Special Opportunity for Investors.
MARITIME TELEGRAPH & TELEPHONE COMMON.
 We draw the attention of the investing public to the merits of this stock. The annual statement of the Company shows a large increase in business for the year ended December 31st, 1913—an increase of 2379 subscribers, and the Directors state that it would appear from present indications that this growth will continue for some time to come. The stock pays an annual dividend of 6 per cent.
 Public Utility Securities are always very popular. The statements of well managed companies show constant increases in receipts in prosperous times, and only a minimum of disturbance in periods of business reaction.
 We are in a position to offer a block of Maritime Telegraph & Telephone Common at an attractive price, and would advise investors to write at once for full particulars.
