Was the Captain to Blame?

SYDNEY, N. S. W., Nov. 22 .- The inquiry into the recent wreck of the passenger steamer Wairarapi, which went on the rocks during the voyage between this port and Auckland, has ended, and judgment will be given on Nov. 30. Several witnesses said that when the steamer struck the captain jumped from the bridge, and he was not seen again. There was much delay in lowering the boats, and this is believed to have been largely the cause of the great loss of life. Had there not been a total lack of discipline, the witnesses said, the dead list could never have approached 100.

Will Queenstown Be Sidetracked? London, Nov. 22 .- The officials in the London and Liverpool offices of the Cunard Steamship Company will neither confirm nor deny the report that the company intends to abandon Queenstown as a port of call. The concensus of opinion in mercantile circles is that in consequence of the deepening of the water over the Mersey Bar fast steamers need not wait for high tide. It is therefore the quicker way to carry the mails direct from Liverpool without calling at Queenstown.

The President of the Chamber of Shipping said at a meet ing today that the report of the interview with Postmaster. General Morley had been misunderstood. It was the intention of the Cunard Company, in view of the special permanent service to be provided by the postoffice for American mails delivered via Queenstown, to continue calling at that port.

The Price of Peace.

London, Nov. 22. - The Globe prints a dispatch from Hiroshimi stating that advices have been received there from China, in which it is intimated that it is the intention of the Chinese Government to offer an indemnity 100,000,000 tacks to defray the expenses of the war as one of the condi-

A Washington dispatch says: "Interest in the Japanese-Chinese war since the jublication of the fact that Japan will receive dvances looking to a settlement of the conflict alone from China centers in speculation concerning the limit of the further duration of hostilities. It is assumed that they will in all probability cease with the fall of Port Arthur, but when that occurs is doubtful. Owing to the strength of the position it is believed in well informed ircles that a siege will be resorted to by he Japanese commander.

A dispatch from Che Foo says that all the vessels of the Japanese fleet are now at Talien Wan and the troops are marching southward to attack Port Arthur. The Chinese there are making preparations to present a determined front to the enemy. The captain of the Chinese warship Chen Yuen, Lin Tai Sau, committed suicide by taking a large quantity of opium because of the stranding of his ship. The vessel struck a rock and is probably a total wreck. The Chinese authorities at Shanghai, however, have arranged to send ships and men to her assistance, believing the

From Port Arthur the Graphic has this dispatch, dated Nov. 19: "Port Arthur resembles a city of the dead. The streets are empty. The soldiers, of which there are 20,000 here, occupy the houses. All the troops here of superior quality and well armed and drillen. Ammunition is plentiful and the town is victualled for six weeks. LONDON, Nov. 22 .- A dispatch bearing the Shanghai date, but of doubtful authenticity, says that the Mongolians are rebeliing on account of Gen. Yek's execution of six Mongolian princes and that many

Chinese soldiers are joining them. The Times' correspondent in Shanghai says the road from Tien Tsin to Pekin is occupied by Hunanese troops and is becoming unpleasant for travelers. The Catholic fathers remain at their stations in Manchuria, but the Protestant missionaries have returned. The latter report that the Chinese fought stubbornly under Gen. ARRIVAL OF THE COREAN

After a Perilous Voyage of Sixteen Days.

ST. JOHNS, Nfld., Nov. 22 .- The overdue Allan line steamer Corean, fcom Liverpool, for this port and Philadelphia, arrived here this morning after a sixteen days' voyage in weather which Capt, Main reports as being the worst ever experienced within his knowledge. Immense seas broke over her, rendering it impossible for the officers of the ship to maneuver her. Snow storms were frequent and the ship was a mass of ice, looking, as she entered the harbor, like an enormous ice berg. Oil had to be used to break the force of the seas. Otherwise, the officers say, the Corean would have foundered. The 60 passengers on board the Corean expected to go to the bottom every minute.

No serious damage was sustained by the vessel. She will proceed to Philadelphia

A Large Fleet of Steamers Overdue at New York.

NEW YORK, Nov. 22 .- The White Star ine steamer Bovic, which sailed from Liverpool Nov. 9, is three days overdue, and has not been sighted since she left port. She is one of the staunchest boats that sails from this port and almost uniformly makes the passage across the Atlantic in ten days. Her non-arrival, therefore, causes some uneasiness. It was her sister ship, the Naronic, which some two years ago sailed from New York and was never heard of after. H. Maitland Kerey, agent of the White Star Line, said today that he did not fear for her safety. He recalled the fact that the speedy liner New York, due last Friday night, was 36 hours overdue in consequence of stress of weather. The Bovic has a valuable cargo, including a number of race horses.

Other overdue steamers whose delay is considered less remarkable, are the Taormina from Hamburg, six days overdue; the Maranhenz from Para, five days overdue, and the State of California from Glasgow, two days overdue.
