes out of her voice. If I ports himself in this admirable way. And this unfortunate state of affairs, she explains to us, is due to the fact that American women do not spend enough time in making themselves beautiful. She herself spends several hours daily at her toilet table and any normal French woman is willing to employ ten hours in making herself beautiful if she may fas-

Stuff and nonsense Yes Madame, that's not very reined, I know, but it seems to be the only way I can fitly characterize your

cinate for one hour.

I think the women of America have een hearing altogether too much of as a lovable wife. his sort of thing lately. There are, to be sure, some of us who think too little of the duty of looking as well as we can. But there are just as many who think of little else.

I don't know much about Frenchnen, but I do know that the middleclass, backbone-of-the-nation, average American man does care about something besides physical beauty in For Men, Women and

Madame, the prima donna, thinks the only way to keep your husband in love with you is to spend half the day the toilet table, fighting away old age, and simulating youth and beauty after they have departed. And what pray is to happen to the babies, the kitchen fire, the supper, and a few other little incidentals about the house

A foreign pri- that occasionally require attention donna and while mother is chained to the toilet profess i o n a l table, penciling her eyebrows and beauty has burst massaging a threatening double chin?

to spend more such farcial performances as these. Let her take a reasonable interest et tables, in or- in her personal appearance, studying der to bring becoming colors, adopting, or if netheir husbands cessary, adapting becoming styles, and putting on her clothes neatly and

Let her give a reasonable amount of time to the care of her person, not love us as the French love their keeping always perfectly sweet and women. A Frenchman, she says, will clean, and doing everything. in her power to keep healthy. Let her keep all fretful and com-

were a husband, nothing would drive me from my home more quickly than wife with a fretful voice.

Let her keep her mind from staglating and her horizon from narrowing by reading and talking about the world's progress, and the things that count. We read that men fell in love with Madame de Stael after she was seventy. Why? Because she never let her mind or spirit stagnate. Let the American woman take a

interest in her husband's work. Let her try to be fair minded, kind, and considerate-in fact, obey the Golden Rule-in her household rela tions, and be a livable friend, as well

Let her remember the enthusiastic fine souled girl her husband fell in love with and idealized, and never let that girl wholly die within her.

Let any American woman do all or half these things, and even if she has no toilet table in her home, I think that in ninety-nie cases out of a hundred, she will be able to keep her husband's love "Till death us do part." To be sure, I don't mean that it will be the kind of love that will make hin

ruin himself to buy her ornaments. Merely the inferior American quality of love that makes a man glad to toil to make his woman a pleasant home, and eager to come back to tha home when the toil is done.

Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale-people lock good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach. A remedy that makes the stomach strong and the liver active, makes rich red blood and over-omes and drives out disease-producing bacteria and cures a whole multi-tude of diseases.

Get riu of your Stomach Wealiness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery the great comach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of anknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having complete list of ingredients in plain English on its bot-

tle-wrapper, same being attested as correct under oath. Dr. Pierce's Pleasant Petiets regulate and invigorate Stomach, Liver and L.

Possibilities of Motor Truck Unlimited.

A well-known New York auto man

"It is impossible to ignore the loomotive influence in the motor truck of to-day, because both go back in origin to the same vehicle. The difference to-day is that the locomotive travels on steel rails, and the motor truck travels on the road. In other words, the motor truck is a road locomotive. But in actual years the motor truck is older than the locomotive itself. Before the locomotive was adapted

'Only a Cold'

SNEEZING and running at the nose, stuffed up feelings in the head, sore throat, tickling in the throat and coughing.

This is the natural development of whatisin the beginning "only a cold." It is the way in which scores and thousands are allowing colds to develop into bronchitis, pneumonia,

If colds were promptly cured there would be no need for sanitoriums and hospitals for consumptives. Because people have weak lungs they need not become consumptives if they will but guard against colds and cure them promptly by using Dr. Chase's Syrup of Linseed and Turpentine.

