## Alcoholism and Drug Habituation

A harmless combination of sedative and tonic drugs, widely and successfully used in England during the past twelve years, where under the cordial endorsement of English physicians, most gratifying results have been obtained in thousands of cases.

The ordinary case requires no detention from business and complete treatment lasts twenty-four days. Best results are obtained when the remedy is given under a physician's direction.

### Not a Commercial Enterprise

The association aims to be a self-sustaining philanthropic work. All officers are pledged to draw no profits from the enterprise, which are to be devoted to expanding and enlarging this important welfare work.

Physicians are earnestly requested to send for literature and full information.
