

and experience soon led to his finding himself surrounded by a large and daily increasing *clientele*.

For just thirty years Dr. Reddy continued to practise his profession in this city, his perseverance and assiduity knowing no rest, constantly and busily employed from morning till night and very often from night till morning, until last year, to the regret of his many friends, it was observed that his health was beginning to fail. He went to Europe for change of air and the much needed rest, but unfortunately no return to health was to come to him and he died in Dublin on the 23rd January, 1884.

Dr. Reddy held many offices of the highest trust and honor in this community. In 1856 he was appointed one of the attending physicians of the Montreal General Hospital, which post he held until he retired upon the Consulting Board, now three years ago. In 1856 he received the degree of M.D. *ad eundem* from McGill College, and for many years served as Representative Fellow in Medicine in the corporation of that University. He was a constant attendant at the meetings of the Medico-Chirurgical Society and was elected President. He was a long-service officer in the volunteer militia, having been Surgeon of the Montreal Garrison Artillery.

His was a quiet, unostentatious, busy, blameless life. His high moral character and strict professional integrity, his broad benevolence and universal goodness of heart, with kind and obliging manners, procured for Dr. Reddy the respect and esteem of all his professional friends and *confreres*, his numerous patients, and the general community. His memory will long be cherished and his character and good deeds held in warm remembrance.

ALEX. JAMIESON, B.A. (Queen's), M.D. (McGill, '77), of Kansas City, died a few weeks ago. Dr. Jamieson was a native of Lancaster, Ont., and after completing his college course at Queen's, came to McGill, where he distinguished himself as a very able student. Several years ago he moved to Kansas City, and had there succeeded in building up a good practice. He was President of the department of Chemistry and Pharmacy in the University of that city.