This great medicine has proven its curing croup, bronchitis, whooping cough, asthma and all sorts of coughs and colds. 25 c. nts a bottle, at all dealers or Edmanson, Bates & Co., Limited, Toronto.

o steel rails it ran over roads jus 's the commercial vehicle of this age oes. It developed faster, of course nd along different lines, because i vas called upon to pull a heavier oad, and to go farther in a day.

The possibilities of the motor truck is an economy in time and money herefore, have but recently dawned ipon business men. Modern business ias brought about a demand for labor saving machinery, for speed in getting goods from one place to another, and the natural result is that the horse has been found wanting. It is 3125. only within recent times that comtransportation of merchandise safely and on time became an important factor in the success of a concern.

Before this awakening came, autoprise so occupied them that they were the motor truck.

The truck up almost to the present time has been an engineering project, and is only just now passing inpleasure—the business vehicle after the pleasure vehicle.

To-day the situation is vastly different. The pioneers have blazed the way so that there is not a single large progressive company without motor trucks. Investigation further will reveal the fact that the leaders in commerce and industry are fast replac ing their horses with motor trucks.

Take the case of the American Express Company, for instance. The motor trucks in the service of this right to a place in every home by concern continue to increase in number every year. And express ser vice, it is well to remember, is the most severe service known. It has

Soper & Moore

proved the durability and the econom of the motor truck.

Before installing motor trucks th hig companies spent much money and hired experts to compare the relative merits of the horse and the truck The verdict has been unanimous favor of the unquestioned superiority of the power vehicle.

Our own experience has been that 32 per cent, of all Alco trucks were ourchased on repeat orders. Other companies engaged in the manufac ure of motor trucks have noticed a general tendency of business houses o add to their equipment of power trucks

To show how general the awaken ng has been to the almost unlimited ossibilities of the motor truck, it is estimated that there is a need to-day f 400,000. On account of the few ears of the truck's existence ther re to-day only 20,000.

Enormous Eaters

ome Record Meals Eaten on Wager or Just for Fun.

Not long ago a Berlin market por er undertook, for a wager, to put way, at one sitting, six mutton hops, twelve eggs, a goose, a duck, pounds of potatoes, and 22 pounds hav Difficulties were anticipated vith the last course, and large sums zere laid against the accomplishmen f, the feat. The ingenious porter olved the difficulty by calling for a igarette after he had finished the He then set light to the hay ounded the ashes up with the potaoes, and swallowed the lot. After eated discussion the referee declar d him the winner.

A certain Mr. Jerry Eke, of Norfolk, ingland, on one festive occasion had small calf prepared and cooked for is special delectation, and delibertelly consumed it, all but the bones uring the space of seven hours; and o little did this interfere with his xcellent digestive powers that he earty repast the same night, and apeared to be none the worse for it. Perhaps the smartest gastronomic eat on record was that performed by licomte de Vliel Castel, who to deide a wager, disposed of the followng items in 2 hours 40 minutes:-Cwenty-four dozen of oysters, a soup beefsteak, a pheasant stuffed with ruffles, a salmis of ortolans, a dish of asparagus, another of peas, a pineupple, a dish of strawberries, five

iqueurs. The meal was valued at A Siberian soldier, notorious for petition has become so keen that the he insatiable appetite he possessed, ince disposed of a meal, in the pres ence of an English officer, consisting of ten pounds of bread and butter, 10 pounds of beef, and a bundle of talmobile manufacturers had begun to low candles as dessert. A young Rusbuild pleasure vehicles. This enter- sian soldier, seventeen years of age, named Tarane, ate 24 pounds of beel not able to give the consideration due in twenty-four hours, and on another occasion disposed of a repast prepared for fifteen people.

ottles of wine, ending with coffee and

In the Bodleian Library at Oxford may be seen a bill of fare that gives to the field of the merchandisers. It a very good idea of the enormous apwas an odd case of business after petite possessed by Peter the Great and his suite. It refers to a visit paid by that monarch to Godalming, in Surrey. At breakfast Peter and his dozen courtiers made short work of half a sheep, a quarter of lamb, fifteen chickens and ducks, and four dozen eggs. For dinner the same day they ate a sheep, five ribs of beef, three quarters of lamb, fourteen pullets and as many rabbits, and a good supply of brandy and wine.
