**Sour Grapes.**

A short time ago the Tories were ready to crown Sir Robert Bond with a halo. Now they would scarify him. A short time ago they were expecting every day to hear that Sir Robert Bond had retired into private life, and they prepared to boom Sir Edward Morris as the legitimate successor of Sir Wm. Whiteway, although Robinson, Mc Grath, Watson and Morrison strove might and main to put an end to the last Whiteway administration. As however, Sir Robert has made no sign of retiring, Mr. Robinson gave vent to his disgust by telling his readers that Sir Robert was of little account as a leader and would stand no chance whatever against Sir Edward Morris. Sir Robert, in the opinion of Mr. Robinson, as a leader was impossible of success. As we pointed out yesterday, it is a case of sour grapes with the Tories. They have been reading whatever hopes they had on Sir Robert Bond retiring. They knew they were done for last year, but M'cawber like they have been waiting for something to turn up, and what they were hoping would turn up was the retirement of Sir Robert Bond. Last year they feared to put their chances to the test and face the electorate, as they were asked to do by thousands of fishermen. They were afraid of the animosity of the F. P. U. and the leadership of the Liberal Party under Sir R. Bond. The change of sentiment in regard to the Morris Government has been amply demonstrated by the fact that thousands of electors took the very unusual step of signing petitions in scores of settlements praying for an election last fall because they were alarmed at the wasteful expenditure which had been carried on by the Morris Government. The F. P. U. in Supreme Council assembled endorsed the action of the

petitioners last December and called all the members of the Union, all of its sympathizers, and indeed upon all electors who value good government, sound administration and economy in the expenditure of the public revenue to rally round the men who will fight to oust the present Government from power. These petitions emanated in the main from settlements in districts which returned Morris candidates in 1909, and the special significance of the whole of these proceedings is the clear demonstration of a wholesale reversion of political feeling. A mighty change has come over the electorate and the whole trend of the change is directed against the Morris Government. An expression of that change has been given to it in a manner wholly unprecedented. It is one of the most remarkable signs of the times. It is not so surprising however when the enormity of the misconduct of the Government is taken into account. It is but an effect of an adequate cause. Is there any wonder then that the Micawber-like policy has failed? Is it any wonder then that people who trusted Sir Edward Morris five years ago have turned over in their thousands to add strength to the Liberal electorate which supported Sir Robert Bond in 1909? A change of a few hundred votes is all that he wanted to defeat many Morris candidates next fall. The tide is against the Morris Party. That tide is running very strong and the Morris party leaders are sorely disappointed, and now in their disgust, they vent their spleen on the man they are preparing to land. Sir Robert Bond has not retired from Politics and they are disgusted and like the fox in the fable, they call the grapes sour. The Tories declare Sir Robert is impossible of success as a leader. We take up that issue and declare that Sir Robert has no equal as a leader. In him we pin our faith. On him the people rely, and with him there is every hope of a glorious victory.

**McMurdo's Store News.**

TUESDAY, July 15, '13.  
 Masata Talcum Powder grows more popular as its good qualities are more widely recognized. We have no doubt it will become as indeed it is now becoming the favourite with mothers, who will find it of immense service in hot weather in keeping the skin of infants and children in healthy and comfortable condition. It is particularly pleasant too for use after shaving. Price 25 cents a tin.  
 Citronella Oil is one of the best preventives of mosquito bites we know, and it is much more pleasant to use than the various compounds of Tar and Oil, etc. It is very potent and so economical in use. Price 25 cents a bottle.

