J. G. MCCOLL, EDITOR H. B. ANSLOW, MANAGER

CAMPBELLTON, N. B., MARCH 24th, 1911.

RECIPROCITY.

The International Paper Co. of the United States has entered a vigorous protest against Reciprocity on the ground that if paper and pulp are allowed into the U. S. duty free the result would be that skilled labour and paper plants would be driven from the U. S. into Canada.

This is a point which all the opponents of the agreement would do well to think over. We have the pulpwood here and the International Paper Co., and many others know that Canada will reap the benefit of the labour and manufacture, in such an arrangement, as there would be no necessity to pay heavy freights transporting the pulp wood and returning the paper into Canadian markets when the whole operation could be concluded in the one district. This protest clears the air to some extent and shows us that all the many opinions expressed have been only to beg the issue, emanating from interested manufacturers and capitalists.

To go further, how is it that if the agreement was a give away of Canadian interests, that the U. S. Senate even under pressure from the President, refused to snap at the bargain, and adjourned even without a vote on the matter.

In the lumber business alone, we in the Maritime Provinces see the benefits which would accrue from an open market, and as we now see the farmers in the West standing solidly for the agreement we may take it for granted that the sooner the tariff is amended, the sooner we shall see a great forward movement in Canada's trade.

The articles on reciprocity from the Canadian Century are appearing in the Graphic as in many other publications, as advertising paid for at the current rate of advertising.

There is nothing more indicative of the trend of popular opinion in the West in favor of reciprocity than the antagonistic stand which Hon. Clifford Sifton's own Winnipeg organ has taken against him on that question and the way in which it mercilessly ridicules the loyalty-annexation cry. In a recent issue, it discussed the subject of "True Loyalty," saying:

"The citizen who is truly loyal to his home does not parade the streets telling everybody of his great admiration and affection for his wife and children."

"The true citizen of a country does not go up and down the land telling how much he loves the respective Lieutenant-Governors, Earl Grey, King George and the Old Flag."

"The man who doubts the loyalty of the highest type of Canadian, the courteous Englishman, the sturdy Irishman, the reserved Scotchman, or our good citizens from other countries, because the respective nationalities are not rushing up and down the thoroughfares calling for 'three cheers for Britain,' is a greeny of the greenest type. The best citizens of this Empire have their loyalty in their hearts, not on their sleeves."

"Britain has set the example to all the nations of the world in carrying on trade and commerce unhampered by taxes and tariffs. Canada has followed but slowly in the footsteps of the Mother Country, but, almost at the point of revolt on the part of the greatest producers in Canada, our Government has made a move towards gaining access to our nearest and one of the greatest markets in the world. And what a noise is heard."

"The noise is not made by the producers whose products are placed on the free list, and who will be in competition with like producers on the American side of the line. The noise is made by those who, not short-sighted, see that the success of all open market in farm products will soon lead to a more open market in manufactured goods."

The Canadian Northern is to

build 600 miles of track this year. Considering that Mr. Boden has told us we are to lose all our carrying trade, wouldn't it have been better for Sir William to have spent his money buying stock in Jim Hill's roads?

Be sure you're right, then go ahead. But if the average man did this he'd never move at all.

DRUNKENNESS CAN BE CURED

Old Fallacy That Drunkenness Cannot Be Cured Exploded.

Many men drink who desire to stop the habit. Whiskey, however, has undermined the constitution and created a craving that is not to be denied, and the man must have whiskey or something that will remove the craving and build up the system and restore the nerves.

Samaria Prescription stops the craving, steadies the nerves, builds up the general health and makes drink actually distasteful and nauseous. It is tasteless and odorless, and can be given with or without the patient's knowledge, in tea, coffee or food. It is used regularly by Physicians and Hospitals. It has cured thousands in Canada, and restored happiness to hundreds of homes.

Read what Mrs. G., of Hull, says of it and what it did for her. "It is four months today since I started to use your remedy. I followed the directions and had the best results. One week after I started using your Remedy, the patient stopped drinking, and has not drunk a glass of liquor since. I hope you will accept my heartfelt thanks. Hoping God will bless your remedy whenever tried, I remain,

Mrs. G., Hull, Que. (Name withheld by request.) Now, if there is anyone in your town who needs this Remedy, tell them of it. Practical philanthropy can take no better form. If you have a husband, father, brother or friend who drinks, help them help themselves. Write to-day.

A FREE TRIAL PACKAGE of Samaria, with Booklet giving full particulars, directions, testimonials, price, etc., will be sent in a plain sealed package to anyone mentioning this paper. Correspondence sacredly confidential. The trial package alone has often cured. Write to-day.

The Samaria Remedy Company, Dept. 77, 49 Colborne St., Toronto.

For sale also by Thos. Wran, druggist, Campbellton.

