Before and After Using.
Restores Grey Hair to original color. Two might use from same bottle, hair of one becomes black, the other blond or other color as they were in youth. Stops Falling Hair, Dandruff, Itching. Cures all Scalp Diseases. Produces New Growth. Satisfaction guaranteed or money back.
Price 75 cents or two for One Dollar (postage paid.)
Not sold in stores, address
Canadian Hair Restorer Co., WINDSOR, ONT.

TREASURES OF THE DEEP.

Some of the Difficulties Which Confront Divers.

Hundreds of millions sterling in gold, silver, copper and precious stones are lying on the bottom of the sea, ready to the hand of the first person who will devise means of recovering them. Inventors in every part of the world (says Mr. F. Parker, writing in The Popular Mechanic's Magazine) are building submarine boats, diving armor, dredging apparatus and other devices, solely for the purpose of finding and bringing to the surface these sunken treasures. The two main problems to be solved are those of protection against water pressure and of providing light in which to work. The latter problem is more easily solved than the former. Modern developments in electric lighting make it practically certain that powerful searchlights can be devised which will give sufficient illumination for salvage operations at depths as great as 400 feet. The other and more serious problem is that of pressure. The ordinary diver's equipment depends upon a constant supply of air pumped in from above, and a rubber suit with a metal helmet, all airtight, or nearly so, to keep the water from rushing in the minute the pressure the air pumped through the hose becomes less than the water pressure from outside. At 200 feet the water pressure is a little over 8 1/2 pounds to the square inch; at 250 feet it is over 10 1/2 pounds; at 300 feet it is 13 1/2 pounds—and many of the sunken treasure ships lie at even greater depths. Very few divers have descended as deep as 100 feet. One adventurous young man went down 196 feet in Puget Sound, but on a second attempt his helmet was crushed by the 85 pound water pressure, and he was hauled up dead. Two English naval officers are said to have descended 210 feet, but could remain at that depth only a few seconds. The problem of getting down to the deep-lying treasure ships, therefore, is essentially one of constructing a mechanism sufficiently rigid to withstand the terrific water pressure. It must carry its own supply of oxygen, and it must be so constructed that the diver inside it can accomplish something after he reaches the wreck, even if he can do nothing more than attach a grappling hook to a copper ingot.

Won't Give Up Native Dress.

The church authorities of Munich have taken a stand against the picturesque costume of the Bavarian peasants. "Men who wear short trousers which show a part of the bare leg," said the Archbishop of Munich, "will not receive the comforts of the church." A tourist, writing from that city, says: "These people seemed to think more of their native dress than of the comfort. To show this they paraded, accompanied by women in their equally picturesque dress; were reviewed by the prince regent, and 200 couples danced the schuhplattler with a vim which would have been impossible had the men and women worn conventional dress. A schuhplattler with long pants would be as comfortable as a foot-ball player on roller skates."

Had a Hard Cheek.

Mr. Cooke was a traveling man and was slightly injured in a railroad accident. One of the officials of the road went to his home to break the news gently to Mrs. Cooke. "Madam," he began, "be calm. Your husband has met with a slight—that is to say, one of the drive wheels of a passenger locomotive struck him on the cheek, and"— "Well, sir," interrupted the woman, "you needn't come around here trying to collect any damages of me. You won't get a cent. If your company can't keep its property out of danger it'll have to take the consequences. You should have your engine insured!"

A BETTER REMEDY THAN NASTY SALTS

Few people like to take physic, especially salts, because they are so disagreeable to take and because of the griping and pains they cause. Rexall Orderlies enable you to take less physic, and all without griping, purging or excessive looseness. Salts and harsh physics usually give only temporary relief and often leave the bowels worse off than before. Rexall Orderlies move the bowels promptly, and soothe, tone and strengthen the intestinal muscles, leaving them healthy and regular in action. They taste like candy, and the movement they cause is as easy and natural as though your bowels were in perfect health and you never had to take any physic at all. We have so much faith in Rexall Orderlies that we urge you to try them with the understanding that, if they do not satisfy you in every way, all you have to do to get your money back is to tell us. We honestly believe them to be the best bowel remedy made. In vest pocket tin boxes; 10c, 25c, 50c.
You can buy Rexall Orderlies only at The Rexall Stores, and in this town only of J. W. McLAREN, Watford.

Forestry experts have demonstrated that teak timber can be raised on plantations that is as strong as that from natural forests.

THE HOWDEN EST.

GROCERIES

Our grocery department is always well stocked with the best we can buy in staple and fancy eatables. Lowest prices. If you are not already a customer, try us.

This Farmer Shows How Good Roads Benefit

MR. J. J. HOUSTON, who lives on a road that has lately been improved, in Lauderdale County Mississippi, makes the common-sense statement which follows:

"I have never made an investment for which I have gotten as much financial returns and satisfaction out of as I have out of this road. The advancement in property alone has been sufficient to four or five times pay the whole cost of construction, and I don't think the county could make any investment that would bring in as much returns as to build a network of them all over it. It is such a good thing that I want every man in the county to have one just like it, and I am willing to pay my part of the taxes to help him get it."

Build Concrete Roads

Then your road taxes will be *invested* and not merely *spent*. They will return many times the amount they cost, and those returns will show in the increased valuation of your property, the lessened cost of marketing your produce, the longer life of your horses and vehicles, the greater conveniences and general prosperity of your community.

Concrete roads outlast all other kinds of roads and require practically no repairs for many years. They are safe, clean, permanent and passable every day in the year.

Write for, free, Good Roads literature and learn how good roads will better your conditions. Address:

ROOF UNHARMED

About nine years ago the Perforated Pad Co., Woonsocket, R. I., covered their factory with J-M Asbestos Roofing. Recently they had an interior fire which burned almost through the roof boards, but the Asbestos Roofing was entirely unharmed—didn't leak—was as water-tight after the fire as before, and what was more to the Perforated Pad Co., this fireproof roofing prevented further spread of the fire—prevented several times greater damage.

J-M ASBESTOS ROOFING

is just as fireproof as slate, with none of the shortcomings of slate. It is all-mineral. We use Asbestos as its base. Asbestos, you know, is a rock. This all-mineral Asbestos Roofing does not rot or decay—doesn't go to pieces like other ready roofings. And it doesn't rust like tin. It is unaffected by acids, chemical fumes, gases or salt air. And it is the only prepared roofing that never needs painting.

Write for Booklet telling all about J-M Asbestos Roofing.
