

Bring Us Your Upholstering NOW!

Don't wait until Spring opens, because then you may have to wait for some considerable time before we can fill your order. Now—in the dull season we can give special and prompt attention to your needs, whether for some comfortable "tub" chairs, a really delightful Chesterfield, or some old favorites you would like renovated.

We have beautiful Upholstering fabrics that will charm you, we have workmen who are cunning masters of their craft, and we guarantee you promptness, efficiency and reasonable prices.

What is Your Verdict!

Is it not safe to assume that the Ford Motor Company of Canada, Limited, who manufacture in their own huge perfectly equipped plant practically every part of the Ford car, are the people best qualified to make replacement parts at the lowest price compatible with the high quality which must be maintained?

Manufacturers of spurious parts, operating as they do on a small scale with limited capital and inadequate equipment, cannot possibly make parts of the same quality or accuracy at anywhere near the low price you have to pay for Genuine Ford Parts. Yet you are asked to believe that these spurious parts not only equal Genuine Ford Parts in quality but can be produced to sell for less!

We rest our case here. The verdict we leave to you.

S. A. Moser Writes of Dr. F. G. Kinsman's Heart Tablets, Dyspepsia Powders.

I can recommend your Heart Tablets with safety to anyone suffering from heart disease, for I have never found a medicine which would give such relief or effect such cures. I had a trouble which three of the best physicians in this country said was heart disease and your Tablets cured it. My father had heart disease for eighteen years and could find nothing to do him good, but after using three boxes of your Tablets has not had a single symptom of the trouble. You are at liberty to publish this letter if desired, for I can stand by these statements anywhere.

Why So Many Wear Glasses

The very general use of Eyeglasses nowadays does not mean that the vision of people is poorer than in former times, but that to-day they are having defects corrected that were formerly ignored.

Allow us to examine your eyes and determine the requirements.
