If a Testator

although seeing the benefits to be derived from a Trust Company's administration, hesitates about cancelling any appointment he may have already made, the Montreal Trust Company can be named to act with the Executor or Executors already appointed. In this way the Trust Company co-operates with the Testator's appointees in the administration of the Estate. This plan is very acceptable when the Testator's wife is named as Executor. Few women have the necessary business training to enable them to carry on the administration of an Estate, but with the co-operation of the Montreal Trust Company the Testator's wife can be appointed with full assurance that the Estate will be looked after.
