MacFarlane & Co.,

VANCOUVER, and

W. F. Teetzel & Co.,

NELSON.

The above illustration shows the method of holding and sighting BRUNTON'S PAT POCKET MINE TRANSIT, when taking courses or horizontal angles. The construction is such as to permit of simultaneous sighting and reading. No tripod or Jacob's staff is necessary, and an operator after becoming accustomed to its uses can take the transit from his pocket, take a reading and replace the instrument before a sighting compass can be placed. The most accurate and reliable pocket instrument on the market. Send for illustrated catalogue B.
