

### Buick Leadership.

Buick leadership is no mere boast. It is an established fact. Even during the past year, in which many companies felt depression, Buick enjoyed an increase in business, as shown by the deliveries of Buick cars into the hands of owners during the year 1924, compared with the deliveries during the two previous years.

For instance, from July to December 31st, 1922, there were more than 60,000 new Buick automobiles delivered to owners, and during the corresponding period of 1923 there were more than 75,000 new Buick cars delivered to owners and during the same period 1924 the deliveries of new Buick automobiles to owners numbered 85,000.

### Pleasing Presentation

Miss Cecily Kehoe, lately of the Royal Stores employ, left by Sable I. on Saturday for Boston, where she will in future reside. On Saturday, April 18th, as a mark of appreciation for her services since entering the Royal Stores employ she was presented with a gold piece from H. McPherson. And again on April 24th she was treated to another surprise when Miss Farrell on behalf of the employees presented her with another gold piece, which all goes to show in what high esteem Miss Kehoe was held by all who knew her. We wish "Cec" as she was known to many, Godspeed and all kinds of luck in the land of Uncle Sam.

### Glencoe Due To-Night

The Glencoe is due from Marytown to-night, and will go in dock at once for an overhauling. Her repairs will take only a few days, and she is expected to sail again to take up the regular service on Friday next. Passengers leaving town on Saturday by the morning train will connect with the ship for ports of call to Port aux Basques.

### THE TRAINS.

Yesterday's west bound express arrived Millertown Junction 7.20 a.m. The express with Kyle's mail and passengers is due at 5 p.m.

### Radiology

(By DR. HAM.)

We are getting very near the yearly static period of Radio, and will have to be content with occasional good reception. However, this drawback will be somewhat offset by the increased activities of local broadcasters. There is rumor of another station for St. John's. The more the merrier!

Judging by the number of local dealers who are now stocking parts, St. John's has great faith in the Radio industry. No doubt Newfoundlanders as a whole are yet to be awakened to the immense possibilities and advantages of Radio, but the majority of the people can "afford" efficient receivers, and the increased duty on Radio apparatus is a step in the wrong direction. In spite of this, Radio is a good business and will be better soon. So let these dealers who believe in Radio work heart and soul for its advancement, and incidentally for their own good. The dealers who sell Radio for profits only will soon drop out of the business.

In scientific discoveries the French have always held first place. The most prominent French scientist in the Radio world to-day is Professor Lator, who has given us the neutralizing and reflexing principles in reception, and the grounding of the lighting battery to prevent oscillation. Numerous patents taken out in the United States and European countries are bringing in millions to this developer of the Radio art.

As a result of observations made during the last eclipse of the sun, it was proven that short wave lengths are stronger during the daytime than are long wave lengths, but all wave lengths are stronger in signal strength in a receiver during hours of darkness. The commercial Trans-Atlantic stations of the future will undoubtedly use very short wave lengths and beam transmission.

An English invention known as the Hale-Lyle system creates an electrostatic field in the room where reception is desired, and incoming Radio signals cause the telephone to be operated by and in accordance with the variation in the electrostatic field. This enables the Radio listener to hear broadcasts with a pair of telephones which have no coils attached to them and to walk about the room while listening.

The Jewett Radio and Phonograph Co., of Detroit, have begun the erection of a five kilowatt station.

As an aid in the Religious campaign now being conducted in France, an extensive amplifying system has been erected in the famous old Cathedral of Notre Dame, thus enabling all France to listen to its music and sermons.

Do not put your loudspeaker on the back of your your receiver. The loudspeaker should be facing away from the receiver, so as to prevent the valves picking up its vibrations. For this reason a separate loudspeaker is preferable to one built in the receiver.

The Halifax Board of Trade are considering the erection of a high powered station. The advantages to Nova Scotia of such a station was the subject of a recent address to the council by Mr. Thompson of the Marconi Company. A station in Halifax would mean a boost to Radio in Newfoundland.

