

THE EXPOSITOR OF HOLINESS.

BROWN'S CHART
-OF THE-
MUSIC OF SPEECH
-BY-
FRANCIS J. BROWN.

THE Chart shows the evolution of speech Physiologically and Psychologically; the Natural Organic Formation and Musical Relation of all the elementary sounds of our language; how to give the greatest possible Compass, Volume and Melody to the speaking voice in a few weeks' practice; how to overcome all defects of Speech, such as Stammering, Stuttering, Hesitancy, Lispering, Burring, Nasality and all forms of mal-articulation—without the aid of a Teacher; how to give the greatest possible carrying power to the voice with the least effort to the speaker.

The Chart is pre-eminently a Self-Instructor, and is worth more than FIFTY PRIVATE LESSONS ON VOICE CULTURE to any Minister, Lawyer, Lecturer, or Elocutionist who wishes to acquire a deep, rich and melodious voice.
