Washington, May 22.—In the House yesterday Mr. Baker, of New York, offered an amendment to the Tariff Bill providing that all articles on importation into the United States, whether embraced in the free list or otherwise, shall be subject to and pay no less rate of duty than is or may be imposed by the country of export on like articles exported into the United States. The Tariff Bill was reported to the House at noon by the Committee of the Whole. The previous question on the engrossment

The Tariff Bill was reported to the House at noon-by the Committee of the Whole. The previous question on the engrossment and third reading of the Tariff Bill and amendments was ordered by a vote of 161 yeas to 143 nays. Coleman, of Louisiana, and Featherstone, of Arkansas, were the only Republicans voting in the negative. Adams, of Illinois, and Butterworth refrained from voting.

Tha House then considered the amendments agreed to in Committee of the Whole. The first amendment upon which a separate vote was demanded was that of changing the phrascology of the tin plate clause and it was adopted by 150 yeas to 149 nays. A committee amendment, to restore jute yarns from 30 per cent. (as in the bill) to 35 per cent. (the present), was rejected by 144 nays to 143 yeas. The effect is to reduce the duty 5 per cent. by taking advantage of a point in the bill, and is the first Democratic victory so far.

The Tariff Bill was passed in the House by a strict party vote, with the exception of Mr. Coleman, of Louisiana, who voted with the Democrats in the negative. Mr. Butterworth voted aye.

Butterworth voted ave.

It was a scene that would have put Bedlam to blush. Both sides were put Bediam to blush. Both sides were equally responsible. It was only when McKinley called for the yeas and nays and the roll call began that one could even collect his thoughts. The roll call soon developed that every man stood solidly with his party, and that the inevitable will of the Committee on Ways and Means could be real. the Committee on Ways and Means could by no hook or crook be defeated or longer delayed; the amendments acted upon were doomed to fail, to be lopped off, as the horticulturist would prune a tree, and the

HALIFAX, May 21.—The Liberals Nova Scotia to-day achieved one of the grandest victories in its history. Out of a House of 38 seats the Liberals have carried at least 28. The metropolitan constituency of Halifax city and county has returned Premier Fielding, Hon. Speaker Power and Wm. Roche by about 800 majority. Fielding will have about 1,000 majority. About four weeks ago the child was placed in the care of Miss Fuller, of the Horace Mann School, and since then she has acquired the power to express herself in spoken words which are perfectly intelligible to everyone. The wonderful progress made by the child within two years after she had first been placed in the South Boston Asylum is illustrated by her ability to write. After the words became familiar to her she began to use them in her writing, as shown in this little composition which she wrote during her visit to Boston:

"This morning teacher and I sat by the window and we saw a little boy walking on the sidewalk. It was raining very hard and he had a very large umbrella to keep off the rain drops.
