By An M. P.

Who helped to give the great...
...at the Peace Conference.
...we had Mr. Lloyd George de-
...that the Bolsheviks should
...to the Conference, in spite
...Britain's emphatic verdict against
...barbarism. Next we had the rumor
...there were to be no indemnities
...because President Wilson does
...no desire; and lastly the German
...and the territories which we
...from Turkish (vandal) are to be
...over to the League of Nations.
...which may or may not appoint those
...made the sacrifices to control
...under the League!

Indemnities.

There was one question above all
...which the electors were inter-
...in it was that of indemnities.
...face facts, and admit that un-
...we make Germany pay the not
...of the war, then most of the great
...reforms which we desire will
...by the board. We are faced with
...of \$500,000,000 unless we
...the criminals pay, and that is
...our total income; and since, with
...aid of our great people, we have
...the Germans, what possible
...have our Ministers in failing
...carry out the Prime Minister's
...pledge, which was that Ger-
...should pay according to her ca-

President Wilson, head of the one
...gent State which has been
...ly enriched by the war, says "No
...indemnities," and Mr. Lloyd George
...is prepared to eat his
...vows and say "ditto" to the
...resident.

The Hun Colonies.

I can find no record of American
...vements in South, East, or North
...Africa. I cannot remember American
...in Palestine or Mesopotamia,
...the "Times" "History of the
...makes no mention of American
...ships at the Dardanelles, so this
...question appears to be primarily a
...which question. The interests of
...Italy, and Belgium are, it is
...involved to a minor extent; but
...case can I trace the right of the
...States to dictate the future of
...territories. President Wilson's
...has, however, gone forth that
...these countries are to be the property
...the League of Nations, and our
...Peace delegates appear to
...have the knee on every single
...of vital interest to the British
...Empire.

The League of Nations.

The League of Nations does not
...exist, and why Siam, Liberia,
...Switzerland, and not to mention Ger-
...Bulgaria, Austria, and Turkey,
...of whom will join this wonderful
...League, should control these terror-
...which we have won for civiliza-
...at such bitter cost, only Presi-
...Wilson and Mr. Lloyd George
...can explain.

Presumably the League of Nations,
...it is to own these territories, will
...pay the whole cost of their con-
...tent; this is the logical conclusion
...such a policy, but I have not yet
...any indication that it is Presi-
...Wilson's intention.

All this weakness fully justifies the
...warnings of the National Party at the
...election, but none regret more than
...nationalists that their warnings have
...come true.

France and Ourselves.

France is most sceptical about
...leading over her destiny to a chimera
...League to defend her from a fu-
...le onslaught from Germany, and
...while everything is to be gained from
...the Allies forming an alliance against
...and for enforcing the end of Con-
...script Armies, surely our interests
...and our gratitude should cause us to
...and by France, and not abandon
...our great friendship in search of a
...land which no one has explor-

France and the British Empire
...the world. Without France the
...over of whose manhood perished by
...side in resisting the German
...invades, Europe would be German to-
...and American German to-morrow.
...without the British Fleet France
...would have died, and without the Brit-
...Army the German Armies would
...have been hammered into ac-
...quiescent defeat. Let us then remember
...our friends, and stand with France
...resisting any plans to hand over
...destinies to an unknown com-
...ination of enemies and neutrals.
...France will stand by us.

The Peace We Want.

We want a peace which is just, and
...expect our delegates to remem-
...that we pay them \$5,000 each
...annum to guard British interests.
...they are our Ministers, and they are
...the servants of Utopia or even of
...Moon. Having secured British
...interests, they can then attend to the
...of humanity generally, but
...their first duty is to ourselves. Man-
...chester Weekly Times.

When you want something in
...hurry for tea, go to ELLIS.
...and Cheese, O's Tongue, Boiled
...Ham, Cooked Corned Beef, Bo-
...nga Sausage.
