## Turn need into demand

UNGER seeks food; thirst calls for drinks; fatigue requires a place to rest; labor must be eased by recreation. Human nature and human wants create demand. If you can do your share in filling it, tell people so. Turn universal need into demand for your particular product.

Through the Daily Newspapers give the people the news about your goods. Make it part of the daily life of Canada.

"Newspaper advertising," says Ames Holden McCready Co., Ltd., "is as necessary to the successful distribution of a trade-marked piece of merchandise as food, raiment and shelter are to the well-being of the individual.

"Newspaper advertising nourishes the product; it clothes it with reputation, integrity and respectability; and it protects it from the storms of competition and the inroads of goods of questionable parentage."

> The human demand for news has created a unit of daily newspaper circulation for every family in Canada and has left a million besides to provide for casual readers. If you need every unit today, it is yours; if only twenty thousand, the rest can stand aside without adding one useless dollar to your cost of distribution.

Issued by the Canadian Daily New spapers Association, Toronto.