**The Fishery at Fox Harbor.**

Editor Evening Telegram.  
 Dear Sir,—The fishery here to date is the worst for the past twenty years. We had three arrivals from Island Head during the past week with but very small catches, and they report fish very scarce all up the shore. We cannot boast of half the fish we had up to this date last year and as the dog-fish have made their appearance in abundance we expect to be compelled to abandon the voyage any day, but we are not surprised whatever takes place because we always realised that Tory times are hard times. You are aware, Mr. Editor, how we fishermen detest and abhor the dog-fish, but we had a visit from Dick Deveraux whom we detest and abhor more than the most monstrous fish in the ocean. We thought when we saw him coming that he came to open a school here which was closed last November, but I cannot explain to you, Mr. Editor, how disgusted we were when we found that his mission was looking for candidates. He offered two young men here all sorts of inducements if they would go on the ticket with him, but they knew poor Dick's political career was ended and would not touch him with a pitchfork, and he was so ruffled and disgusted that he never offered us a ram or asked us how our potatoes were growing. He left here disgusted and said he would try Dunville and if he could not get a man there that he had Sweet Willie and John King to fall back on any time. Jack brought him around the harbor and in on the new road; but Jack is a keen coddler although he looks so seriously.  
 I am sorry to inform you, Mr. Editor that our respected friend and citizen, Pat. Davis, was very sick during the summer and is improving only very slowly.  
 Yours very truly,  
 WOOD CAT.  
 Fox Harbour, July 14, 1913.

Special to Evening Telegram.  
**PETERSBURG, To-day.**  
 A Bulgarian gunboat and torpedo boats are lying in the harbor of Sebastopol where they had taken refuge from the Roumanian fleet; they were disarmed by the Russian authorities, the twenty-four hours grace allowed the belligerents having expired.  
**PEKIN, To-day.**  
 The House of Representatives passed the first reading of bills impeaching the Minister of War, Tuan Chu Jul, who is acting Premier, and the Ministers of Finance and Navy. The charges against the Ministers of War and Finance are in connection with the conclusion of a contract for an Austrian loan. The Minister of the Navy is charged with acting unconstitutionally. Another Bill impeaching the Cabinet collectively also passed its first reading. President Yuan Shi Kai has ordered reinforcements to be dispatched to the Province of Kiang Si, where the cashiered Governor Gen. the blowing up of a Fort and other anti-government acts indicate that the Young China Party has destroyed government forces.

**LONDON, To-day.**  
 A Saloniki despatch to the Times says "Greece is preparing to sign an armistice only on the condition that the frontier questions and the payment of indemnity by Bulgaria, and the guarantees for the welfare of the Greeks under Bulgarian rule shall be settled on the battlefield. The Greek and Serbian plenipotentiaries are meeting at Nish to discuss the situation. Premier Venizelos is of opinion that the creating of three numerically equal States in excess of Greece. Greece peacefully in the Balkans. Greece previously was prepared to admit Bulgaria might have a population of one million in excess of Greece. The Greek Premier further refuses to oppose an annexation of Thrace to Bulgaria, although many of his countrymen consider this attitude sacrifices the interests of his country; but he says he has no desire to create difficulties for the Great Powers, and will be content with adequate guarantees for the future of Greeks in Thrace. King Constantine agrees with M. Venizelos these points.

**Monthly Meeting**

The adjourned meeting of the T.A. & B. Society was held last evening, President Ellis presiding. Five applicants were admitted and the quarterly reports of the auxiliary branches of the institution were read and adopted. Everything is going along very successfully with the Society. The proposal received from the Manufacturers' Life Assurance, was adopted, which will enable members of the society to insure their lives at a much better rate, and also gives an opportunity for the workman, who cannot insure for a thousand dollars, to take out a policy for two or five hundred. Mr. Walsh will now canvass the members of the society and no doubt will be successful in inducing a large number to insure, thereby assuring protection for their families. Only Total Abstinence Society men are allowed this concession of small insurances, as total abstainers are eagerly sought after by Insurance Companies. The President stated that the annual Juvenile picnic will be held at the Octagon on the 12th August. Chairman M. Tobin and his assistants intend to make this event come up to the usual standard this year. After attending to some minor matters, the meeting adjourned.

**Good Day.**

Yesterday was a great day for fishing on the local grounds, and a profitable one for fishermen with traps. A. Snow, of Quidi Vidi, secured the largest haul of three hundred quintals; J. Ryan, of the Southside, got over two hundred quintals and Messrs. Mallard, of Quidi Vidi, Ellis of the Southside and Reid and Burt of the North Battery got over a hundred quils each. The men referred to used that cod were never seen so plentiful.