Transplanting the Englishman

The average Canadian born probably has not time to stop and consider how much it means to the Englishman of the middle class, to pick up his "baggage" and strike for Canada. It is a difficult thing to contrast the life in an old English town—a cathedral town for instance, with the life that is led in a brand new Canadian town. Mr. Augustus Bridle succeeds, however, in doing this, in his article on A New Town for an Old One in the March issue of MacLean's Magazine. The article is illustrated with photographs and etchings showing the old crumbling walls of England, side by side with the board shacks of a new prairie town. How Reginald Snippet, the imaginary son of an imaginary baker, living in the English Cathedral city of Highton—also imaginary, comes to Canada and learns to live and think and work like a Canadian after being almost swamped, is indeed a story worth reading.

ECZEMA CURE A BEAUTY WASH

Although D. D. D. Prescription has been recognized for years as the one remedy for Eczema, Psoriasis, and all other forms of skin diseases, it is now known that there is no other wash, even those used by the beauty specialists, that can compare with this mild liquid for cleansing the skin of pimples, blackheads, rash, and all similar skin affections.

For this reason alone, a bottle of D. D. D. should be kept on hand in every household. A free trial bottle will show you the merits of this great remedy as a complexion wash.

D. D. D. seems to remove the cause, whatever the trouble may be, cleansing the skin, and leaving it as soft, as smooth and clear as that of a healthy child.

Write the D. D. D. Laboratories, Dept. C. D. 49 Colborne St., Toronto, and prove its wonderful effectiveness. (For sale by all Druggists)

EARTHQUAKE AT PROVINCIAL CAPITAL

Dishes Rattled and Were Knocked Down at Daoktown.

Fredericton, March 20.—An earthquake shock was distinctly felt here about 8 a. m. today during a snow storm. Reports from Daoktown indicate that the quake was felt worse there than here. In some of the houses the shock was felt so much that dishes rattled and in some cases were knocked down and broken.

Several residents in the vicinity of Queen and Pitt streets, St. John, assert that they felt a tremor like a slight earthquake this morning about eight o'clock.

TOWN COUNCIL

(continued from page 1) sewerage committee recommending payment of accounts totalling \$105.

Report received and adopted. Councillor McDonald as Chairman of the water and sewerage committee brought down the Annual Report of this committee. The document was a most interesting one giving details of all the work done during the year. The report was received and placed on file.

Councillor McDonald brought up the matter of the placing of water and sewerage connection on an unnamed street, and the Town Solicitor said that the deed of this street would be signed as soon as he got back from Fredericton.

Councillor McDonald and Councillor White thought that the pipe line which is supposed to cross a corner of Mr. George Duncan's lot should be removed. This raised up an old question as to why some one did not pay water rates and under what agreement they had that privilege. After desultory talk the tender of S. D. Harriman for 4th Water Main (70 yards) for the sum of \$268.42 was read and accepted, subject to the approval of the Town Engineer.

Councillor White brought in the report of the Police and License committee which recommended payment of accounts totalling \$88.50.

Report received and adopted. Councillor McLennan read the report of the Fire Protection Committee, recommending payment of accounts totalling \$114.95.

Report received and adopted. Councillor Richards submitted the report of Public Property and Street Committee recommending payments of accounts totalling \$289.75. Report received and adopted. In a further report Councillor Richards brought up the matter of widening O'Leary St., to 40 feet, recommending the purchase of a piece of land from W. T. Gray for the sum of \$115 and from Thos. Ellsworth for \$100. This is for 5 feet from each of these persons. The recommendation was accepted by the council.

Councillor Richards submitted a plan prepared by Town Engineer Black, and recommended that the plan of Andrew Street as so prepared by Mr. Black showing the permanent levee be accepted. This was the finding of the council. The Annual Report of the Public Property and Streets Committee was submitted by Councillor Richards, which was received and placed on file. Councillor McDonald on behalf of the Board of Health asked the sanction of the Council to allow the Chief of Police to appoint the Chief of Police as Sanitary Inspector. Councillor White thought it was a good idea to have the Chief take up this work, and moved accordingly. This was seconded and carried.

Councillor McLennan brought up the question of the sewerage at his shops, being without any sewer connections, and also being deterred from putting in a sewer. As the town have the power to put down sewers in private ground Coun. McDonald thought that the town should look into this matter at once. Mr. McDonald also brought up the matter of Building Permits and His Worship spoke of the necessity of Boarding Houses for the expected rush of workmen.

Council adjourned.

Personal

O. T. Rogers was in town Monday.

Sheriff Stewart was in town Monday.

Mr. Stewart Bell was in town last night.

W. A. Mott was in town Wednesday and Thursday.

Mr. Lester Sullivan has returned from Moncton.