### Obituary

#### ARTHUR TILLEY, Elliston.

There passed away at Elliston on Sunday, April 26th, one of the best known men in Trinity and Bonavista Bays. His demise deserves more than passing notice, as he was one of the outport merchants and shippers so well known in the 70's and 80's. Arthur Tilley was born at Openhall, B.B., in 1849. His father, Robert, was school teacher there, but afterwards removed to Bird Island Cove or Elliston, to to-day. Here he developed a thriving business, and in this he was greatly assisted by his son. Those were the days of the cod-saline and the sealing vessels; and Arthur Tilley was always foremost in both. At 21 he married the belle of Trinity, Miss Mary Grant. Many of the older residents of Trinity still remember the event. Trinity was bedecked with bunting in honour of the occasion; the late Rev. Canon Lockyer was one of the bride's boys. On his father's death in 1872 the whole business devolved upon him, and he conducted the same successfully until the Bank crash. From that time he devoted himself to farming in which he was eminently successful. Mr. Tilley was the recipient of the Royal Humane Society's Medal for helping to save the lives of the crew of the S. S. Eric, the story of which has been so graphically told by our local historian, H. F. Shortis, Esq. His funeral was attended by so many friends from Trinity, Catalina and Bonavista, that the Church which he and his father had been the means of building was filled, many having to remain outside. He leaves to mourn, three sons and four daughters. His wife predeceased him in 1895. One son Robert, died in Alaska, in 1920. Ernest, of Leominster, Mass., James of this city, Duke at home; Alice, (Mrs. Chandler) of Leominster, Mass., Daisy, (Mrs. W. N. Butt) of this city; Katherine, (Mrs. H. Butterick of Leominster Mass.), Jean, (Mrs. George Corman) of Boston, Mass. One of the saddest features is that both Mrs. Chandler and James—the one from Leominster Mass., and the other from this city—arrived at Elliston only a few hours after their father had passed away.

#### MAGMA COPPER CO. RESUMES DIVIDENDS.

Directors Vote 71-Cent Distribution, The First Since Suspension In January, 1919.

#### NEW YORK, April 17.—Directors of the Magna Copper Company yesterday voted to resume dividend payments on the company's stock and declared a dividend of 72 cents a share payable on July 15 to stockholders of record June 15. This is the first dividend to be paid the Company since January, 1919. At that time payments were suspended in order to conserve current assets for the purpose of carrying out the Company's programme of expansion.

The statement of earnings for the first quarter of the current year, made public yesterday, showed net earnings of \$11,542 and in the first quarter of 1923, when the road was suffering from the extraordinary combination of bad weather conditions and after-effects of the 1922 ship strike a deficit of \$4,688,530 was shown. By flat calculation, making no allowance for usual seasonal trend of earnings, surplus after charges for the first quarter was at the annual rate of over \$3,000,000, or \$2.50 per share on 1,571,179 shares of stock.

# HARTLEY'S MARMALADE

Owing to the Revision in the Customs' Tariff of Newfoundland, it is with pleasure we announce that this world-renowned Marmalade may be purchased at most reasonable prices everywhere.

A 2 Pound Crock of Hartley's Marmalade may now be had at practically the same price as the one pound size was costing some months ago.

cent, convertible gold bonds on June 1 at 105 and accrued interest. The right to convert these bonds into common stock will cease on May 22.

The Fisk Rubber Company yesterday announced a quarterly dividend of \$1 a share on the first preferred stock, payable May 1. The company resumed dividend payments on this issue three months ago.

#### NEW HAVEN HAS BIG FIRST QUARTER.

Surplus After Charges For Three Months Ended March 31st, Estimated at \$904,000—Best Showing for Period in Nearly 20 Years. BOSTON, April 17.—The New Haven Railroad will show for March a surplus after charges probably exceeding \$250,000, bringing surplus earnings for the first three months of this year to an estimated \$904,000. This constitutes the best first quarter dividend of 1 3/4 per cent on the Class A stock payable May 15 to stockholders of record May 1.

#### In the first three months of 1924, New Haven earned a surplus over charges of \$11,542 and in the first quarter of 1923, when the road was suffering from the extraordinary combination of bad weather conditions and after-effects of the 1922 ship strike a deficit of \$4,688,530 was shown.

By flat calculation, making no allowance for usual seasonal trend of earnings, surplus after charges for the first quarter was at the annual rate of over \$3,000,000, or \$2.50 per share on 1,571,179 shares of stock.
