From both these points of view the Pope is still a very great personage, and as such it might often be useful to the Canadian Govern-ment to be able to communicate with him freely through properly accredited agents. When Belgium abolished the legation at Rome or when the French Left professed its desire to follow their neighbors' example, Canadians can see that for a government to deprive itself of any kind of information that may be useful is simply to spite itself. ant point—that even supposing the represen-tative of our Government at Rome did not add much to his knowledge, it might materially influence his actiou. Causes the Stomach and Bowels to be-come disordered, and the whole system to suffer from debility. In all such cases Ayer's Pills give prompt relief.

After much suffering from Liver and Stomach troubles, I have finally been cured by taking Ayer's Cathartic Pills. I always find them prompt and thorough in their action, and their occasional use keeps me in a perfectly healthy condi-tion. — Ralph Weeman, Annapolis, Md. uon. — Kalph Weeman, Annapolis, Md. Twanty-five years ago. I suffered from a torpid liver, which was restored to healthy action by taking Ayer's Pills. Since that time I have never been with-out them. They regulate the bowels, assist digestion, and increase the appe-tite, more surely than any other medi-cine. — Paul Churchill, Haverhill, Mass.

INVIGORATED.

IN VIGORATED. I know of no remedy equal to Ayer's Pills for Stomach and Liver disorders. I suffered from a Torpid Liver, and Dys-popsia, for eighteen months. My skin was yellow, and my tongue coated. I had no appetite, suffered from Head-ache, was pale and emaciated. A few borces of Ayer's Pills, taken in moderate doses, restored me to perfect health. — Waldo Miles, Oberlin, Ohio. DEER PARK PROPERTY, MERTON & BALLIOL-STS. ABOUT A DOZEN EXCELLENT LOTS LEFT, Eight Dollars a Foot. EASY TERMS. ONLYSI A FOOT DOWN.

This has been the most successful property placed on the Toronto market. Nearly all has been sold at good prices to persons who have built or intend to build. More than forty houses have been erected; the streets are made and sidewalks laid through to the next concession line. The lots are deep, level and beautifully sloping towards the south, overlooking the eity and the lake. They are nearer to the corner of Queen and Yonge than western and northe western of less real value selling for three times the price. This irregularity of proce cannot continue. North Toronto is beyond contradiction our best residential suburb. It is bigh, dry, naturally drained and wholly free from unlarits. The price of hand here must soon rise to the level of western property, which has become very expensive simply on account of its possessing railway facilities, which Nerth Toronto is soon

to have. The street cars pass the west ends of Merton and Balliol-streets and the Belt Line survey crosses the property about half a mile east of Youga. The First Concession Road passes the cast ends of the streets. This road is soon to be diverted through Rosedale, thus affording a new, short road which will be she pleasantest drive to the centre of the bit. The junction of the Don branch of the C.P.R. with the main line is near the eastern ends of Merton and Balliol-streets, thus bringing the property within easy reach of the suburban trains on the Canadian Pacific Belt Line which, will be completed and running in a few weeks.
