

For over seventeen years

KASAGRA

has been always the same.

We couldn't improve it even if we wished.

This uniformity of strength has justly earned for it the title of

The Standard True Tonic Laxative

Ninety nine physicians out of one hundred acknowledge the superiority of Kasagra over every other Cascara Aromatic preparation. They recognize its tonic laxative properties which make it

Different From All Others

Best results are obtained from small doses, 5 to 15 minims well diluted three or four times a day. Gradually decrease the dose.
