Parishioners Hold Annual Meeting

The annual meeting of the parishioners of St. Thomas' Church was held in Canon Wood Hall last night. The Rev. J. B. Elliott, presiding. There was a large gathering of both sexes present. After the opening prayer and the reading of minutes, the Rev. before presenting his report, availed of the opportunity to thank the congregation for the high honor conferred upon him by electing him to be their rector, and asked for the prayers and co-operation of the whole congregation. His report of the spiritual work of the parish had of necessity to be very brief as he had only been a short time in the parish; he was, very pleased and thankful for the large attendance at all the services during Lent. Holy Week, Good Friday and Easter, which gave him encouragement for his work in the future.

The People's Warden, Hon. Robert Watson, presented the Financial Statement of the Parish which was eminently satisfactory, the receipts for the year being sufficient to defray all Church expenses and also to wipe out the debt of about \$1,400 with which the year commenced. To-day there is a small balance in the Bank to the credit of the Church, the receipts for all services amounted to \$26,000, being \$18,400 for parochial purposes and \$7,600 for extra parochial expenditure such as missions and diocesan needs.

The Rector regretfully announced that Sir Marmaduke Winter, who has recently been so greatly bereaved, was unable to accept re-appointment as Rector's Warden, but assured him that he would give him and the parish all his influence and support that was possible. In place of Sir Marmaduke, he was glad to be able to say that the Hon. Tasker Cook had accepted the appointment of Rector's Warden. Hon. R. Watson was again unanimously elected People's Warden.

The election of the Select Vestry resulted as follows:—The Rector and Wardens ex-officio; Hon. Sir M. G. Winter, H. W. LeMessurier, C. M. G.; L. Colley, F. M. Stirling, R. R. Wood, A. G. Carnell, W. S. Monroe, C. E. Hunt, G. H. Cook, R. G. MacDonald, R. Dowden, J. C. Oke.

Here and There.

THE TRAINS.—The incoming express left Bishop's Falls at 9 a.m. Yesterday's west bound express left Benton at 8 a.m. The weather is fine and clear all along the line of railway to-day.

Dr. T. P. Smith, Dentist, wishes to inform the public that he is still at the old stand, 256 Water Street, where he has been practicing his profession for the past twenty one years.—apr30,41.eod

STAR BILLIARD DINNER.—The Star of the Sea Billiard dinner will be held in the Club Room to-night at 8.30. Covers will be laid for about 150. "Spot" side lost out by thirty-three points and are responsible for to-night's spread. A special programme of songs and speeches has been prepared and an enjoyable evening is bound to follow.

The Next War

Boston Globe: (H. Grindell-Mattews, an Englishman, has successfully demonstrated an electric ray which will explode ammunition and stall gasoline motors at a great distance). In "the next war," which the military gentlemen keep talking about, there will be no non-combatants—not one. It will be recalled that a good many elderly, and frequently adips, gentlemen were in the habit of mourning their inability to go to the front. The next time they will have their wish. They will be right at the front. For everything will be front. There will be no rear. And everybody will be combatants. It will be as important to wipe out civilian populations as fighting men—and as easy. Thus it is seen how our era of scientific invention as applied to war constitutes an unmitigated blessing to humanity and furthers the cause of human equality. There is an equality as with electricity at long distance by a light-ray. Blessed are the peacemakers. Award to Mr. H. Grindell-Mattews the Nobel peace prize. He has earned it.

GENERAL MOTORS REGULAR DIVIDENDS

First Quarter Net at Annual Rate of \$3.40 a Share on Common.
(Boston News Bureau, April 23.)
N. Y.—General Motors declared regular quarterly dividends 20 cents on common; \$1.50 each on preferred and 6% debenture and \$1.75 on 7% debenture. Common dividend is payable June 12 to stock of record May 19, other dividends Aug. 1, to stock of record July 7.
Pres. Sloan announced final figures for first quarter will not be available until later in week, but preliminary figures indicate net earnings available for dividends after depreciation

"Mayo-Keno Bulletin" Japan and Singapore

TYPED BY WOMAN IS CANADA'S BABY PAPER.
VANCOUVER B.C., April 23.—(Canadian Press).—With a typewriter, some bundles of typewriter paper and a few score sheets of carbon paper as its mechanical plant, Canada's newest newspaper made its appearance in Mayo, in the Yukon, recently. The first edition of the Mayo-Keno Bulletin, "owned and edited" by Mrs. Marie Fotheringham, a well known figure in the Yukon, came from the "press" on January 25, with the express intention of making a similar exodus each succeeding Tuesday and Friday. A copy has arrived here. Mayo and Keno are, two mining towns which sprang up almost overnight a year ago, following upon the Keno Hill silver discoveries. Mayo is now a community rivaling Dawson City in activity, but almost isolated as far as possibility of knowledge of current outside activities is concerned. The establishment of a government radio service between Mayo and Dawson, some sixty miles away, not only brought the two camps into the world, but gave Mrs. Fotheringham her opportunity, and she believes she has given her fellow townsmen theirs. "For," observes The Bulletin, expressively, "it is a truism that non-circulation of news is conducive to intellectual dry-rot, or, in other words, it is cheaper to buy news at half a cent a word than to build a bug-house."

Boy's Heart on the Wrong Side

A medical officer of the Merthyr Education Committee in the course of examining a number of children recently made an interesting discovery. The heart of Willie Jones, a boy of 13 years, was located in the right breast. This was confirmed later by X-ray examination.
With the exception of an attack of pneumonia at the age of seven the boy's life has been consistently good and his general condition is fitted as perfectly sound.
He is one of seven children and lives with his parents at Troedyrhiw.

Graduates of the Greatest School

The mere lack of a University or public school education has nothing to do with a man's patriotism or common sense. Education is a bigger thing than either Eton or Harrow, Oxford or Cambridge, and its most essential part of character-building it may have been quite well acquired by the boy who went to work in mine or factory before he reached his "teens." Men have been through this hard school are not usually of the type who go around waving a red flag and wading through imaginary floods of gore. It is a matter for admiration, as well as for confidence in our race, that so many of the Labor Party leaders, who to long years of hard manual toil then added the still harder task of self-education, have come through it all with so little bitterness of heart but with a strong determination that their sons and grandsons will have smaller handicaps. The people of Britain recognize this, and not least of all those to whom circumstances have hitherto delegated the business of politics and administration.—Buluwayo Chronicle.

King's Stand on the Great Seal

Ever since the Conquest, the Great Seal has shown the reigning monarch mounted on a charger, but the King has created a precedent by signing on the seal as an admiral standing on the deck of a battleship.
The almost unknown fact was one of many described by the Rev. J. Harvey Bloom in a paper on the romance of the Great Seal, read to the Society of Genealogists in London.
Just received from Burgeo, 600 pounds FRESH HALIBUT, not cold storage.—W. E. BEARNS.
