Dear Shes.—Heplying to your favor of the 10th list., I have pleasure in stating that the "Bryce's Patent Asphalt Pavement" laid by you in this Company's purifying house at the works and in the yard and cellur of the Company's Offices, Toronto Street, in Preember last, has given entire satisfaction. That laid in the yard has been exposed to the rain, snow and frost during the winter, and has not cracked at all, and seems to be quite as good as when laid down. The pavement is also laid above the cellur and has proved perfectly water-tight, not allowing any moisture whatever to penetrate through into the cellar, although wet snow has been allowed to remain on it for a considerable time.

Yours truly, W. H. Pearson, General Manager and Secretary.

DEAR Sirs,—Replying to yours of yesterday, in reference to the stable floor which you laid for me some time ago with your pavement, I have pleasure in saying that when I has saw it, which was after it had been in use about four months, it appeared to be standing very well indeed, even the sharp winter calks having made very little impression on it.

Yours truly,
